SPECIALIST RESCUE EQUIPMENT

BY NORTHERN DIVER

## DECLARATION

Hereby we declare that:

NORTHERN DIVER STORM FORCE 5 RESCUE SUIT is a Cordura type suit and weight of the material is 400gsm (g/m<sup>2</sup>). The 375D is the denier of the suit's material, not the actual gsm. In the UK denier is measured as the density of the material rather than gsm. This suit can be supplied with hermetically attached, waterproof boots.

NORTHERN DIVER METALUX UNDERSUIT 300G (300 g/m<sup>2</sup>) is a 3-layer suit, that has outer material, heat-insulating insert and lining.

Yours Faithfully,

A large, thick black scribble used to redact the signature of the Specialist Rescue Equipment Manager.
