

## Peha-fix®

### 1. General Product Description

**Peha-fix®** is a highly-elastic conforming bandage acc. DIN 61 634-FB, consisting of a softly special fabric with a high proportion of natural fibers, elasticity approx. 125 %; quick and easy to apply without reverse turns to secure the bandage; reliable non-slip dressing retention; may be sterilized; for single use only; white.

**Peha-fix®** carries the CE mark according to EU directive 93/42/EEC for medical devices. The product is classified as a class I medical device.

A conformity assessment has been performed for **Peha-fix®** and it has been shown to be in compliance with all applicable requirements of the above mentioned directive.

The safe use of **Peha-fix®**, therefore, is ensured if the product is used in line with the intended purpose.

### 2. Application / Indication

Dressing retention, especially on joints and conical or rounded parts of the body.
