**Born For Love**

# Central Venous Catheter and Catheterization Kit

Your reliable choice for deep vein catheterization

## Safety & stable

Special formulated biocompatible polyurethane material and soft tip

## Smooth operation

Special designed guidewire with a soft flexible tip, catheter tip with multi-hole design

## Multi-choice

Basic CVC Kit and CVC Procedure Tray for choice. Customization is available

### Catheter Marking

Radiopaque material with clear, definite marking, ensures correct placement of the catheter.

### Suture Wing & Clamp Fastener

Keep catheter in place thereby reducing the risk of mechanical phlebitis and irritation.

Trikanalis

Kateterio atšakos skirtingų spalvų, viena atšaka skirta kontrasto infuzijoms.

### Polyurethane Material

Special formulated biocompatible polyurethane material, provides strength during insertion, yet soften in body.

### Soft Tip

Superior geometric soft tip design makes insertion safe and easy.

## COMPONENTS

- Polyurethane Catheter **poliuretalinis kateteris**
- Needle Sponge
- Suture Wing & Clamp Fastener
- "J" Tip Guidewire Complete with Dispenser & Advancer
- Vessel Dilator
- Extension Line Clamp
- Introducer Needle (Straight Needle or Y Valve Needle)
- 5cc Syringe with Luer Slip
- Injection Site
- Tegaderm Transparent Dressing (Optional)
- Scalpel #11, Short

Customization is available, please contact your local sales representative for more information.

Rinkinio sudėtis: poliuretalinis kateteris su integruotais beadatiniais konektoriais. Konektoriai su silikonine membrana, Dilatatorius, Raulerso tipo tipo švirkštas, V-tipo adata, skalpelis, tvirtinimo sparnelis, punkcinė adata, viela - pervedėjas

# OPTIONAL FEATURES

Family/Configuration	Description of configuration	Remark
CV-XXX-XX	CVC with Spring Guidewire and Straight Needle	NA
CVN-XXX-XX	CVC with Kink-Resistance Guidewire and Straight Needle	N-Refer to Kink-Resistance Guidewire
CVNR-XXX-XX	CVC with Kink-Resistance Guidewire and Raulerson Syringe	R-Refer to Raulerson Syringe
CV-XXX-XX Y	CVC with Spring Guidewire and Y-Valve Needle	Y-Refer to Y-Valve Needle
CV-XXX-XX T	CVC Kit with Procedure Tray	T-Refer to Procedure Tray
CVR-XXX-XX	CVC with Raulerson Syringe	R-Refer to Raulerson Syringe

All complete CVC kit includes Extension Line Clamp, Injection Site, 1 ea. of Luer Slip Syringe, 1 ea. of #11 Short Scalpel, 1 ea. of Suture Wing with Clamp Fastener & 1 ea. of Needle Sponge.

# QUALITY COMPONENTS FOR OPTIMAL PERFORMANCE

## Tegaderm Transparent Dressing (optional)

Transparent window provides visibility, stabilizes catheter and protects from outside contamination.

## Introducer Needle

Available in straight or Y needle. Y valve needle designed to prevent back-flow of blood and air embolism.

Su tiesia arba V-tipo adata

## Advancer

Single hand operated advancer helps to straighten the "J" Tip spring guidewire and advancing it to the proper position.

## Needle Sponge

Specialized sponge for holding used needle preventing the potential of needle piercing.

## Guidewire

Specially designed guidewire with a soft flexible tip to prevent vessel perforation (vascular trauma), yet provides good torque to ensure firm insertion. Markings on guidewire provide a good insertion indication.

Viela - pravedėjas su atžymomis, atspari perlenkimui

## Contents of the CVC Procedure Tray

- CVC Kit
- Sponge Swabs
- Fenestrated Drape
- Needle 25G x 5/8"
- Suture: Braided Silk 3-0 with Straight Needle
- 5cc syringe with luer slip
- Paper Towel 17" x 22"
- CVC Tray-Medication Cup
- Blue Wrap (70 x 70)
- Gauze White
- Needle 22G x 11/2"
- Tegaderm transparent dressing (optional)

The CVC Procedure Tray is optional and can be purchased together with the standard central venous catheter kit as a complete set. Please approach our sales representatives for further enquires.
