

## PIPETTE TIPS

LABSOLUTE® offers a complete assortment for your pipetting tasks – no matter whether packed in bags, within racks or within our efficient refill system: all pipette tips are part of a system in which the components can be replaced. The pipette tips are made of pure PP and comply with the requirements of EN ISO 8655.

In combination with the LABSOLUTE® pipettes, they constitute the perfect pipetting unit. Thanks to their universal fit and the high-quality material, the tips guarantee a firm and absolutely tight hold on diverse pipette models. And all this with much less attachment and ejection forces. The fully automated production and packaging of the pipette tips under clean room conditions guarantee completely contamination-free working conditions with products which are certified free of DNase, RNase, human DNA, pyrogens and ATP – to ensure you reproducible and consistent results.

- High quality standard
- Graduated tips: the volume is visible at first glance
- 200 µl and 1000 µl tips are available in yellow or blue, respectively
- Autoclavable

**Our pipette tips boxes offer you the best conditions for comfortable and efficient pipetting:**

- Simple-to-use closure for single-handed opening
- The transparent design provides a complete overview of your tips
- Coloured trays enable you to recognize the volume at first glance
- Refill system: easy and fast removal and replacement of the trays
- Stackable boxes for space-saving and safe storage
- Autoclavable

## PIPETTE TIPS WITHOUT AEROSOL BARRIER IN BAGS, NON-STERILE

Delivered in resealable bags, your pipette tips are stored safely and dust-free.

100 - 1250 XL	11	Transparent	98	200, 500, 1000	10 x 96	960	7.695 878

- \* Compatible with 20 µl Eppendorf Reference® and Eppendorf Research® Plus
- \*\* Due to the bevelled end the contact surface of the pipetted liquid is reduced, and the pipetting accuracy increases
- \*\*\* Compatible with 5 ml Finnpipettes™ from Thermo Fisher Scientific and Transferpettes from Brand

PIPETTE TIPS WITH AEROSOL BARRIER IN RACKS, STERILE

Our filter tips offer dual protection! The fine-pored filter made of PE serves as a defence to protect your samples from aerosols and biomolecules. At the same time, the hydrophobic material prevents your pipette from contamination. Delivered in stackable and stable racks.

## REFILL SYSTEMS, PIPETTE TIPS WITHOUT AEROSOL BARRIER, NON-STERILE

This efficient refill systems help you to preserve the environment and the budget! All pipette tip boxes provide trays which can be easily replaced and directly indicate the respective volume due to their colour. To safely store the pipette tips, the refill systems are delivered in the form of two individually shrink-wrapped towers. The outer packaging made of cardboard additionally guarantees that your pipette tips remain dust-free. Last but not least, with each refill system, you will get **two refillable pipette tip boxes for free!**

Volume range µl	Figure	Colour	Overall length mm	Grad. µl	Pack size pieces	PK	Art. no.
