

Certofix® Mono, Duo, Trio

Central Venous Catheters

B. Braun is one of the leading global manufacturers of central venous catheters. Basic catheter sets from B. Braun (1-, 2- or 3-lumen) assure the user to have state-of-the-art equipment in his or her hand.

User benefits

- Soft catheter quality avoids venous irritations
- Flexible steel guide-wire with soft J-tip allows smooth catheter placement
- Rigid packaging for fast preparation and convenient storage

The Basic Sets containing all essential components

Central Venous Catheters

More certainty, more safety, more success

Central Venous Catheters

CVC for your basic needs

B. Braun Certofix® sets are well accepted by our customers due to their excellent performance and innovative features. Our objective is to provide customers with the same quality worldwide but according to their local habits and preferences. Our new Certofix® Basic Sets have been designed to place a central venous catheter safely and successfully by containing all necessary components. All components included in the Certofix® Basic Sets like the dilator, the Seldinger guide-wire and the entire catheter are manufactured at highest quality. Features like the soft tip or the highly flexible J-tip of the guide-wire assure complication-free handling.
