HYDRAULIC SWEEPING BRUSH WITH CENTER DRIVE

VITRA SNOW SWEEPER

Large Brush Diameter
600 mm. brush diameter

Hydraulic Swing
Hydraulic angle adjustment

Quick Mounting
Standard A-frame

VITRA

A strong Danish family..

SNOW SWEEPER

With this hydraulic center-driven snow sweeper with a unique centered swing system, we offer a brush optimized to Vitra's high performance, but also its compact dimensions. With the unique hydraulic center swing, it is possible to adjust the working angle, without side offset the sweeper. This means that the sweeper does not have to be wider than the machine to make sure it sweeps the machine free when it is angled.

The robust structure, as well as the high corrosion resistance in the paintwork, ensures in part an efficient utilization of Vitra's high performance, but also a sweeper that lasts for many hours of work for many years.

As the frame does not need to be separated during replacement of worn brush rings, a quick replacement is ensured. The brush is divided into two brush roll halves, each driven by a center mounted oil engine.

- Hydraulic drive
- Robust Construction
- Quick replacement of brush rings
- C5 corrosion resistant paint quality
- Working width same as total width
- Center Swing = No Side Offset

Solid support wheels ensure efficient and optimal sweeping as well ensure that minimal brush wear occurs during use.

Splitting the two brush roll halves saves a lot of time and ensures a quick replacement of brush rings.

The brush guard is equipped with rubber edges that protect against damage in the event of a collision.

Manufacturer:

Lindholdt Maskiner A/S

Industrivej 8
DK-6818 Årre

Tlf: +45 76 77 44 77

Mail: Info@lindholdt-maskiner.dk

Web: www.lindholdt-maskiner.dk

The sweeper is built with center swing which ensure that the brush is not offset when the working angle is adjusted and thereby always achieved maximum utilization of the entire sweepers breadth.

FEG1100

Total/Working width:	1100 mm.
Weight:	160 Kg.

FEG1300

Total/Working width:	1300 mm.
Weight:	170 Kg.

FEG1500

Total/Working width:	1500 mm.
Weight:	180 Kg.

Height:	647 mm.
Length:	908 mm.
Brush diameter:	600 mm.
