Invented in 1970 by Dr. Leon Alger, a practicing ophthalmologist for 40 years, the ALGERBRUSH II is used worldwide by ophthalmologists and emergency room physicians.

At The Alger Company we feel we have a quality product at a reasonable price. This will enable most practitioners to provide an ALGERBRUSH II for each operatory.

Field tested for many years and CE marked since 1998, The Algerbrush II comes with a six-month repair/replacement warranty.
