2019

BioMaxima S.A. is an European Union-based manufacturer of a wide range of in vitro diagnostic (IVD) products. The company was established in 2002 in Poland and it was listed on the Warsaw Stock Exchange in 2010.

BioMaxima products are CE marked and meet the requirements of EC directive 98/79/EC. Our Quality System is certified to the ISO 9001:2015 and ISO 13485:2016 international standards and quality control is carried out in accordance with ISO 11133:2014.

BioMaxima is focused on continuous growth and development, working internationally through a network of authorised distributors. Wherever BioMaxima products reach, our services and product support follow, meeting the highest standards. We supply international markets including countries of Europe, Asia, Africa and South America.

BioMaxima S.A. est un fabricant européen d'une large gamme de dispositifs de diagnostic in vitro (IVD). La société a été créée en 2002 en Pologne et a été cotée à la Bourse de Varsovie en 2010.

Les produits BioMaxima sont marqués CE et répondent aux exigences de la directive CE 98/79 / CE. Notre système de qualité est certifié selon les normes internationales ISO 9001: 2015 et ISO 13485: 2016, et le contrôle de la qualité est effectué conformément à la norme ISO 11133: 2014.

BioMaxima se concentre sur le développement continu, travaillant à l'international à travers un réseau de distributeurs agréés. Quel que soit la destination de nos produits nous assurons leur entretien et le service après-vente aux standards les plus exigeants. Nous fournissons des marchés internationaux comprenant des pays d'Europe, d'Asie, d'Afrique et d'Amérique du Sud.

Prepared culture media Milieux de culture préparés

Prepared media are manufactured in our production facility, equipped with modern production lines. This provides our company with a high production efficiency and ensures product quality which conforms with the requirements established in the European legislation. Our Quality System is certified to ISO 9001 and ISO 13485 for the design and manufacture of medical devices. The culture media meet the standards of Directive 98/79/CE (1998/10/27) related to medical devices for in vitro diagnostic use. Each lot of prepared media is tested with control strains for growth and (when required) for inhibition. Lot that meets all standards receive The Quality Control Certificate.

Les milieux de cultures préparées sont fabriqués par nos soins à l'aide d'une installation équipée des lignées de production modernes. Cela nous assure une production de haute performance et des produits de qualité conforme aux normes établies par la législation européenne. Notre société est certifiée ISO 9001 et ISO 13485 pour la conception et la fabrication de dispositifs médicaux. Notre système qualité est certifié ISO 9001 et ISO 13485 pour la conception et la fabrication de dispositifs médicaux. Les milieux de culture sont conformes aux normes de la Directive 98/79 / CE relative aux dispositifs médicaux de diagnostic „in vitro”. Chaque lot de milieux de culture ainsi préparé est testé avec des souches de référence de la croissance et (si nécessaire) de l'inhibition.

Stonebrink Medium + MG + PACT	135/T	20 tubes*

*available in glass tubes: 5 ml, 7 ml, 9 ml, 10 ml

ABV- Amphotericin+Bacitracin+Vancomycin

HB- blood horse

SB - blood sheep

C- Chloramphenicol

CH- Chloramphenicol

CN - Cetrimide+Nalidixid acid

CIN- Cefsulodin+Irgasan+Novobiocin

CV- crystal violet

G - Gentamycin

Ge - Gentamycin

MG-Malachite Green

NEO- Neomycin P- Pyruvate

PACT- Polymyxin+Amphotericin+Carbenicillin+Trimethoprim

PV- PolyVitex

TCH- Thiocarbohydrazide

V- Vancomycin

VA- Vancomycin

VCAT- Vancomycin+Colistin+Amphotericin+Trimethoprim

VCN - Vancomycin+Colistin+Nystatin

VCNT - Vancomycin+Colistin+Nystatin+Trimethoprim

Antibiotic discs

Disques antibiogramme

The Antibiotic Paper Discs are manufactured in a modern facility equipped with automated production lines based on the latest technologies. Each delivery is accompanied by a certificate of quality control. The discs are packed in airtight packagings, type of tube or blister with a desiccant. Production is carried out in accordance with Quality Management System ISO 9001 and ISO 13485. The products are registered and CE marked.

Pour la fabrication des disques antibiogrammes nous utilisons une installation moderne équipée des lignes de production automatiques de dernière génération. Chaque livraison est accompagnée d'un certificat de qualité. Les disques sont emballés en paquets étanches à l'air. Les paquets sont de type tube ou blister ayant un agent déshydratant. La production est conforme au Système de Gestion de la Qualité ISO 9001 et ISO 13485. Les produits sont enregistrés et marqués CE.

Cryogenic storage of microorganisms – VIABANK

stockage cryogénique des microorganismes - VIABANK

VIABANK™ vials containing a minimum of 25 glass beads covered in a cryopreservative solution for long term storage of microorganisms at low temperatures. Individual beads can be removed while frozen at any time for establishing fresh cultures. Each box contains 80 VIABANK vials with either 4 different coloured caps in each box or a choice of one colour from the five options.

Description	Cat.No	Package size
VIABANK - Vials with red beads	VIRA	80 vials
VIABANK - Vials with green beads	VIGA	80 vials
VIABANK - Vials with yellow beads	VIYA	80 vials
VIABANK - Vials with blue beads	VIBA	80 vials
VIABANK - Vials with multi coloured beads	VIMA	80 vials
