Product Specification MR290

- MR290 Autofeed Humidification Chamber

- *Suitable for all patients – neonatal through to adult*
- *Safe dual-float automatic waterfeed mechanism with integral feed set*
 - *delivers constant humidification*
 - *maintains PEEP*
 - *decreases chamber maintenance*
 - *maintain constant water level*
- *Unique dual float mechanism*
 - *Uses independent floats to safely maintain a constant water level for optimal humidification*
- *Constant compressible volume and low compliance*
- *Compliance: 0.4 mL/cmH₂O*
- *Compressible Volume: 280mL*
- *Resistance to flow @ 60 L/min: 0.52 cmH₂O*
- *Maximum Operating Pressure: 8kPa*
- *Maximum Peak Flow: 180 L/min for 30 secs*
- *Gas leakage < 100mL/min*
- *Clean room packed*
