

## **Declaration of compliance to Directive 94/62/EC on packaging and packaging waste**

Samsung Electronics hereby declares that all packaging units placed on the European Union internal market are compliant with Directive 94/62/EC on packaging and packaging waste as amended by Regulation Nr 1882/2003 and Directives 2004/12/EC and 2005/20/EC.

Packaging supplied with Samsung Electronics products complies with the following requirements:

- i. Packaging volume and weight has been reduced to the minimum amount necessary to maintain safety, hygiene and acceptance of the packaged product
- ii. Packaging is manufactured to permit reuse or recovery when packaging waste is disposed of.
- iii. Aggregate heavy metal limits of cadmium, mercury, lead and hexavalent chromium above 100ppm are not exceeded. In addition, noxious and hazardous substances have been minimized wherever possible.

To ease sorting and recycling of its plastic packaging Samsung Electronics adopts the voluntary packaging identification system as established by Commission Decision 97/129/EC, where applicable.

Samsung Electronics is member of an approved packaging producer compliance scheme in all EU countries where it has a legal presence in accordance with national law.
