NOBADRAPE®

Variable Fenestrated Drape Apklotas operacinio lauko

Dvieju
sluoksnių

REF 764045

Product Description, Intended use, Application išmatavimai 45cm x 75cm

The 2-ply blue drape (45 cm x 75 cm) consists of two equal parts which can be arranged variably so that the resulting fenestration complies exactly with the user's requirements. Both parts are sterile packed and belong together as one product. The drape is used for the sterile demarcation of the operation field. The top layer consists of an absorbent polypropylene nonwoven. The bottom layer consists of a moisture-impermeable polyethylene film providing a reliable barrier protection. Easily removable control stickers on the packaging facilitate surgical documentation.

Composition

Polypropylene, polyethylene, polyester, hypopallergenic adhesive

Contraindications

The product should not be used in the case of a known allergy against the material.

Normative and Regulative Requirements, Common Standards

Medical Device according to *MDD 93/42/EEC*, *MDR (EU) 2017/745*.

The product complies with the requirements of the **DIN EN 13795-1**, "Surgical clothing and drapes – Requirements and test methods – Part 1: Surgical drapes and gowns (requirements of the performance level 'high' and 'standard')".

Sterilization of the product complies with DIN EN 11135.

The product does not contain dangerous toxic substances according to REACH.

Packaging

Primary:

susideda iš dviejų lygių dalių, kurios gali būti išdėstytos įvairiai, kad gauta siena atitiktų tiksliai atitinka vartotojo reikalavimus

packaging

Secondary:

folding box
made of
cellulose

Tertiary:

carton made of
cellulose

Symbols used in labelling

Explanation at www.nobamed.com

Marking on all packaging levels with CE and according to DIN EN ISO 15223-1- and DIN EN ISO 20417

Storage and transport

To be stored in a dry and dust-free environment, protect from sunlight.

Sterile device

Before using a sterile product, visually inspect the packaging to ensure that it is intact.

Single use device

Reusing a single use medical device can lead to microbiological danger. Reprocessing for reuse can decrease the product's performance significantly.

Disposal

According to locally applicable legal regulations and standards of infection prophylaxis.

apklotas turi papildomą absorbuojantį sluoksnį su specialiomis angomis vamzdelių tvirtinimui

18 Pirkimo dalis - Kintamo ilgio paciento jungtis dirbtinei ventilacijai per tracheostomą

Catheter Mounts

Altech range of catheter mounts includes a wide choice of smoothbore PVC and extendible configurations

- Smoothbore products provide low resistance to flow while external coil reduces kinks and blockages. Besides they prevent fluid build up reducing risks of bacterial growth thanks to smooth inner surface.

- Extendible PP product provides a lightweight and flexible solution and allows clinician to adjust the position of the catheter mount

- 360 degree double swivel connector increases ease of use

- Double cap helps to maintain PEEP during suctioning or bronchoscopy. **18.1.4 Turi „Flip top“ tipo dangtelį su angele atsiurbti**

- Luer lock port for gas sampling

- 15M or 22F adapters available
