

BLACK DELTA WETBOOTS

Northern Divers Delta Flex Wet Boots are manufactured from a flexible 5mm neoprene and have a unique titanium lining for fantastic heat retention and additional comfort. These versatile wetsuit boots are ideal for a range of watersports including scuba diving, snorkeling, boating, windsurfing, paddle boarding, kayaking, surfing and anything else you can think of.

A durable YKK zippered entry and gusset system is fitted to reduce any water ingress and the zipped fastener is designed to improve the ease of putting on and taking off the boot. Our ND wet boots also feature a reinforced upper, toe and heel and a durable non-slip sole, they give unbeatable value for money and are suitable for many different watersports activities. These wet boots are used by Sport, Commercial, Military and Rescue professionals, they continue to impress and reflect the expertly designed features and attention to detail you have to come expect.
