

# Gas springs

Available in four sizes: L, M, S, and mini.

Take a look at the delivery costs »

## Product description ^

The short gas spring S is suitable for users under 150 cm, medium M for users under 170 cm and long L for users that are over 165 cm. S Light gas spring (only matte black) is most suitable for children of 9-14 years, as it needs less weight to lower the seat.

Mini gas spring is for special circumstances only, its use is not dependent on the user's height but on the working height.

Colours metallic, matte metallic, or black. Weight 1.8 kg.
