

MADLAB IRIS RETRACTOR 5/PACK

Product number: E0750 NS

45

Developed for ease of use, these very flexible retractors are made of the super-elastic Nitinol alloy to provide durability and consistency. The retractors are supplied five per package, are fully reusable and are shipped in a unique sterilization case. To ease placement of the Multi-Use Iris Retractors, use the LASEREDGE Needle Knife to construct the precise limbal incision. Overall length: 10mm.
