# Loop Keeper™

Hydrophilic Acrylic  
Foldable Intraocular Lens  
(Three-piece)

**Designed for implantation in the posterior chamber of the eye; sulcus or capsular bag**

Loop Keeper™ is a three-piece hydrophilic acrylic foldable IOL with spheric monofocal optical design

- 360° square edge and 5° of haptic angulation
- Haptic material polyvinylidene fluoride (PVDF)

SKU TP613xxxx

|          |   |
|----------|---|
| MATERIAL | Three-piece hydrophilic acrylic                 |
|          | 26 % water content                              |
|          | UV filter                                       |
|          | Refractive index: 1.46 at 35° C                 |
|          | Haptic material: Polyvinylidene fluoride (PVDF) |
|          | Cut-off at 370 nm wavelength ≤ 10%              |

|        |                            |
|--------|----------------------------|
| DESIGN | Spheric monofocal          |
|        | 5° haptic angulation       |
|        | Optic diameter: 6.00 mm    |
|        | Overall diameter: 13.00 mm |
|        | 360° square edge           |

|               |   |
|---------------|---|
| DIOPTER RANGE | From +6.00 D to +30.50 D:               |
|               | From +6.00 D to +9.00 D (1.00 D steps)  |
|               | From +9.00 D to +30.50 D (0.50 D steps) |

|                 |   |
|-----------------|---|
| DELIVERY SYSTEM | Bio Mecaject lens delivery system         |
|                 | Single use inserter BMSET180 (1 unit/box) |
|                 | Recommended incision size: 3.00 mm        |

| CONSTANTS* | Optical constants   | Ultrasonic constants   |
|------------|---|--|
