Your Offer

August 1, 2024

Dear Patricija Reut,

Thank you for your interest in Statista.

Statista is one of the world's largest statistics, market data, and research platforms with access to more than 1.5 million data points, spanning 80,000 topics. The platform professionally gathers and compiles content from more than 22,500 sources worldwide (300–500 new data is uploaded daily). To date, more than 8,000 companies and organizations as well as around 850 universities worldwide have a partnership with Statista.

With Statista's partnership, your firm obtains direct access to statistics, forecasts, infographics, studies, and reports on over 80,000 topics. The table on the second page provides you with a list of the services that are included in the various options in this proposal. Productivity function such as exports to various formats (PPT, XLS, PDF), and included republication rights will allow you to focus on working with the data to create valuable deliverables for your clients instead of spending time on researching and formatting.

Much of this information will be provided in greater detail during the introductory call with Innovation Agency Lithuania's users, where they will learn how to use Statista's platform as effectively and efficiently as possible.

Please let me know if you have any further questions. We are looking forward to working with you and your team.

All the best,

Product Offerings

Option 1 | Term: 12 Months

Product	Quantity	Term (months)	List Price	Discount	Price
ProA + Conl + eComl	up to 10 Users	12	32.752,51 €	4.912,88 €	27.839,63 €
