

**Statement on compliance of Sekusept aktiv with standards recommended by  
EN 14885**

Sekusept aktiv is a disinfectant for medical instruments. For this application area EN 14885 prescribes the following standards, to support efficacy claims:

Phase 2 step 1:	EN 13727	bactericidal
	EN 13624	yeastcidal
	EN 14348	mycobactericidal
Phase 2 step 2:	EN 14561	bactericidal
	EN 14562	yeastcidal
	EN 14563	mycobactericidal

Sekusept aktiv has been tested according to the guidelines of the German Society for Hygiene and Microbiology (2001) <sup>1)</sup> as a medical instrument disinfectant with bactericidal and yeastcidal and mycobactericidal efficacy.

According to an independent expert statement, these tests are equivalent to the above mentioned European standards (<http://www.vah-online.de> ).

**We hereby confirm that Sekusept aktiv fulfills the above mentioned standards of EN 14885 under the use conditions claimed on the label.**
