

To who it may concern

Reference: **11585, Project Fire & Rescue Dept Lithuania**

Date: **20.03.2024**

Compressor:

NARDI, 5/22S Extreme 3T compressor:

- The compressor can be used in various climate conditions as rain, wet, cold.
- Compressor hoses is made of PVC and reinforced with braided metal threads, giving them special flexibility.
- The length of the compressor hoses are long enough to inflate all the arches of the tent at the same time.
- Compressor Power Cable is 10m, this is a special length for this project.

Best regards
