Sterilization Method

We, the company

Tekno Medical
Optik-Chirurgie GmbH
Sattlerstr. 11
78532 Tuttlingen

Do hereby confirm, that our products, in case if not stated otherwise, can be sterilized in autoclaves with pre-vacuum, at 134°C during a time of at least 5 minutes.

The company Tekno-Medical Optik-Chirurgie GmbH has participated in various studies to show and prove the resistance of the products distributed under the brand TEKNO® to this form of reprocessing treatment.
