

**DORMO® PARAFFIN 48°C**

Paraffin for rehabilitation

**Date**

March 2012

**References**

TPRF1

TPRF2

TPRF3

**Specification N.**

ETP/133/4

**TECHNICAL SPECIFICATIONS****Materials**

- Raw material:
  - Paraffin 48°C
  - Chemical composition: saturated hydrocarbon waxes
  - INCI name: Paraffin
- Pouch:
  - Polyethylene film

**Physical properties**

Appearance  
Melting point  
Congealing point  
Colour (Saybolt)  
Needle penetration 25°C  
Solubility in water, alcohols, acetone  
Solubility in chloroform, ether, carbon disulphide

Soft waxy solid, characteristic odour  
48°C – 52°C  
44°C – 47°C  
White (28 – 30)  
60 – 80 (1/10mm)  
Insoluble  
Soluble

**Packaging**

- TPRF1: 5kg tables
- TPRF2: 2kg tables
- TPRF3: 1kg bars
