

Thin. Nimble.
And **incredibly**
precise.

Introducing the
**ECHELON FLEX™ Powered Vascular
Stapler with Advanced
Placement Tip**

Enables the **most precise placement**
on fragile vessels

- **26% narrower curved, blunt tip anvil**, providing superior maneuverability around vascular structures
- **26% thinner shaft**¹ offering the greatest angle of reach in the tight intercostal space
- **11% greater manual articulation in each direction**,² allowing more flexibility during final placement

A narrower anvil, thinner shaft and more articulation than Endo GIA™ Curved Tip Reload with Tri-Staple™ Technology.

Enhanced stability on fragile vessels

- **83% reduction in tip movement**³ during firing for less movement during transection, potentially resulting in less trauma

Examples of applicable procedures

Designed specifically for transection of fragile and/or difficult-to-reach vessels

- **Thoracic**—lobectomy, segmentectomy, pneumonectomy
- **Solid organ**—nephrectomy, donor nephrectomy, hepatectomy

1 Approach angles assessed in a virtual CAD environment in the 5th intercostal space.

2 Based on articulation data from IFUs of each device.

3 Benchtop testing on porcine carotid arteries. Surgeons (n=24) fired each instrument / reload once: PSE45A / ECR45W and EGIAUSTND/ EGIA45AVM. Distal tip motion measurement during the firing cycle showed a median reduction of 83% and a range of reduction of 53% to 96% in tip movement of PSE45A/ ECR45W vs. EGIAUSTND/ EGIA45AVM.

Product components

- ECHELON FLEX™ Powered Vascular Stapler with Advanced Placement Tip
- ENDOPATH ECHELON™ Vascular White Reload for Advanced Placement Tip

ECHELON FLEX™ Powered Vascular Stapler

How to Order

Electronic Ordering Options

All purchase orders are made to Johnson & Johnson Health Care Systems, Inc. (JJHCS).

The following electronic order placement methods are preferred:

- J&J Gateway—www.jnjgateway.com (for questions about your order, visit the Web site or call 1-866-JNJ-GATE)
- Electronic Data Interchange—JJHCS Help Line: 1-800-262-2888

Nonelectronic/Manual Ordering Options

JJHCS—Call 1-800-255-2500 between the hours of 8:30 am and 8:00 pm Eastern time, or fax your order to 1-732-562-2212.

Customer Support

For product use assistance, clinical guidelines, service and repair, emergency assistance, copy of a 510(k) clearance letter, or complaints, please contact our Customer Support Center by calling 877-ETHICON (384-4266). Our support center is staffed 24 hours a day, 7 days a week by qualified nurses to answer your product-related questions.

Visit www.ethicon.com/poweredvascular for more information about the ECHELON FLEX Powered Vascular Stapler.
