

Falcon™ 5ml Round-Bottom Polystyrene Test Tubes
Falcon™ 352058

Description

Widely used and referenced in laboratory protocols
Dual position snap-cap prevents sample loss with ease of handling

Sterile, nonpyrogenicity tested to less than 0.1 EU/mL (Cat. No. 352008 nonsterile)

The foundation for consistent research results

Provide reliable containment of laboratory fluid samples

Polystyrene tubes are best suited for procedures requiring high optical clarity.

Packaging Bag of 25, 500/Cs.

Material Polystyrene

Closure Snap Cap

Dual-position snap caps, heavier gauge walls, and unique construction provide a secure, positive seal

Medical-style packaging materials

1,400 RCF rating (RCF claims refer to Relative Centrifugal Force measured in g-force for materials with a specific gravity of 1.0, used in an appropriate rotor with correct cushion and safety precautions. Tubes used with organic solvents at temperatures below 0°C may have lower RCF ratings.)

Tube dimensions and volumes are approximate
