Medical baby examination and development table SBN-S01

Table SBN-S01 is intended for baby care in clinics and doctors' offices. The table is made of powder-coated steel tubes and a cabinet under the lying surface (5.1.). The table has four stable, adjustable legs (5.2.). The tabletop is made of chipboard with padding. It is protected on three sides by 10 cm high side boards. The edges are padded and covered with synthetic leather resistant to disinfectants (5.3.). Under the changing table is a two-door cabinet made of laminated chipboard with an inner shelf (5.4.).
