

Getinge Assured Record Labels

ISO 11140-1, Type 1 Labels for Steam, EO and VHP

Getinge Assured Record Label system consists of a labeler with 3 printing lines and double self-adhesive labels with process indicators for Steam, Ethylene oxide and Plasma sterilization.

Key Benefits

- **Simple and effective**
Easy printing of identical labels with minimal time and effort.
- **Traceability**
Assures the tracking of instruments at any time.
- **Process Indicator**
The labels have a process indicator with easy to interpret color changes. There is no need for additional process indicators when using the Getinge Assured Record Labels.
- **Allows you to print key information**
Code number of the operator, number or code of the autoclave and cycle, Lot number, sterilization date and expiration date.
