TORPAQUATEKNIK

TorpAqua Feeding Robot

Program-operated

Simple and Accurate Dosing of Feed Dispensers

- **TorpAqua Feeding Robot** controls up to 15 feeding dispensers. The dispensers can be programmed independently of another.
- **TorpAqua Feeding Robot** is very easy to operate via the menu in the display.
- **TorpAqua Feeding Robot** spreads feed with electric motor in a circle with a diameter of 0.3 to 4 meters depending on granulate, pellet size and spreading disk size.
- **TorpAqua Feeding Robot** dispensers are adjustable from 0 to 5,760 feedings per day in periodical regime.
- **TorpAqua Feeding Robot** daily programmes the feeding amount for each tank with expected fish growth.
- **Adjustable parameters:** feeding time, feed coefficient, feeding amount, fish volume per each tank.
- **TorpAqua Feeding Robot** reports on feed distribution, fish volume and fish growth for each tank.
- **TorpAqua Feeding Robot** can download feeding data to a PC via **PC-link** (option)
- **TorpAqua Feeding Robot** optimises the feeding use. Feed dosing is very accurate. With 1.0 mm granulate one can spread one gram at a time.

- **TorpAqua Feeding Robot** gives you the possibility to fill the feed container (for instance) once a week completely. The TorpAqua Feeding Robot will take care off the feeding.
- Available feed container sizes: 0,8 l.; 7 l.; 12 l.; 30 l. Material: plastic
- You can use granulate feed from 0.6 to 1.3 mm and pellets from 1.3 to 6 mm.

Growth Results:	
Feed conversion rate (trout with a start weight of 0.05 gram and an end weight of 1-2 gram)	0.52
Feed conversion rate (sea trout with a start weight of 8-10 gram)	0.7

Fields of Application: Aquaculture
