

# LABS

## LIVER ACCESS AND BIOPSY SET

- Includes a complementary set of components for transjugular liver access and tissue biopsy.
- Precurved catheter and cannula ideal for hepatic vein access.
- Single-throw mechanical needle passes easily through duct walls into tissue.
- Multipurpose catheter increases visibility.
- Check-Flo® Performer adapter with sidearm tubing prevents blood reflux and allows the injection of contrast media or the aspiration of blood to confirm positioning.
