

**TO WHOM IT MAY CONCERN**

With this letter, company SIA “Dangas” LT, Minkovskiu g. 150A, LT-46244, Kaunas, Lithuania, with registration number: 9000151353, confirms that for production of tablet salt “SALT.LV” using high quality food grade vacuum salt by pressing.

After production process tablet salt have following dimensions:

<b>Diameter mm</b>	<b>25.1</b>
<b>High mm</b>	<b>15.2</b>
<b>Mass g</b>	<b>12.4</b>

For packaging used 25 kg polypropylene bags with lamination.

Polypropylene packaging is recyclable.

It can be separated from other plastic types, melted into a liquid, cooled, and turned into pellets, then used to form new plastics.

Polypropylene parts can be 100% recycled for various useful purposes.

A market for recycled PP exists in an extensive range of products such as automotive applications, buckets, caps and closures, garden furniture, pallets, pipes, and more.
