Overview

High-quality whatman lens cleaning tissue, which is chemically pure and free from silicones and other additives.

- **Soft texture will not damage lenses or optical surfaces.**
- Chemically pure tissue is free from silicones and other additives.
- High absorbency leads to increased safety upon removal of surface moisture and grease.
- Very strong and leaves no fibers.

Lenses and other optical surfaces made from glass, quartz, or plastic can be easily scratched if they are not cleaned with a very soft tissue. High-quality whatman lens cleaning tissue provides the solution. It can be relied on to carefully and thoroughly remove surface moisture and grease.
