Houyvet-Landriscina,

Notes on the decision to grant a European patent (EPO Form 2006A)

Since 1 June 2023, when Regulations (EU) No 1257/2012 and No 1260/2012 began to apply, a number of options have been available for validating your European patent.

1. Conventional national validation in the EPC contracting states

The exact validation procedure and any associated translation requirements vary from state to state. The brochure "**National law relating to the EPC**", available on our website, provides useful information on the formal requirements and procedural steps the various national patent offices will ask you to complete to obtain patent protection in their state.

Some EPC contracting states require a **translation of the European patent specification**. Depending on whether or not the state concerned has signed up to the London Agreement, you will need to provide a translation of either just the claims or the entire specification. If you do not provide the translations required, your European patent may be deemed void from the outset.

2. Unitary Patent: "unitary" validation in the participating EU member states via a centralised EPO procedure

A European patent with unitary effect (or "Unitary Patent") is a European patent granted by the EPO for which unitary effect has been registered at the proprietor's request. It covers the territories of those participating member States in which the UPCA has taken effect at the date of registration of unitary effect by the EPO. For more detailed information, see the "**Unitary Patent Guide**" available on the EPO website.

To obtain a Unitary Patent, you must file a **request for unitary effect with the EPO**, in the language of the proceedings, no later than **one month** after the date on which the mention of the patent grant was published in the European Patent Bulletin. Your request must be accompanied by a **translation of the full patent specification**, either into English if the language of your proceedings was French or German or into another EU official language if the language of your proceedings was English. We strongly recommend that you use the **Form 7000** functionality specially provided in Online Filing (eOLF) and Online Filing 2.0 to file your request.

Natural persons, SMEs, non-profit organisations, universities and public research organisations that filed their patent application in an EU official language other than German, English or French may be eligible for lump-sum **compensation of their translation costs** if their residence or principal place of business is in an EU member state.

To maintain a Unitary Patent, you only need to pay **one single renewal fee** to the EPO each year.

3. Combining a Unitary Patent with conventional national validations

A Unitary Patent is valid only in EU member states participating in the scheme set up under Regulation (EU) No 1257/2012 that have also ratified the Agreement on a Unified Patent Court. This means it does not cover all of the EPC contracting states.

If, in addition to your Unitary Patent, you want patent protection in other EPC contracting states too, you will therefore have to follow their national validation procedures (see point 1 above).

The procedural steps involved in each of the above validation options are subject to change, so you should always consult the latest editions of the two brochures mentioned above and the information on the EPO website (epo.org).

1.2 Bibliographic data

The title of the invention in the three official languages of the European Patent Office, the international patent classification, the designated contracting states, the registered name(s) of the applicant(s) and the other bibliographic data are shown on **EPO Form 2056** (enclosed).

2. Invitation

You are invited, **within a non-extendable period of four months** of notification of this communication,

2.1 to EITHER approve the text communicated above and verify the bibliographic data (Rule 71(5) EPC)

(1) by filing a translation of the claim(s) in the other two official languages of the EPO

| Fee code | EUR |
|----------|-----|
|----------|-----|

(2a) by paying the fee for grant including the fee for publication:
minus any amount already paid (Rule 71a(5) EPC):

| | |

(3) by paying additional claims fees under Rule 71(4) EPC;

|------------|--------------|

| | |
|---------------|------|
| Total amount: | 0.00 |
|---------------|------|

Important: If the translations of the claims and fees have already been filed and paid respectively in reply to a previous communication under Rule 71(3) EPC, e.g. in the case of resumption of examination after approval (see Guidelines C-V, 6), **agreement as to the text to be granted** (Rule 71a(1) EPC) must be expressed within the same time limit (e.g. by approving the text and verifying the bibliographic data, by confirming that grant proceedings can go ahead with the documents on file and/or by stating which translations of the claims already on file are to be used).

Note 1: See "Notes concerning fee payments" below.

Note 2: Any overpaid "minus" amounts will be refunded when the decision to grant (EPO Form 2006A) has been issued.

Note 3: For the calculation of the grant fee under Article 2(2), No. 7, RFees (old fee structure), the number of pages is determined on the basis of a clean copy of the application documents, in which text deleted as a result of any amendments by the examining division is not shown. Such clean copy is made available via on-line file inspection only.

2.2 OR, in the case of disapproval, to request reasoned amendments or corrections to the text communicated above or keep to the latest text submitted by you (Rule 71(6) EPC).

In this case the translations of the claims and fee payments mentioned under point 2.1 above are NOT due.

The terms "amendment(s)" and "correction(s)" refer only to amendments or corrections of the application documents and not of other documents (e.g. bibliographic data, the designation of the inventor, etc.).

If filing amendments, you must identify them and indicate the basis for them in the application as filed. Failure to meet either requirement may lead to a communication from the examining division requesting that you correct this deficiency (Rule 137(4) EPC).

2.3 Bibliographic data

Where you request a change or correction of bibliographic data in response to the Rule 71(3) communication, this will **not** cause the sending of a further communication under Rule 71(3) EPC. You will still have to pay the fees and file translations in reply to the Rule 71(3) communication in the case of 2.1 above, unless you also file a reasoned request for amendments or corrections in response to the Rule 71(3) communication (see case 2.2 above).

3. Loss of rights

If neither of the two possible actions above (see points 2.1 or 2.2) is performed in due time, the European patent application will be deemed to be withdrawn (Rule 71(7) EPC).

4. Further procedure

4.1 In the case of point 2.1 above

- 4.1.1** The decision to grant the European patent will be issued, and the **mention of the grant** of the patent will be published in the European Patent Bulletin, if the requirements concerning the translation of the claims and the payment of all fees are fulfilled and there is agreement as to the text to be granted (Rule 71a(1) EPC).

Note on payment of the renewal fee:

If a renewal fee becomes due before the next possible date for publication of the mention of the grant of the European patent, publication will be effected only after the renewal fee and any additional fee have been paid (Rule 71a(4) EPC).

Under Article 86(2) EPC, the obligation to pay renewal fees to the European Patent Office terminates with the payment of the renewal fee due in respect of the year in which the mention of the grant of the European patent is published.

Note on payment of the designation fee(s):

If the designation fee(s) become(s) due after the communication under Rule 71(3) EPC, the mention of the grant of the European patent will not be published until these fees have been paid (Rule 71a(3) EPC).

- 4.1.2** After publication, the **European patent specification** can be downloaded free of charge from the EPO publication server <https://data.epo.org/publication-server>.

4.1.3 Filing of translations in the contracting states

As regards translation requirements prescribed by the contracting states under Article 65(1) EPC, please consult the website of the European Patent Office

www.epo.org → Law & practice → Legal texts, National law relating to the EPC

www.epo.org → Law & practice → All Legal texts → London Agreement

In the case of a valid extension or validation

As regards translation requirements prescribed by the extension or validation states, please consult the website of the European Patent Office

www.epo.org → Law & practice → Legal texts, National law relating to the EPC

Failure to supply a prescribed translation in a contracting state, or in an extension or validation state may result in the patent being deemed to be void *ab initio* in the state concerned (Art. 65(3) EPC).

4.2 In the case of 2.2 above

If the present communication under Rule 71(3) EPC is based on an auxiliary request and, within the time limit, you maintain the main request or a higher ranking request which is not allowable, the application will be refused (Art. 97(2) EPC).

If the examining division gives its consent to the requested amendments or corrections, it will issue a new communication under Rule 71(3) EPC; otherwise, it shall resume the examination proceedings (Rule 71(6) EPC).

5. Filing of a divisional application

Any divisional application relating to this European patent application must be filed directly with the European Patent Office in Munich, The Hague or Berlin and will be in the language of the proceedings for the present application, or if the latter was not in an official language of the EPO, the divisional application may be filed in the language of the present application as filed (see Article 76(1) and Rule 36(2) EPC). Any such divisional application must be filed while the present application is still pending (Rule 36(1) EPC; Guidelines A-IV, 1.1.1).

6. Notes concerning fee payments**6.1 Making payments**

For payments made via deposit account, please note that as from 1 December 2017 debit orders will only be carried out if filed in an electronically processable format (xml), using an accepted means of filing as laid down in the Arrangements for deposit accounts (ADA), published in the Supplementary publication in the Official Journal.

All relevant information related to the modes of payment of fees to the EPO can be retrieved from the EPO website at "**Making Payments**".

6.2 Information concerning fee amounts

Procedural fees are usually adjusted every two years, on even years, with effect from 1 April. Therefore, before making a payment, parties should verify the amounts actually due on the date of payment using the applicable version of the Schedule of fees and expenses, published as a Supplement to the Official Journal of the EPO, available on the EPO website (www.epo.org) at www.epo.org/schedule-of-fees. The "Schedule of fees" table allows the viewing, downloading and searching of individual fee amounts, both current and previous.

6.3 Note to users of the automatic debiting procedure

The fee for grant, including the fee for publication, and any additional claims fees due under Rule 71(4) EPC will be debited automatically on the date of filing of the translations of the claims, or on the last day of the period of this communication. However, if the designation fee(s) become(s) due as set out in Rule 71a(3) EPC and/or a renewal fee becomes due as set out in Rule 71a(4) EPC, these should be paid separately by another permitted way of payment in order not to delay the publication of the mention of the grant. The same applies in these circumstances to the payment of extension and validation fees.

Enclosures: Text intended for grant

EPO Form 2056
EPO Form 2906

Notes on the decision to grant a European patent (EPO Form 2006A)

Since 1 June 2023, when Regulations (EU) No 1257/2012 and No 1260/2012 began to apply, a number of options have been available for validating your European patent.

1. Conventional national validation in the EPC contracting states

The exact validation procedure and any associated translation requirements vary from state to state. The brochure "**National law relating to the EPC**", available on our website, provides useful information on the formal requirements and procedural steps the various national patent offices will ask you to complete to obtain patent protection in their state.

Some EPC contracting states require a **translation of the European patent specification**. Depending on whether or not the state concerned has signed up to the London Agreement, you will need to provide a translation of either just the claims or the entire specification. If you do not provide the translations required, your European patent may be deemed void from the outset.

2. Unitary Patent: "unitary" validation in the participating EU member states via a centralised EPO procedure

A European patent with unitary effect (or "Unitary Patent") is a European patent granted by the EPO for which unitary effect has been registered at the proprietor's request. It covers the territories of those participating member States in which the UPCA has taken effect at the date of registration of unitary effect by the EPO. For more detailed information, see the "**Unitary Patent Guide**" available on the EPO website.

To obtain a Unitary Patent, you must file a **request for unitary effect with the EPO**, in the language of the proceedings, no later than **one month** after the date on which the mention of the patent grant was published in the European Patent Bulletin. Your request must be accompanied by a **translation of the full patent specification**, either into English if the language of your proceedings was French or German or into another EU official language if the language of your proceedings was English. We strongly recommend that you use the **Form 7000** functionality specially provided in Online Filing (eOLF) and Online Filing 2.0 to file your request.

Natural persons, SMEs, non-profit organisations, universities and public research organisations that filed their patent application in an EU official language other than German, English or French may be eligible for lump-sum **compensation of their translation costs** if their residence or principal place of business is in an EU member state.

To maintain a Unitary Patent, you only need to pay **one single renewal fee** to the EPO each year.

3. Combining a Unitary Patent with conventional national validations

A Unitary Patent is valid only in EU member states participating in the scheme set up under Regulation (EU) No 1257/2012 that have also ratified the Agreement on a Unified Patent Court. This means it does not cover all of the EPC contracting states.

If, in addition to your Unitary Patent, you want patent protection in other EPC contracting states too, you will therefore have to follow their national validation procedures (see point 1 above).

The procedural steps involved in each of the above validation options are subject to change, so you should always consult the latest editions of the two brochures mentioned above and the information on the EPO website (epo.org).

1.2 Bibliographic data

The title of the invention in the three official languages of the European Patent Office, the international patent classification, the designated contracting states, the registered name(s) of the applicant(s) and the other bibliographic data are shown on **EPO Form 2056** (enclosed).

2. Invitation

You are invited, **within a non-extendable period of four months** of notification of this communication,

2.1 to EITHER approve the text communicated above and verify the bibliographic data (Rule 71(5) EPC)

(1) by filing a translation of the claim(s) in the other two official languages of the EPO

| | Fee code | EUR |
|---|------------|---------|
| (2a) by paying the fee for grant including the fee for publication: | 007 | 1040.00 |
| minus any amount already paid (Rule 71a(5) EPC): | | 0.00 |
| Total amount: | | 1040.00 |
| (3) by paying additional claims fees under Rule 71(4) EPC; | | |
| number of claims fees payable: 0 | 016 | 0.00 |
| minus any amount already paid (Rule 71a(5) EPC): | | 0.00 |
| Total amount: | | 0.00 |

Important: If the translations of the claims and fees have already been filed and paid respectively in reply to a previous communication under Rule 71(3) EPC, e.g. in the case of resumption of examination after approval (see Guidelines C-V, 6), **agreement as to the text to be granted** (Rule 71a(1) EPC) must be expressed within the same time limit (e.g. by approving the text and verifying the bibliographic data, by confirming that grant proceedings can go ahead with the documents on file and/or by stating which translations of the claims already on file are to be used).

Note 1: See "Notes concerning fee payments" below.

Note 2: Any overpaid "minus" amounts will be refunded when the decision to grant (EPO Form 2006A) has been issued.

Note 3: For the calculation of the grant fee under Article 2(2), No. 7, RFees (old fee structure), the number of pages is determined on the basis of a clean copy of the application documents, in which text deleted as a result of any amendments by the examining division is not shown. Such clean copy is made available via on-line file inspection only.

2.2 OR, in the case of disapproval, to request reasoned amendments or corrections to the text communicated above or keep to the latest text submitted by you (Rule 71(6) EPC).

In this case the translations of the claims and fee payments mentioned under point 2.1 above are NOT due.

The terms "amendment(s)" and "correction(s)" refer only to amendments or corrections of the application documents and not of other documents (e.g. bibliographic data, the designation of the inventor, etc.).

If filing amendments, you must identify them and indicate the basis for them in the application as filed. Failure to meet either requirement may lead to a communication from the examining division requesting that you correct this deficiency (Rule 137(4) EPC).

2.3 Bibliographic data

Where you request a change or correction of bibliographic data in response to the Rule 71(3) communication, this will **not** cause the sending of a further communication under Rule 71(3) EPC. You will still have to pay the fees and file translations in reply to the Rule 71(3) communication in the case of 2.1 above, unless you also file a reasoned request for amendments or corrections in response to the Rule 71(3) communication (see case 2.2 above).

3. Loss of rights

If neither of the two possible actions above (see points 2.1 or 2.2) is performed in due time, the European patent application will be deemed to be withdrawn (Rule 71(7) EPC).

4. Further procedure

4.1 In the case of point 2.1 above

- 4.1.1** The decision to grant the European patent will be issued, and the **mention of the grant** of the patent will be published in the European Patent Bulletin, if the requirements concerning the translation of the claims and the payment of all fees are fulfilled and there is agreement as to the text to be granted (Rule 71a(1) EPC).

Note on payment of the renewal fee:

If a renewal fee becomes due before the next possible date for publication of the mention of the grant of the European patent, publication will be effected only after the renewal fee and any additional fee have been paid (Rule 71a(4) EPC).

Under Article 86(2) EPC, the obligation to pay renewal fees to the European Patent Office terminates with the payment of the renewal fee due in respect of the year in which the mention of the grant of the European patent is published.

Note on payment of the designation fee(s):

If the designation fee(s) become(s) due after the communication under Rule 71(3) EPC, the mention of the grant of the European patent will not be published until these fees have been paid (Rule 71a(3) EPC).

- 4.1.2** After publication, the **European patent specification** can be downloaded free of charge from the EPO publication server <https://data.epo.org/publication-server>.

4.1.3 Filing of translations in the contracting states

As regards translation requirements prescribed by the contracting states under Article 65(1) EPC, please consult the website of the European Patent Office

www.epo.org → Law & practice → Legal texts, National law relating to the EPC

www.epo.org → Law & practice → All Legal texts → London Agreement

In the case of a valid extension or validation

As regards translation requirements prescribed by the extension or validation states, please consult the website of the European Patent Office

www.epo.org → Law & practice → Legal texts, National law relating to the EPC

Failure to supply a prescribed translation in a contracting state, or in an extension or validation state may result in the patent being deemed to be void *ab initio* in the state concerned (Art. 65(3) EPC).

4.2 In the case of 2.2 above

If the present communication under Rule 71(3) EPC is based on an auxiliary request and, within the time limit, you maintain the main request or a higher ranking request which is not allowable, the application will be refused (Art. 97(2) EPC).

If the examining division gives its consent to the requested amendments or corrections, it will issue a new communication under Rule 71(3) EPC; otherwise, it shall resume the examination proceedings (Rule 71(6) EPC).

5. Filing of a divisional application

Any divisional application relating to this European patent application must be filed directly with the European Patent Office in Munich, The Hague or Berlin and will be in the language of the proceedings for the present application, or if the latter was not in an official language of the EPO, the divisional application may be filed in the language of the present application as filed (see Article 76(1) and Rule 36(2) EPC). Any such divisional application must be filed while the present application is still pending (Rule 36(1) EPC; Guidelines A-IV, 1.1.1).

6. Notes concerning fee payments

6.1 Making payments

For payments made via deposit account, please note that as from 1 December 2017 debit orders will only be carried out if filed in an electronically processable format (xml), using an accepted means of filing as laid down in the Arrangements for deposit accounts (ADA), published in the Supplementary publication in the Official Journal.

All relevant information related to the modes of payment of fees to the EPO can be retrieved from the EPO website at "**Making Payments**".

6.2 Information concerning fee amounts

Procedural fees are usually adjusted every two years, on even years, with effect from 1 April. Therefore, before making a payment, parties should verify the amounts actually due on the date of payment using the applicable version of the Schedule of fees and expenses, published as a Supplement to the Official Journal of the EPO, available on the EPO website (www.epo.org) at www.epo.org/schedule-of-fees. The "Schedule of fees" table allows the viewing, downloading and searching of individual fee amounts, both current and previous.

6.3 Note to users of the automatic debiting procedure

The fee for grant, including the fee for publication, and any additional claims fees due under Rule 71(4) EPC will be debited automatically on the date of filing of the translations of the claims, or on the last day of the period of this communication. However, if the designation fee(s) become(s) due as set out in Rule 71a(3) EPC and/or a renewal fee becomes due as set out in Rule 71a(4) EPC, these should be paid separately by another permitted way of payment in order not to delay the publication of the mention of the grant. The same applies in these circumstances to the payment of extension and validation fees.

2. Invitation

You are invited, **within a non-extendable period of four months** of notification of this communication,

2.1 to EITHER approve the text communicated above and verify the bibliographic data (Rule 71(5) EPC)

(1) by filing a translation of the claim(s) in the other two official languages of the EPO

| | Fee code | EUR |

In this case the translations of the claims and fee payments mentioned under point 2.1 above are NOT due.
