The Aurion trolleys for over 15 years have been a landmark of the Italian and international market. They distinguish themselves by the stylish and eclectic shape, making them increasingly practical and adaptable.

I carrelli Aurion da oltre 15 anni sono il punto di riferimento del mercato italiano ed internazionale. Si distinguono per la forma elegante ed eclettica, che li rende funzionali e adatti ad ogni utilizzo.

The unique and innovative

The material and the unique patented characteristics, combined with inimitable and aesthetical touch give life to a product extremely practical, sturdy and reliable.

The complete and innovative range of models, the wide offer of accessories and the continual development of the product allow versatile and cutting-edge solutions, adaptable to any hospital ward or use.

The large range of colors enhances the functionality and the aesthetics of the trolleys, to make the environment the most welcoming and comfortable as well as to distinguish wards or specific functions.

Aurion offers innovative mobile workstation for emergency, anaesthesia, intensive care, OR, ISO-modules, medication, MRI and more.

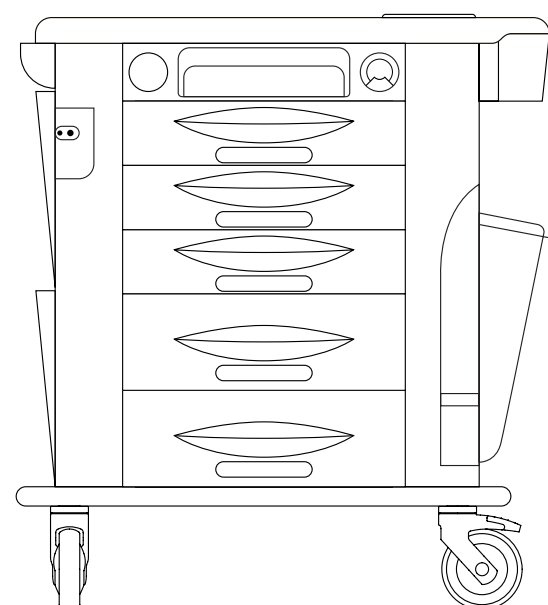

2.1. Vežimėlis tinkamas darbui MRT aplinkoje

Il materiale e le caratteristiche uniche brevettate, unite ad un gusto estetico inimitabile, danno vita ad un prodotto estremamente pratico, robusto ed affidabile.

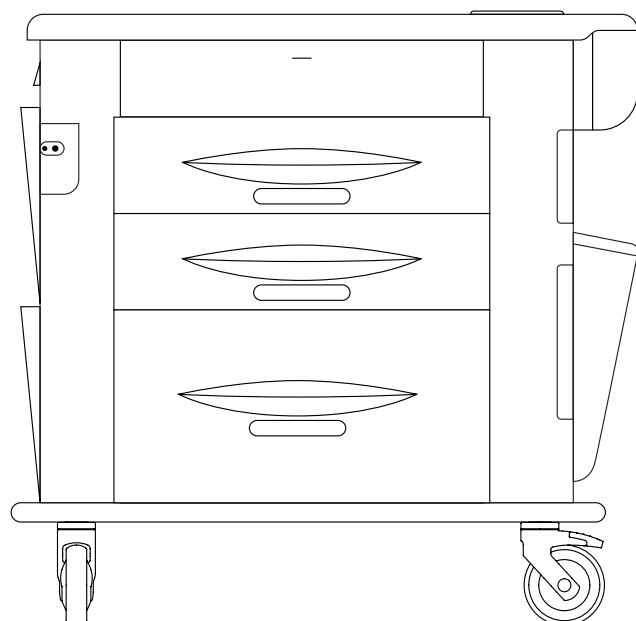

La completa ed innovativa gamma di modelli, la vasta offerta di accessori e lo sviluppo continuo del prodotto permette soluzioni versatili e all'avanguardia, adattabili a qualsiasi reparto e utilizzo.

L'ampia gamma di colori esalta la funzionalità e l'estetica dei carrelli, aiutando a rendere accoglienti e confortevoli gli ambienti, oltre a distinguere reparti o specifiche funzioni.

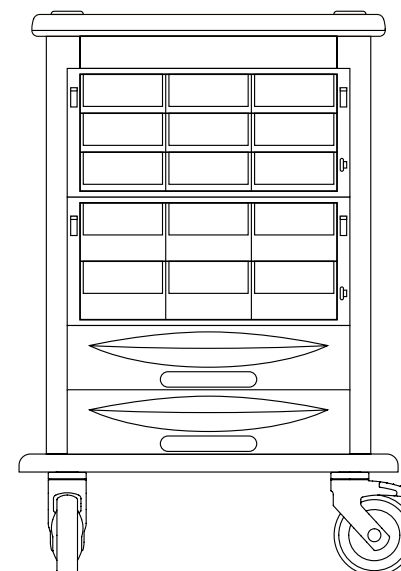

Aurion offre stazioni di lavoro mobili per anestesia, terapia intensiva, emergenza, sala operatoria, farmacia, medicazione, MRI e molto altro ancora.

Made in Polyurethane

2.2 Plastikų (poliuretanas). Visos naudojamos medžiagos nemagnetinės

Aurion trolleys are made in Baydur® Polyurethane, a high performance material that combines the best characteristics of plastics and metals.

- light, sturdy, high resistance to scratching and impact;
- resistant to UV rays;
- chemical inert, doesn't react to acids, organic and inorganic, alkali and solvents (DIN 68861/1);
- fire resistant, self-extinguishing (Class I, UL94 V-0);
- good thermal and acoustic insulation;
- long-lasting, keeps its properties intact for over 50 years.

I carrelli Aurion sono realizzati in Poliuretano Baydur®, materiale altamente performante che combina le migliori caratteristiche di plastiche e metalli.

- leggero, robusto, resistente a graffi e urti;
- resistente ai raggi UV;
- chimicamente inerte, resistente agli acidi, organici e inorganici, alle basi e ai solventi (DIN 68861/1);
- alta resistenza al fuoco, autoestinguente (Classe I, UL94-V0);
- buon isolante termico e acustico;
- longevo, mantiene inalterate le caratteristiche per oltre 50 anni.

2.5.2. Pagamintas iš nemagnetinio plastiko atsparaus dezinfekcinėms medžiagoms, plovikliams ir mechaniniams pažeidimams

Well-designed

2.5.1. Su apsauginiu perimetriniu borteliu (iš visų šonų), neleidžiančiu nukristi ant staliuko padėties daiktams ar nutekėti skysčiams;

The Aurion trolleys are ergonomic, modular, highly customizable and upgradable over the years. The handles are moulded and integrated into the body* as well as the worktop that has large surface and perimetrical anti-drip containing rim. Every drawer is equipped with a label holder.

I carrelli Aurion sono ergonomici, modulari altamente personalizzabili e aggiornabili negli anni. Le maniglie di spinta e il piano di lavoro, dotato di ampia superficie di appoggio e bordo perimetrale anti gocciolamento, sono integrati nel corpo del carrello*. Ogni cassetto è dotato di un porta etichetta.

Easy to move

2.9.1. Keturi gumuoti ratukai, trys iš jų su stabdžiais;

The ease to manoeuvre is guaranteed by the lightweight structure combined with the high quality non-marking and anti corrosion castors. Every wheel is mounted on ball bearings with sealed lubrication (2 per wheel). 3 with brake, 1 antistatic.

La facilità di manovra è garantita dalla leggerezza della struttura combinata alle ruote di alta qualità con mescola antitraccia, anti corrosione, montate su cuscinetti a sfera con lubrificazione sigillata (2 per ogni ruota). 3 con freno, 1 antistatica.

Hygienic and safe

2.10.1. Visi paviršiai paruošti kokybiškai, nepaliekant aštrių kampų bei briaunų (tokių vietų, į kurias galima susižeisti valant vežimėlį, taip pat sunkiai išvalomų ertmių ir plyšių);
2. Visi vežimėlio paviršiai lygūs (negrublėti)

The smoothly shaped design, without edges, guarantees safety to the user and avoids dirty and bacterial accumulation points. Aurion trolleys are easy to clean and disinfect also with aggressive detergents. All the Aurion trolleys are latex free.

Il design dalle linee arrotondate, privo di spigoli, garantisce sicurezza all'utente ed evita punti di accumulo dello sporco e proliferazione batterica. I carrelli Aurion sono facili da pulire e disinfettare anche con detergenti aggressivi. Tutti i carrelli Aurion sono latex free.

Eco-friendly

Aurion respects the environment. The main use of the polyurethane, the accurate design and the choice of high quality materials, matched with reliability, easy maintenance and upgradability guarantees an impressive long-life of every trolley. All Aurion trolley components are easily separable and completely recyclable in the event of disposal.

Aurion rispetta l'ambiente. L'utilizzo principale del poliuretano, la progettazione accurata e la scelta di materiali di qualità, uniti all'affidabilità, alla facilità di manutenzione e alla possibilità di aggiornamento garantiscono una vita dei carrelli estremamente lunga. Tutti i componenti dei carrelli Aurion sono facilmente separabili e completamente riciclabili.

* except for MINI400D
escluso MINI400D

The Aurion Unibody System trolleys are designed following the original concept of "monocoque": the trolley and the drawers are moulded in a single piece of Baydur® Polyurethane, that assures peerless sturdiness and reliability, great hygiene and perfect cleaning qualities.

La linea di carrelli Aurion Unibody System è concepita secondo il concetto originale di "monoscocca": il carrello e i cassetti sono stampati in un unico blocco di Poliuretano Baydur®, che assicura robustezza e affidabilità senza pari, grande igiene e perfetta pulizia.

2.6.1. Po stalviršiu įrengti 4 stalčiai išdėstyti vienas po kitu;

Stable in every condition

They are easily maneuverable thanks to the lightness and the special fixing system of the castors, that distributes homogeneously the weight and guarantees high stability also in case of strong accidental collisions.

Sono facili da manovrare grazie alla loro leggerezza e al particolare sistema di fissaggio delle ruote, che distribuisce il peso omogeneamente e garantisce grande stabilità anche in caso di forti urti accidentali.

Safe and secure

2.8.Vežimėlio apačia su apsauginiu guminiu bamperiu

All-around soft rubber bumper help to avoid damages to hospital staff, patients, objects or to the trolley itself. A central locking device is available to be chosen between key, seal or electronic lock.

Per evitare danni a persone o cose, il bordo inferiore è protetto da un para-colpi in gomma. E' disponibile un sistema di chiusura dei cassetti centralizzato a scelta tra chiave, sigillo o serratura elettronica.

Customizable and upgrable

2.6.3. Stalčiai su apsauga nuo iškritimo esant pilnam stalčių ištraukimui

The large range of accessories allow to propose solutions fit to every needs. The drawers slide on non-metallic guides directly integrated in the body, that makes the cleaning and the maintenance easy as well as allows the user to reposition and change the configuration to their liking. The final user can easily modify and upgrade the trolleys' equipment.

La vasta gamma di accessori permette soluzioni adattabili a qualsiasi esigenza. I cassetti scorrono su guide non metalliche ricavate direttamente nella scocca, che ne rendono più facile la pulizia e la manutenzione oltre a permettere all'utente di riposizionarli o riconfigurarli a piacimento. L'utente può modificare e aggiornare agevolmente la dotazione dei carrelli.

The Aurion Unibody System trolleys are also available antimagnetic/MRI.

I carrelli Aurion Unibody System sono disponibili anche in versione amagnetica/MRI.

2.4.2.2. Panaudotų aštrių atliekų konteineris su laikiklio konteinerio tvirtinimui vežimėlio korpuse;

Fully equipped

Most of the accessories normally used in the hospitals are already integrated in the body and located in the protective perimeter of the rubber bumper, all compact and safe.

2.4.4. Su ištraukiamu papildomu šoniniu stalčiu The standard trolleys always include:

- drawer for medication basin with stainless steel 18/10 medication basin;
- a lockable life-saving drugs drawer;
- used needle bucket/used cotton waste container; 2.4.1
- ampoule opener;
- waste bin with lid;
- oxygen tank holder*;
- catheters compartments;
- sliding working top surface;
- 2 clear plastic swinging pockets (for IV bottles/patient files);
- bottle holder;
- 2 utility hooks;
- front storage.

Gran parte degli accessori normalmente in uso nell'ambiente ospedaliero sono già integrati nella scocca all'interno del perimetro protettivo del para-colpi in gomma, tutto compatto e sicuro.

Il carrello standard include sempre:

- cassetto medicazione con bacinella inox 18/10;
- cassetto per farmaci salvavita con serratura;
- contenitore aghi usati;
- rompi fiala;
- porta rifiuti con coperchio;
- supporto bombola ossigeno*;
- porta cateteri;
- piano di lavoro estraibile;
- 2 tasche basculanti in plastica trasparente;
- porta bottiglia;
- 2 ganci;
- porta-oggetti frontale.

The Aurion Mini System offers a new and simple way to handle your medicine logistic and hospital supplies, allowing a safe and quick integration of medicine logistics and distribution, from pharmacy to patients.

La linea di carrelli Aurion Mini System offre una nuova e semplice soluzione per la gestione dei farmaci e delle forniture ospedaliere, permettendo un'integrazione sicura e rapida della logistica della distribuzione, dalla farmacia al paziente.

Simple with Aurion quality

The Aurion Mini System trolleys have been designed with the purpose to be simple and functional with the usual Aurion quality. Top, base and sides made in Baydur[®] Polyurethane (internal sides in ABS) assure lightness, sturdiness and easy to clean.

I carrelli della linea Aurion Mini sono stati progettati con lo scopo di essere semplici e funzionali con la consueta qualità Aurion. Il top, la base e i fianchi realizzati in poliuretano Baydur[®] (pannellatura interna in ABS) assicurano leggerezza, robustezza e facilità di pulizia.

Capacious and flexible

The Aurion Mini System trolleys are very capacious and can be configured with drawers*, Aurion Monodose Cassettes, ISO 600x400 trays and many accessories offer endless possibilities of configuration to adapt to the most specific needs.

I carrelli Aurion Mini sono molto capienti e possono essere configurati con cassette*, Aurion Cassette Monodose e vassoi ISO 600x400 oltre a diversi accessori, offrendo infinite possibilità di configurazione per adattarli anche alle esigenze più particolari.

Customizable and upgradable

The Aurion Mini trolleys can be upgraded and adjusted thanks to the large Aurion accessories range. The accessories and the components are available individually and easily replaceable by the final user.

I carrelli Aurion Mini possono essere aggiornati e adattati grazie alla vasta gamma di accessori Aurion. Gli accessori e le componenti sono disponibili singolarmente e facilmente sostituibili dall'utente.

* the drawers disposition can be chosen by the user at the moment of the order.
la disposizione dei cassetti può essere scelta dall'utente al momento dell'ordine.

Light and efficient solutions to handle your medicines logistics

La soluzione leggera ed efficiente per gestire la logistica dei farmaci

Capacious

Trolleys can be fitted with up to 12 Monodose Cassettes (up to 180 patient bins) at any time, reducing the number of trips required to dispense medicines from the pharmacy to wards.

Capienti. Possono contenere fino a 12 Cassette Monodose (fino a 180 contenitori personali) riducendo così il numero di viaggi richiesti per la distribuzione dalla farmacia ai reparti.

Handy

Double sided trolley. Both sides are accessible at the same time.

Pratici. Sono bifacciali e accessibili da entrambi i lati nello stesso momento.

Safe

The locking system will secure drawers and Monodose Cassettes in the trolley body and, at the same time, all patient bins in the Monodose Cassettes.

Sicuri. Il sistema di chiusura bloccherà tutti i cassetti e le Cassette Monodose nel corpo del carrello e, nel contempo, tutti i contenitori dei pazienti nelle Cassette Monodose.

Quick

A single action lock allow access to all patient bins in any Monodose Cassette.

Rapidi. Un unico azionamento della serratura permette l'accesso a tutti i contenitori dei pazienti nelle Cassette Monodose.

The simple way to handle your hospital supplies

La soluzione più semplice per la gestione delle forniture ospedaliere

MINI 600 is compatible with ISO 600x400 trays and it can be accessorized with files holder, doors and various accessories, giving you endless combination possibilities.

MINI600 è compatibile con vassoi ISO 600x400, può essere accessorizzato con portacartelle, ante e accessori vari, offrendo così infinite combinazioni.

The innovative logistic and distribution medicine system

L'innovativo sistema di logistica e distribuzione farmaci

The Monodose Cassette (MC) acts as a normal drawer, it is easy to remove from the basic body. Each MC includes a handle to make transfer from storage to trolleys easier moreover they are stackable.

If the MC is in the trolley body, the trolley's central locking system closes both the cassette and the individual bins, once the MC is free standing the bins can be locked by a seal.

Personal bins are provided with the MC, every bin includes a label, 3 dividers and a clear plastic sliding top.

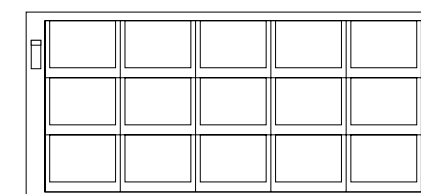

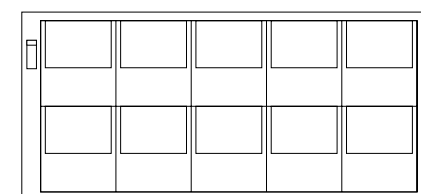

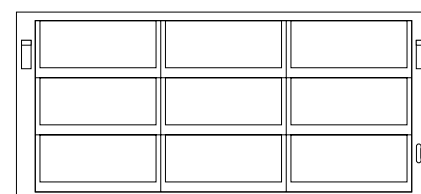

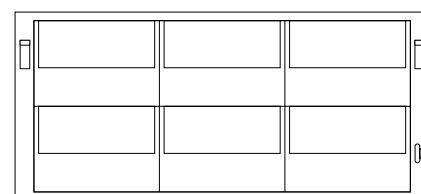

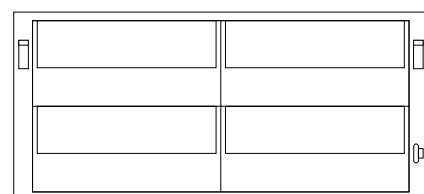

Compatible with Aurion COMPACT, Aurion MINI400 and MINI400D.

La Cassetta Monodose (CM) funziona come un cassetto normale e può facilmente essere rimossa dal corpo base. Ogni CM è dotata di una maniglia che agevola il trasferimento dal deposito ai carrelli; oltre ad essere impilabile.

Se la CM è inserita nel carrello la chiusura centralizzata del carrello blocca sia la cassetta che i singoli bin, quando la CM è fuori dal carrello i bin possono essere bloccati con un sigillo.

I bin sono forniti con la CM, ogni bin include un'etichetta, 3 divisori e un coperchio scorrevole trasparente.

Compatibili con Aurion COMPACT, Aurion MINI400 e MINI400D.

Build your trolley

Set up the trolley to your needs in four steps:

- 1. trolley basic body
- 2. locking system
- 3. front configuration
- 4. accessories

Do you need something particular that you can't find in our catalog?
Any modifications or customizations?

We are the direct manufacturer of our trolleys, this allows us the greater productive flexibility. Contact us and we will do our utmost to satisfy you.

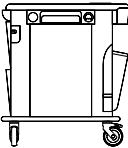

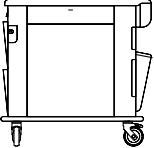

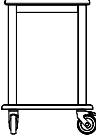

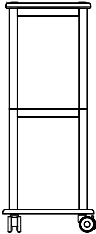

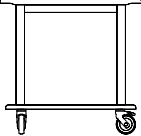

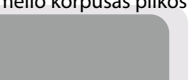

Configura il carrello in base alle tue necessità in quattro mosse:

- 1. corpo base
- 2. sistema di chiusura
- 3. configurazione del frontale
- 4. accessori

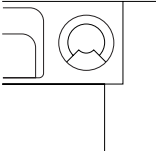

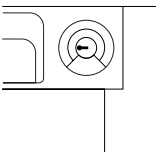

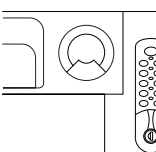

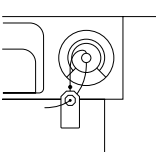

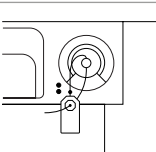

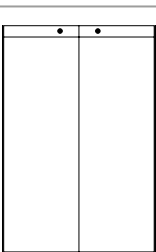

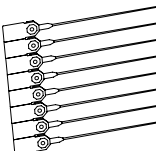

Hai bisogno di qualcosa di particolare che non trovi nel catalogo?
Qualche modifica o personalizzazione?

Siamo i produttori diretti dei nostri carrelli, questo ci permette una grande flessibilità produttiva. Contattaci e faremo il possibile per accontentarti.
