Statement on the Packaging of KLM Products

First-level (primary) packaging and or second-level (group, secondary) packaging is designed to be recyclable. This does not apply to sterile products.

The packaging complies with the requirements of the Directive 94/62/EC of the European Parliament and the Council on packaging waste.

Primary, secondary and tertiary packaging does not contain:

- styrene polymers (PS, EPS, XPS)
- regenerated cellulose
- oxo- or biodegradable polymers.
- PVC
- Composite and/or packaging combining different materials, multilayer packaging (plastics/paper, plastics/ aluminium, plastics/ plastics).

Most tertiary packaging is made of cardboard. When plastic is used it is PE.

Name & Title	Date & Signature
<p>Harald Merkt Head of Health, Safety, Environment and Material Compliance</p>	<p>Harald Merkt Digital unterschieden von Harald Merkt Datum: 2023.05.04 16:08:54 +02'00'</p>

KLM Produktų pakuočių pareiškimas

Pirmo lygio pakuotė (pirminė) ir antro lygio (grupė, antrinė) pakuotė yra perdirbamos. Tai negalioja steriliems produktams.

Pakuotės atitinka Europos Tarybos Direktyvos 94/62/EC reikalavimus.

Pirminėse, antrinėse ir tretinėse pakuotėse nėra:

- Stireno polimerų (PS, EPS, XPS);
- Regeneruotos celiuliozės;
- Oxo ar biologiškai skaidomų polimerų;
- PVC;
- Sudėtinių ir/ar pakuočių sudarytų iš skirtingų žaliavų, daugiasluoksnių pakuočių (plastiko/popieriaus, plastiko/aliuminio, plastiko/plastiko).

Dauguma tretinių pakuočių sudarytos iš kartono. Plastiką, ten kur jis naudojamas, yra tik perdirbamas.

Harald Merkt

OptraGate

Moisture control made easy

Optragate lūpų ir skruostų retraktoriai, be latekso

OptraGate is a latex-free lip and cheek retractor. The aid's unique flexibility and elasticity make it comfortable to wear and assist patients to keep their mouth open.

The main product benefits include:

Easy access to the cavity

- Lips and cheeks are evenly retracted around the mouth
- Easily accessible, manageable treatment field
- Effective and quick relative isolation

Relaxed and more efficient treatment procedure

- Easy placement
- Increased concentration on the actual treatment procedure
- Relieves the work of the dental assistant and dentist.

High patient comfort of wear

- 3-dimensional flexibility for a very good positioning
- Soft, flexible material with recesses to accommodate the upper and lower lip frenulum
- Good compatibility thanks to the latex-free material

Efficient Esthetics

OptraGate forms a part of the "Direct Restoratives" product category. The products of this category cover the procedure involved in the direct restoration of teeth – from preparation to restoration care. The products are optimally coordinated with each other and enable successful processing and application. You can find more Information about the efficient esthetics workflow [here](#).

OptraGate can be used for a wide range of indications:

OptraGate is available in the sizes Regular, Small and Junior

The newest colour variations in blue and pink increase the age-appropriate motivation of children and therefore improve patient compliance during the treatment.

OptraGate in blue and pink helps to playfully ease the treatment situation right at the beginning. Young patients get the emotional support they need. Satisfied patients establish a good basis for a good reputation and sustained success.

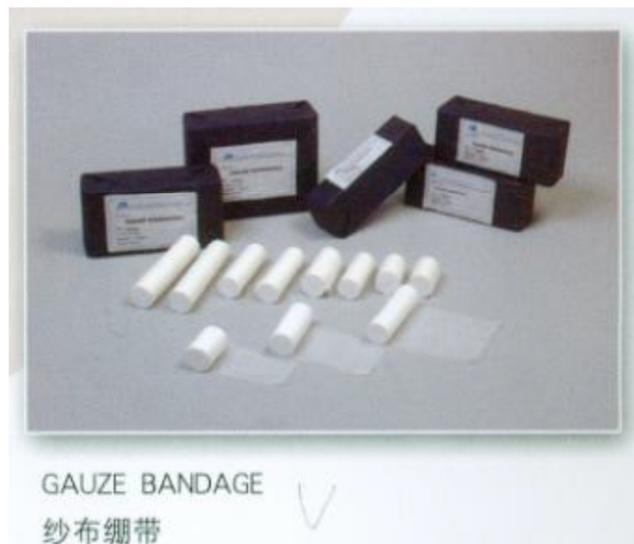

OptraGate in blue and pink is available in the sizes Junior and Small from now on.

- OptraGate White -
 - Assortment (40 x regular, 40 x small)
 - Refills x 80 (regular, small or junior)
 - Refills x 40 (regular, small or junior)

- OptraGate Blue & Pink -
 - Assortment Small x 40
 - Assortment Junior x 20

CHIRAPLUS P | Autofusion Set

Prevents entry of air, it stops automatically
A new era of infusion therapy

Auto Air Stop Filter
Priming Filter
DEHP Free

Auto Air Stop Filter

- ✓ Specially engineered Auto Air Stop filter prevents the entry of air in the line when the I. V. bottle is empty.
- ✓ Auto Air Stop filter maintains a constant fluid level.

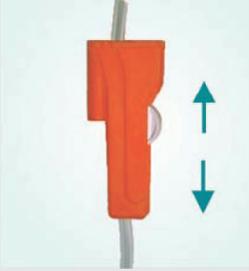

Priming Filter

- ✓ The special Priming Filter ensures that the line fills automatically (auto prime) thus maintains a closed system until connected.
- ✓ Helps in preventing Healthcare Associated Infections (HAI).
- ✓ No more messy spillage of I. V. fluid on hands, floor and bedding, also reduces wastage of I. V. fluids.

Secure Disposal of Spike

- Spike docking facility for safe and secure disposal.

Roller Body

- Specially designed roller body with precise flow control, tubing can also be parked after priming for stand by procedures.

Item	Pieces per Case	Item Code
CHIRAPLUS P Autofusion set	300	CHP576

- ✓ PVC free flexible drip chamber for easy and fast priming (Drop rate 20 drops/ml)
- ✓ DEHP free Infusion line with new generation non-phthalate plasticizers, reduces phthalate related toxicity and ensures Patient Safety
- ✓ Universally suitable for Gravity Infusion as well as Pressure Infusions up to 2 bars
- ✓ Priming Volume: 6.46 ml/mtr
- ✓ Tube length: 180 cm
- ✓ Also available with Y-site
- ✓ Packaging: Inner Box 30 units, Master Carton 300 Units

- Automatinis Oro Stabdymo Filtras palaiko pastovų skysčių lygį

**Skysčių filtras (Priming)**

- Specialus Pirminis filtras užtikrina, kad linija automatiškai užsipildo (automatinis pildymas) todėl išlaiko uždara sistemą iki prijungimo.
- Padeda išvengti su sveikatos priežiūra susijusių infekcijų (HAI)
- Padeda išvengti netvarkos išsiliejant I.V. skysčiams and rankų, grindų ar lovų. Taip pat sumažinamas skysčių eikvojimas.

**Saugus Plastikinės adatos (Spike) išmetimas**

- Plastikinės adatos uždengimo vieta saugiam pašalinimui.

**Rutulinis dozatorius**

- specialiai sukurtas rutulinis dozatorius su tikslia tėkmės kontrole, vamzdelis taip pat gali būti nustatomas po užpildymo budėjimo procedūroms.

- Lanksti lašėjimo kamera be PVC greitam bei lengvam užpildymui, (20 lašų/ml)
- Infuzijos linija be DEHP su naujos kartos plastifikatoriais be ftalatų, taip sumažinant su ftalatais susijusį toksiškumą bei užtikrinant paciento saugumą.
- Universaliai tinka Gravitacinėms infuzijoms bei Slėginėms infuzijoms iki 2 bar spaudimo.
- Užpildymo tūris: 6.46ml/mtr
- Vamzdelis: 180 cm, Shore 76
- Taip pat gali būti su Y-vieta
- Pakuotė: vidinė dėžutė 30 vienetų, transportinė dėžė 300 vienetų.
- Įpakavimas: 30vnt/dėžutėje, 300 vnt/dėžėje.

Poliravimo juostelės

Stoddard Maxflex Finishing Strip, Coarse/Medium

šurkščios/vidutinio šurkštumo

Stoddard Maxflex Finishing Strip, Fine/Ultra-Fine

Description

sintetinis polimeras

Ideal for use on fine details or intricately pierced designs, this Stoddard Maxflex finishing strip is made from an incredibly flexible synthetic polymer and coated on one side with aluminum oxide particles. The strip offers two abrasive surfaces, one at each end of the strip. The coarse abrasive (blue) is used for contouring, and the medium abrasive (purple) is perfect for finishing. The strip works well on a variety of materials, including precious and non-ferrous metal.

Strips are packaged in handy tubes that make it easy to keep the strips organized and readily at hand; each tube contains 50 strips.
