

Two-part electric couch "CROSS 2"

Foot operated pedal (13.3)

Paper roll holder (13.7)

The table CROSS 2 is an ideal product in medical institutions, when performing massage or physiotherapy sessions. The table consists of two parts (head and body sections) (13.1). The head section will be homogeneous, without a cutout for the face. (13.5). The height of the table is adjustable using the foot pedal (13.3). The frame is made of powder-coated steel, for easier transport of the couch, lifting wheels (13.11) are installed. The body is made of 2 cm chipboard and covered with 3 cm thick elastic polyurethane foam and covered with artificial

seamless leather. The coating is easy to clean, resistant to disinfectants, non-allergenic, and does not change color. The coating color can be chosen from 28 different shades **(13.12)**.

| Technical parameters: | Model „CROSS 2” |
