E-Gel 1 Kb Plus DNA Ladder is specifically formulated for optimal performance on pre-cast E-Gel agarose gels.

Highlights of E-Gel 1 Kb Plus DNA Ladder:

- **Performance**—optimal for use on E-Gel agarose gels
- **Sharp, clear bands**—chromatography purified fragments for consistent and reliable results and stable at room temperature up to six months
- **Ready-to-use**—premixed with loading buffer
- **Convenient**—provided with 1X E-Gel Sample Loading Buffer
- **Precise**—an exact amount of DNA in each band

**Product use**

The double-stranded DNA ladder can be visualized on 0.8–1% E-Gel agarose gels. The ladder is designed with a uniform intensity of DNA bands for a clear view of each band. An exact amount of DNA in each band allows approximate quantification of DNA samples.

For Research Use Only. Not for use in diagnostic procedures.
