The termination will become effective thirty days after the receipt of the written notice unless later term has been specified in the notice. In this case, the Licensee shall pay only for the access and use of the Licensed Material by the Authorised Users of the Authorised Institutions during the period of the validity of this Licence Agreement;

8.6.2 if the License was awarded to the Publisher in view of a serious infringement of the obligations under the Treaties and Directive 2014/24/EU of the European Parliament and of the Council of 26 February 2014 on public procurement and repealing Directive 2004/18/EC that has been declared by the Court of Justice of the European Union in a procedure pursuant to Article 258 TFEU (Treaty on the Functioning of the European Union);

9.1 The Licensee acknowledges that all copyrights, patent rights, trademarks, database rights, trade secrets and other intellectual property rights relating to the Licensed Material, are the property of the Publisher or duly licensed to the Publisher and that this Licence Agreement does not assign or transfer to the Licensee any right, title or interest therein except for the right to use the Licensed Material in accordance with the terms and conditions of this Licence Agreement.

## **10. REPRESENTATION, WARRANTIES AND INDEMNIFICATION**

10.1 The Publisher warrants to the Licensee that it is entitled to grant the licence under this Licence Agreement and that the use of the Licensed Material as contemplated in this Licence Agreement will not infringe any copyright or other proprietary or intellectual property rights of any natural or legal person. The Publisher agrees that the Licensee and the Authorised Institutions shall have no liability and the Publisher shall indemnify, defend and hold the Licensee and the Authorised Institutions harmless against any and all direct damages, liabilities, claims, causes of action, attorneys' fees and costs incurred by the Licensee or the Authorised Institutions in defending against any third party claim of intellectual property rights infringements or threats of claims thereof with respect of the Licensee's and the Authorised Institution's use of the Licensed Material, provided that: (1) the use of the Licensed Material has been in full compliance with the terms and conditions of this Licence Agreement; (2) the Licensee and the Authorised Institution(s) provide the Publisher with a prompt notice of any such claim or threat of claim; (3) the Licensee and the Authorised Institutions co-operate fully with the Publisher in the defence or settlement of such claim; and (4) the Publisher has sole and complete control over the defence or settlement of such claim.

10.2 The Publisher reserves the right to change the content, presentation, user facilities or availability of the parts of the Licensed Material and to make changes in any software used to make the Licensed Material available. The Publisher shall notify the Licensee of any change in the Licensed Material. The changes should not be substantial.

10.3 While the Publisher has no reason to believe that there are any inaccuracies or defects in the information contained in the Licensed Material, the Publisher makes no representation and gives no warranty express or implied with regard to the information contained in or any part of the Licensed Material including (without limitation) the fitness of such information or part for any purposes whatsoever and the Publisher accepts no liability for loss suffered or incurred by the Authorised Institutions or Authorised Users as a result of their reliance on the Licensed Material.

10.4 In no circumstances will the Publisher be liable to the Licensee for any loss resulting from a cause over which the Publisher does not have direct control, including but not limited to failure of electronic or mechanical equipment or communication lines, telephone or other interconnect problems, unauthorised access, theft, or operator errors.

10.5 The Licensee agrees to notify the Publisher immediately and provide full particulars in the event that it becomes aware of any actual or threatened claims by any third party in connection with any works contained in the Licensed Material. It is expressly agreed that upon such notification, or if the Publisher becomes aware of such a claim from other sources, the Publisher may remove such work(s) from the Licensed Material. Failure to report knowledge of any actual or threatened claim by any third party shall be deemed a material breach of this Licence Agreement.

10.6 Nothing in this Licence Agreement shall make the Licensee liable for breach of the terms of this Licence Agreement by any Authorised Institution or Authorised User provided that the Licensee did not cause, knowingly assist or condone the continuation of such breach after becoming aware of an actual breach having occurred.

## **11. FORCE MAJEURE**

11.1 Either party's failure to perform any term or condition of this Licence Agreement as the result of circumstances beyond the control of the relevant party (including without limitation, war, strikes, flood, governmental restrictions, and power, telecommunications or Internet failures or damages to or destruction of any network facilities) ("Force Majeure") shall not be deemed to be, or to give rise to, a breach of this Licence Agreement.

11.2 If either party to this Licence Agreement is prevented from or delayed in performing any of its obligations under this Licence Agreement by Force Majeure and if such party gives a written notice thereof to the other party specifying the matters constituting Force Majeure together with such evidence as it reasonably can give and specifying the period for which it is estimated that such prevention or delay will continue, then the party in question shall be excused the performance or the punctual performance as the case may be as from the date of such notice for so long as such cause of prevention or delay shall continue.

## **12. ASSIGNMENT**

12.1 Save as permitted under this Licence Agreement, neither this Licence Agreement nor any of the rights under it may be assigned by either party without obtaining the prior written consent of the other party, and such consent shall not unreasonably be withheld or delayed. In any permitted assignment, the assignor shall procure and ensure that the assignee shall assume all rights and obligations of the assignor under this Licence Agreement and agrees to be bound to all the terms of this Licence Agreement.

## **13. GOVERNING LAW AND DISPUTE RESOLUTION**

13.1 This Licence Agreement shall be governed by and construed in accordance with Lithuanian law and the parties irrevocably agree that any dispute arising out of or in connection with this Licence Agreement will be subject to and within the jurisdiction of the Lithuanian courts.

13.2 The parties agree to use best efforts to resolve disputes in an informal manner. Where the parties agree that a dispute arising out or in connection with this Licence Agreement would best be resolved by the decision of an expert, they will agree upon the nature of the expert required and together appoint a suitable expert by agreement.

13.3 Any person to whom a reference is made under Clause 13.2 shall act as an expert and not as an arbitrator and his decision (which shall be given by him in writing and shall state the reasons for his decision) shall be final and binding on the parties except in the case of manifest error or fraud.

13.4 Each party shall provide the expert with such information and documentation as he may reasonably require for the purposes of his decision.

13.5 The costs of the expert shall be borne by the parties in such proportions as the expert may determine to be fair and reasonable in all circumstances or, if no determination is made by the expert, by the parties in equal proportions.

## Schedule 2

### **1. Discounted Article Processing Charges**

Corresponding Authors of Eligible Organisations in Lithuania with active subscriptions to SAGE Premier will receive a 20% discount on standard Article Processing Charge (APCs) when publishing in one of the Gold Open Access journals.

#### 1. Publishing in Sage Choice Hybrid Journals:

- All corresponding authors at member institutions participating in the agreement will be able to publish 100% of their articles as Sage Choice Hybrid Open Access, for free, in their current year's version of the SAGE Premier package & SAGE Choice (Hybrid subscription) journals. Any journals which opt out of SAGE Choice will be clearly highlighted
  - If the Institution maintains a subscription to an older package in 2024, 2025, 2026 access and submission rights will be to the journals in this package only.
  - Post-termination access rights remain to the volumes published in the participating institution's current year's SAGE Premier journals, during the term of this agreement.
- A small number of "subscription only" titles are excluded due mostly to an inappropriate content type or society demands where the owning society has opted out of SAGE Choice membership. The Publisher encourages and advocates societies to positively adopt SAGE Choice membership, and acceptance of the Open Access model. The Publisher does respect the rights of each society to make this decision based on their own circumstances and the final decision must lie with them. The Publisher will engage with these societies again in light of this agreement to again advocate an uptake of the SAGE Choice model.

## 2. WORKFLOW

### 1 Workflow: Eligible Corresponding Author identification

- a) During the submission of the article, the submitting author is responsible for correctly identifying the Institutional affiliation of all authors, to identify the corresponding author and to provide institutional email addresses. When entering an institutional affiliation the Publisher provides the author with suggested matches during this process. The author is responsible for selecting the appropriate match.
- b) In the event of no match being found, the Publisher will attempt to identify an Eligible Corresponding Author using the corresponding author's email address domain.
- c) The Publisher will use this match to identify an Eligible Corresponding Author as an Authorised User of the Licencee using RinggoldID matches.
- d) The Licensee is responsible for providing and updating the list of applicable Ringgold IDs for the Publisher to use in matching. The Licensee is responsible for ensuring the list of applicable RingGold IDs covers only affiliations where all authors at the affiliation are also teaching and research staff employed by or otherwise accredited to the Licencee as well as students enrolled or accredited to the Licencee.
- e) The Licensee is responsible for providing and updating the list of applicable email domains for the Publisher to use in matching.
- f) If the author was not identified as eligible due to incomplete, inaccurate or conflicting affiliation data provided by the submitting author, the Publisher will not be required to convert the article to Open Access at a later date, but may offer to do so at Sage's sole discretion.

### 1 Workflow: Open Access publishing of Eligible Articles (Hybrid)

- a) Upon an Eligible Article (Hybrid) with an Eligible Corresponding Author entering The Publisher's production system, all authors will be contacted by the Publisher to inform them of their right to publish the Eligible Article (Hybrid) as Open Access with no direct cost.
- b) Transacting author (who can be any of the Article authors, including the Eligible Corresponding Author) enters the Publisher's open access portal and confirms acceptance of Open Access publishing for the Eligible Article (Hybrid).
- c) Transacting author confirms their identity and the copyright ownership status of the Eligible Article (Hybrid).
- d) Transacting author selects the appropriate CC-BY license under which their Eligible Article (Hybrid) will be published. By default, the transacting author will be offered the CC BY 4.0 license. CC BY 4.0 will be offered when the Publisher is aware of a funder mandate that applies. CC BY-NC 4.0 will be offered when the Publisher is aware that commercial sponsorship applies. The Publisher's open access portal will provide explanatory text alerting author to why license(s) is displayed. Author may contact Sage Open Access customer service if another license is required.
- e) Transacting author digitally signs the Open Access license.
- f) If the Transacting author rejects Open Access publishing of the Eligible Article, the Eligible Article will be published in a traditional subscription only format, not as Open Access.
- g) If a transacting author does not respond to the Publisher offer of Open Access publishing, a reminder will be sent by the Sage to all authors after 7 days.

h) If the transacting author does not digitally sign the Open Access license (e – above) within 14 days, the Eligible Article will be published in a traditional subscription only format, not as Open Access.

i) Eligible Corresponding Authors who have rejected Open Access publication of their Eligible Article (Hybrid) or who have not signed the Open Access license after 14 days may contact the Publisher’s open access customer service team to request the offer be resent at any time before article proofs have been issued. Once article proofs have been issued, the Eligible Corresponding Author may request conversion to Open Access from the Publisher’s open access customer service team and The Publisher shall convert the Eligible Article (Hybrid) to an Open Access format.

## 2 Open Access Reporting

a) Consortium and Institutional reporting is available through the SAGE online portal. This reporting will cover all articles that have entered production, gold and hybrid, identified to the Customer as described in 1 c) above.

Minimum standards for data provided by these reports are shown below in 4(d).

b) The Publisher provides the following information as a minimum for all Manual reports and reports provided through the Online platform:

- a) name of the Corresponding Author
- b) name of the Customer
- c) funding organization (research funder) if provided by author
- d) date of acceptance of Accepted Article
- e) date of publication (once published)
- f) journal title
- g) ISSN/E-ISSN
- h) Accepted Article title
- i) article type
- j) DOI
- k) If the Transacting Author has accepted OA publishing or not
- l) Open Access License
- m) list price, discount and final prices for articles published in Gold Open Access

## 3 Provision of Information: Subscribing Institutions and Open Access Schemes

a) The Publisher shall provide reasonably sufficient information to enable Authorised Users to benefit from its open access schemes as described in this Schedule 6.

## 4 Additional Information

a) For each Open Access Article the Publisher shall state the applicable Creative Commons licence. This shall include the information on which licensing terms apply to which version of the article and make the relevant Open Access Article, together with the applicable Creative Commons licence, available on the open web without any requirement for authentication in order to obtain access or to download. Each Article shall include any disclaimer or other statements required by the Publisher in compliance with its policies for release on the open web. The Publisher shall make any such policies readily and openly accessible on its website, or by other reasonable means to draw them to the attention of authors submitting any Open Access Article.

b) Where the Funder stipulates that the assignment of specific licensing terms, such as the Creative Commons CC BY licence (current version available at: <https://creativecommons.org/licenses/by/4.0/>) the Publisher shall ensure that its licensing terms are set in accordance with requirements of the funders of the academic research community and the Publisher should make it clear that if an author chooses a licence other than CC-BY, the published article will not be compliant with the funder’s policy and where applicable, the funder may not cover the cost of the Article Processing Charge.
