GUARDTECH CLEANROOMS LIMITED

BALANCE SHEET (CONTINUED)

AS AT 30 JUNE 2024

The directors of the company have elected not to include a copy of the profit and loss account within the financial statements.

For the financial year ended 30 June 2024 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of financial statements.

The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476.

These financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies regime.

The financial statements were approved by the board of directors and authorised for issue on 31 March 2025 and are signed on its behalf by:

Air R Wheeler

Director

Company Registration No. 02547055

GUARDTECH CLEANROOMS LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2024

1 Accounting policies

Company information

Guardtech Cleanrooms Limited is a private company limited by shares incorporated in England and Wales. The registered office is Unit 1A, Homefield Road, Haverhill, Suffolk, CB9 8QP.

1.1 Reporting period

FRS 102 3.10 An entity shall present a complete set of financial statements (including comparative information as set out in paragraph 3.14) at least annually. When the end of an entity's reporting period changes and the annual financial statements are presented for a period longer or shorter than one year, the entity shall disclose the following: (a) that fact; (b) the reason for using a longer or shorter period; and (c) the fact that comparative amounts presented in the financial statements (including the related notes) are not entirely comparable.

1.2 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime. The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

1.3 Turnover

Turnover is recognised at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, and is shown net of VAT and other sales related taxes. The fair value of consideration takes into account trade discounts, settlement discounts and volume rebates.

When cash inflows are deferred and represent a financing arrangement, the fair value of the consideration is the present value of the future receipts. The difference between the fair value of the consideration and the nominal amount received is recognised as interest income.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer (usually on dispatch of the goods), the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

1.4 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Leasehold improvements	10% straight line
Plant and equipment	20% straight line
Computers	33.33% straight line
Motor vehicles	33.33% straight line

GUARDTECH CLEANROOMS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2024

1 Accounting policies

(Continued)

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

1.5 Fixed asset investments

Interests in subsidiaries, associates and jointly controlled entities are initially measured at cost and subsequently measured at cost less any accumulated impairment losses. The investments are assessed for impairment at each reporting date and any impairment losses or reversals of impairment losses are recognised immediately in profit or loss.

A subsidiary is an entity controlled by the company. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

An associate is an entity, being neither a subsidiary nor a joint venture, in which the company holds a long-term interest and where the company has significant influence. The company considers that it has significant influence where it has the power to participate in the financial and operating decisions of the associate.

Entities in which the company has a long term interest and shares control under a contractual arrangement are classified as jointly controlled entities.

1.6 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the stocks to their present location and condition.

Stocks held for distribution at no or nominal consideration are measured at the lower of cost and replacement cost, adjusted where applicable for any loss of service potential.

At each reporting date, an assessment is made for impairment. Any excess of the carrying amount of stocks over its estimated selling price less costs to complete and sell is recognised as an impairment loss in profit or loss. Reversals of impairment losses are also recognised in profit or loss.

1.7 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.8 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

GUARDTECH CLEANROOMS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2024

1 Accounting policies

(Continued)

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

1.9 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

1.10 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

GUARDTECH CLEANROOMS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2024

1 Accounting policies

(Continued)

Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

1.11 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.12 Retirement benefits

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

1.13 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessees. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets at the lower of the assets fair value at the date of inception and the present value of the minimum lease payments. The related liability is included in the balance sheet as a finance lease obligation. Lease payments are treated as consisting of capital and interest elements. The interest is charged to profit or loss so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Rentals payable under operating leases, including any lease incentives received, are charged to profit or loss on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the leases asset are consumed.

2 Employees

The average monthly number of persons (including directors) employed by the company during the year was:

	2024 Number	2023 Number

To Whom It May Concern,

RE: TAX COMPLIANCE CONFIRMATION FOR GUARDTECH CLEANROOMS LTD

We, Whitings LLP, being the duly appointed Chartered Accountants of Guardtech Cleanrooms Limited, with registered office at Unit 1a Homefield Road, Haverhill, England, CB9 8QP confirm that we have reviewed the tax compliance status of the above-named company as at the 30th April 2025.

Based on our examination of the relevant documentation and correspondence with the relevant tax authorities, we confirm that to the best of our knowledge and according to the information provided to us, Guardtech Cleanrooms Ltd has complied with its tax obligations under the applicable laws and regulations, including but not limited to:

- Filing of all required tax returns (e.g., income tax, VAT, payroll taxes) on a timely basis;
- Payment of all tax liabilities due and payable as of the date of this letter; or
- Entering into formal arrangements with the relevant tax authority for any outstanding obligations.

This confirmation is issued at the request of Guardtech Cleanrooms Limited for the purpose of a tender application, and it is not to be used for any other purpose without our prior written consent.

Yours faithfully,

Chris Ridgeon FCCA

Tom Rossiter

Position: Validation Engineer
Project Discipline: Commissioning Support

Profile

Tom has considerable experience in Cleanroom Commissioning of various industries. Over the 4 years in the industry, he has commissioned over 30 design and builds ranging from small modular rooms to 4000sqm Pharmaceutical facilities. In key GMP projects he takes a key role in the execution of the Commissioning and Validation phases. Tom also conducts approximately 100 Cleanroom validations per annum nationwide in a wide variety of cleanroom settings.

Tender Information

Tender Name: PAŽANGIOS TERAPIJOS CENTRO ŠVARIŲ PATALPŲ KVALIFIKAVIMO PASLAUGOS /
ADVANCED THERAPY CENTER CLEANROOMS QUALIFICATION SERVICES (10230)

Tender Publish Date: 28/03/2025

Tender Submission Date: 02/05/2025

Purchase ID: 1881614

Submission of qualification documentation for advanced therapy center cleanrooms qualification services (10230) tender

We are proud to submit our qualification documentation for your consideration for the above-mentioned tender. GUARDTECH CLEANROOMS LTD, with decades of experience in cleanroom construction and validation, specialises in delivering high-standard, regulatory-compliant facilities for the healthcare, pharmaceutical and advanced therapy industries.

Included within our submission is a short overview of our relevant experience as well as a list of successfully completed relevant projects. These projects were executed with full compliance to GMP standards and covered all qualification phases: Design Qualification (DQ), Installation Qualification (IQ) and Operational Qualification (OQ).

Proof of experience listed below:

- **BDD Pharma Ltd – Glasgow Royal Infirmary, Glasgow, UK**

- Design, construction and Validation of BDD's 300 sqm cleanroom and CNC- areas for Radiopharmacy and drug delivery. The project was handed over early 2024.

Commissioning and Validation, including DQ, IQ and OQ with all testing and documentation for GMP D cleanliness

- Completed: Early 2024 (Project No. 36357)
- Tester (Tom Rossiter, Service Engineer and tester)
- Evaluator (Chris McGinn, Compliance Manager)
- Contact: Carol Thompson | Email: carol.thomson@bddpharma.com | Phone: +44 7880 566109
- Case Study: <https://www.guardtechgroup.com/wp-content/uploads/2025/04/BDD-Pharma-Case-Study-v4.pdf>

• **Noumed – Noumed House, Maidenhead, UK**

- Design, construction and Validation of Noumed's 1050 sqm cleanroom for pharmaceutical production. Commissioning and Validation, including DQ, IQ and OQ with all testing and documentation for GMP D cleanliness.

- Tester (Tom Rossiter, Service Engineer and tester)
- Evaluator (Chris McGinn, Compliance Manager)
- Completed: 2019 (Project No. 35488)
- Contact: Rajat Mehta | Email: rajat.mehta@noumed.co.uk | Phone: +44 7778 511783
- Case Study: <https://www.guardtechgroup.com/wp-content/uploads/2024/12/Noumed-Three-Phase-Feb-23-v3.pdf>

• **Oxford University Hospitals NHS Foundation Trust – Oxford, UK**

- Design, construction and Validation of NHS/ Oxford University's cleanroom of XXX sqm for Cell & Gene Therapy (ATMP). Commissioning and Validation, including DQ, IQ and OQ with all testing and documentation for GMP B cleanliness.

- Tester (Tom Rossiter, Service Engineer and tester)
- Evaluator (Chris McGinn, Compliance Manager)
- Completed: 2023 (Project No. 35663)
- Contact: Michelle Taylor-Siddons | Email: michelle.taylor-siddons@ouh.nhs.uk | Phone: +44 7717 126363

• **LinkoCare Science AB – Solna, Stockholm, Sweden**

- A 130 sqm installation of a cleanroom in an office building in Stockholm. The client will produce natural lenses to cure Corneal Disease and help the clients to get their sight back. A controlled facility with GMP D- C- and B- cleanliness. Ongoing project where we do all the Commissioning, testing, DQ, IQ and OQ with all documentation.

- Tester (Tom Rossiter, Service Engineer and tester)
- Evaluator (Chris McGinn, Compliance Manager)
- Ongoing Project (Project No. 36676)
- Contact: Mehrdad Rafat | Email: mrafat@linkocare.com | Phone: +46 734613166

• **JEB Technologies Ltd – Mildenhall, Suffolk, United Kingdom**

-Medical Device Manufacturing. Design, construction and validation of an ISO 7 cleanroom (equivalence with GMP C).

- Tester (Tom Rossiter, Service Engineer and tester)
- Evaluator (Chris McGinn, Compliance Manager)
- Completed 2023 (Project No. 35926)
- Contact: Upon request

• **Oxford Instruments Ltd – Oxfordshire, United Kingdom**

-Optical Technology Manufacturing. Design, construction and validation of an ISO 5 cleanroom (equivalence with GMP B).

- Tester (Tom Rossiter, Service Engineer and tester)
- Evaluator (Chris McGinn, Compliance Manager)
- Completed 2022 (Project No. 35976)
- Contact: Upon request

• **KLA – Jena, Germany**

- Manufacturing of satellites for space. Validation (DQ, IQ and OQ) of ISO 5 cleanroom (equivalence with GMP B).
- Tester (Tom Rossiter, Service Engineer and tester)
- Evaluator (Chris McGinn, Compliance Manager)
- Completed 2024 (Project No. 36393)
- Contact: Upon request

• **Origin – Mildenhall, Suffolk, United Kingdom**

- Medical, pharmaceutical and drugs packaging manufacturing. Design, construction and validation of an ISO 5 cleanroom (equivalence with GMP B).
- Tester (Tom Rossiter, Service Engineer and tester)
- Evaluator (Chris McGinn, Compliance Manager)
- Completed 2019 (Project No. 35713)
- Contact: Upon request

We trust that our extensive experience and proven capabilities will meet your expectations and deliver exceptional results for the Advanced Therapy Center project.

Should you require any additional information or documentation, we would be delighted to provide it.

Sincerely,

Raymond Wheeler, managing director

Guardtech cleanrooms

Terms & Conditions

TERMS & CONDITIONS

GENERAL

These Conditions shall be incorporated into all contracts between The Guardtech Group, incorporating Cleanroom Solutions Ltd, Guardtech Cleanrooms Ltd, Isopod Ltd and Guardtech Nordic AB, hereafter referred to as ("Guardtech") and any customer ("Customer") for the supply to the Customer of goods and/or services. References to "Goods" means the products manufactured or dealt in by Guardtech and "Services" means the services or works carried out by Guardtech and which are the goods and/or services or works which are the subject of the Contract.

"Contract" means the contract made between Guardtech and the Customer for the supply of the Goods and/or Services and which shall be governed by these conditions and which includes any terms and conditions and related documents or information set out in, or otherwise identified in, the quotation upon which the contract is based or in any Guardtech acknowledgement. These Conditions supersede any earlier conditions appearing in Guardtech's literature or elsewhere.

The placing of any order by the Customer for Goods or Services shall be deemed to be an acceptance of these Conditions. Any terms and conditions stipulated, incorporated or referred to by the Customer whether in its order or in any negotiations or otherwise, are hereby excluded and in any event these Conditions shall prevail over the Customer's terms and conditions.

FORMATION OF CONTRACT

Any quotation submitted by Guardtech does not constitute an offer capable of binding Guardtech. No contract shall come into effect until Guardtech has received satisfactory credit references in respect of the Customer for the Contract and until Guardtech has issued its formal acknowledgement of the Customer's order or other acceptance of Guardtech's quotation/s.

GUARDETECH PERSONNEL

Guardtech personnel providing Services and Products shall remain under the supervision and control of the Customer. The Customer has the right to direct removal and replacement of Guardtech personnel. If a replacement is requested, Guardtech shall immediately replace the identified personnel at no cost to the Customer. The Customer shall not offer, promise, initiate an offer to or employ personnel of Guardtech during the term of this Agreement and for one year thereafter.

MANUFACTURERS' CATALOGUES ETC

Particulars of dimensions, capacities, performance ratings, specifications, drawings and other data included in manufacturers' catalogues, price lists or other documents supplied by Guardtech constitute only an approximate guide and shall not be binding upon Guardtech.

VARIATIONS

Guardtech shall not be bound by any variations, waiver or additions to the Contract unless such are agreed in writing.

DELIVERY

Guardtech will deliver or arrange delivery of the Goods to the Customer or to the Customer's agent at the place specified in the Contract for deliveries or, if no place has been specified, at such place as may be agreed in writing. Guardtech shall use its reasonable endeavours to deliver or arrange delivery of the Goods on the dates specified by the Customer or within a reasonable time thereof provided always that the time for delivery shall not be of the essence of the Contract and Guardtech shall not be liable for any loss or damage whatsoever arising directly or indirectly from any failure to effect delivery within such periods. The Customer shall accept deliveries of Goods by instalments.

SERVICES OR WORK ON SITE

The Customer shall provide adequate access to the relevant premises or site and ensure at all times that the working environment is conducive to the health and safety of Guardtech's employees, agents and sub-contractors. The Customer shall indemnify Guardtech against all costs, claims, liabilities and expenses incurred by Guardtech arising from or in connection with any personal injury to or death of any of its employees, agents or subcontractors which is occasioned directly or indirectly by any act or omission (whether negligent or not) on the part of the Customer, its agents or employees.

Guardtech shall have the right to refuse to perform any Services which would bring Guardtech's employees, agents or sub-contractors into contact with any hazardous substance where Guardtech was not previously informed of such hazardous substance by the Customer or where such hazardous substance was not reasonably apparent from any inspection that Guardtech may have made of the relevant site prior to the giving by Guardtech of any quotation for the supply of the Goods and/or Services.

PAYMENT

The price of the Goods and/or Services shall be as set out in the Contract. All prices are exclusive of VAT and all other applicable taxes and duties, which will be payable in addition to the Contract price at the rate in force at the date of any invoice submitted by Guardtech. Guardtech may require payments to be made by instalments on the basis of a percentage of the total Contract price or as otherwise agreed in writing with the Customer.

Payments shall become due to Guardtech on the date of receipt by the Customer of Guardtech's invoice in the case of contract deposits. Regular valuations shall become due at the end of month following the date of the valuation.

Each invoice shall set out the amount that Guardtech considers to be due and the basis upon which that amount has been calculated.

Guardtech reserves the right to charge interest and compensation under the Late Payment of Commercial Debts (Interest) Act 1998 and it is agreed that the rights provided under the said Act shall apply after any judgement or binding determination as well as before.

In the event of the Customer being in default of payment of any amount due to Guardtech under the Contract then on giving the Customer 7 days' notice in writing specifying the grounds for so doing, Guardtech may suspend performance of any or all of its obligations under the Contract. Guardtech shall resume its obligations under the Contract within a reasonable time after receipt of any outstanding payment. Any suspension arising under this clause shall entitle Guardtech to payment of its reasonable costs and expenses incurred as a result and the period of suspension shall be disregarded in computing any agreed date for completion of the Works and/or Service and Guardtech shall not otherwise be liable to the Customer in regard to such suspension.

PASSING OF PROPERTY

Until Guardtech has been paid in full for any Goods supplied under the Contract, the Customer holds the Goods in a fiduciary capacity as bailee of Guardtech.

Title to the Goods shall remain with Guardtech and the Customer shall store the Goods in such a manner that they are clearly identifiable as the property of Guardtech.

Guardtech reserves the right to dispose of the Goods and may retake possession thereof at any time for that purpose and may by its servants or agents enter upon any land or premises owned or occupied by the Customer or any subsequent purchaser of the Goods from the Customer and in addition the Customer shall include in any contract with a sub-purchaser a licence in favour of Guardtech covering the right of entering covered in this sub-clause; and if the Customer incorporates or allows the incorporation of the Goods into other goods or products in any way, legal and beneficial title to those other goods, both during the process of incorporation and thereafter shall vest forthwith in Guardtech, and the Customer shall hold them in a fiduciary capacity as bailee for Guardtech; if Guardtech so requires the Customer shall observe the conditions regarding storage in hereof as if such other goods were the Goods originally supplied; and the parties agree that incorporation of the Goods into other goods or products in any way is not intended to extinguish Guardtech's title to the Goods as provided for under these Conditions; and without prejudice to the above the Customer shall (subject to notice from Guardtech to the contrary) have the power to sell the Goods in the normal course of its business on behalf of Guardtech.

The Customer shall notify any subsequent purchaser of the Goods that title to the Goods remains with Guardtech. Any monies received by the Customer from any subsequent purchaser shall be held separately from any monies of the Customer or any other party on behalf of Guardtech and the Customer has a fiduciary duty to account for such monies to the extent of its indebtedness and to this extent is to pay Guardtech any sums received in respect of the Goods.

Notwithstanding the foregoing, risk in the Goods shall pass to the Customer upon the terms below. On receipt of notice from Guardtech, all Goods shall be immediately delivered to Guardtech and/or Guardtech acting by its servants or agents shall have the right without notice during normal business hours to enter upon the land or buildings of the Customer or any subsequent purchaser of the Customer to take possession of the Goods.
The events hereinbefore referred to are:

- Any notice to the Customer that a receiver or manager of all or any part of the Customer's assets is to be or has been appointed.
- Any notice to the Customer that a petition to wind up the Customer is to be or has been presented or any notice of a resolution to wind up the Customer (save for the purposes of reconstruction or amalgamation) has been given or such a resolution has been passed.
- A decision by the Customer that the Customer intends to make an arrangement with its creditors.
- The Customer is unable to pay its debts as defined in Section 123 of the Insolvency Act 1986.
- The Customer ceases to or threatens to cease to carry on its business.

RISK

The Goods shall be at the Customer's risk from the time that they are delivered to the Customer in accordance with the Contract. The Customer shall insure the Goods for the full Contract price against loss or damage arising from any cause whatsoever. If requested by Guardtech the Customer shall execute an assignment in favour of Guardtech of all rights of the Customer to claim against the insurers in respect of the Goods covered by such insurance and shall join Guardtech in notifying such insurers of Guardtech's interest in any policy effected hereunder.

Such insurance (with insurers to be approved by Guardtech) shall be affected by the Customer to cover the period from the time when the risk in the Goods passes to the Customer as provided above to the time when the property in the Goods passes to the Customer and Guardtech's interest as a vendor of the Goods shall be notified by the Customer to the insurers.

CLAIMS IN TRANSIT

Guardtech will not accept any responsibility whatsoever for loss, damage, discrepancy or shortfall to the Goods in transit if carried by a carrier nominated or requested by the Customer or by a carrier who is the servant or agent of the Customer. Claims shall be made immediately by the Customer to the carrier.

Save as provided above, Guardtech will repair, or at its option, replace free of charge, any part of the Goods lost or damaged in transit provided that Guardtech and the carrier are given notice of such loss or damage within the time required by the carrier's conditions of carriage or, where deliveries are made by Guardtech's own transport, within three days of the receipt of the Goods or of the day upon which the Goods should have arrived had they not been lost and provided that any damaged Goods or part thereof are returned carriage paid by the Customer to Guardtech.

ACCEPTANCE PROCEDURE

Goods shall be deemed to have been accepted by the Customer on delivery unless the Customer shall notify Guardtech in writing of non acceptance of the Goods within three days of delivery.

Where the Contract is for the sale and installation of a complete project incorporating Goods, Guardtech shall, unless otherwise agreed, be responsible for the installation, testing and commissioning of the project.

Completion of installation, testing and commissioning and acceptance of a project by the Customer (which the Customer shall not be entitled unreasonably to refuse) shall be evidenced by the signature of a certificate of hand over by an authorised representative of Guardtech and by the Customer or its representative.

CONFIDENTIALITY AND DATA PROTECTION

Each Party acknowledges that, in the course of the performance of its obligations under this contract, it will become possessor of and have access to know how, trade secrets, business, technical, manufacturing, marketing, sales, financial and other proprietary or confidential information relating to a Party's business ("Confidential Information").

Each Party shall:

- keep the Confidential Information of the other Party confidential and use the same care to do so as it uses to protect its own Confidential Information, but at least the usual standard of care applied in business enterprises;
- not disclose or grant access to the Confidential Information or any part thereof to any other person unless the other Party has given its prior written consent thereto, and such other person agrees in writing to be bound by confidentiality obligations identical to those set out in this Section, subject to such changes as the context may require;
- not use the Confidential Information or any part thereof for any purpose other than the performance of its obligations under this Agreement; and
- on demand, but in any event, on termination of this Agreement for any reason whatsoever, immediately return to the other Party, all documents or other records of Confidential Information of that other Party in its possession, regardless of the form of or the media on which such Confidential Information is stored.

- The confidentiality obligations in this Section shall not apply to any Confidential Information of a Party which, at the time of disclosure or any time thereafter, is or becomes part of the public domain through no fault of the other Party; was made known to the other Party prior to disclosure to it in terms of this Agreement, without any obligation to keep such information confidential; or is required by law to be disclosed in a manner that would otherwise be a breach of such confidentiality obligations.

- If either Party discovers any breach or potential breach of the confidentiality obligations in this Section, that Party shall immediately (i) notify the other Party and (ii) investigate the breach and provide the other Party with a complete written report.

- All analyses, memoranda, documents and other deliverables generated by Guardtech during the course of or as a result of this Agreement containing or referring to Confidential Information of the Customer shall be the sole property of the Customer. Upon the expiration or termination of this Agreement, Guardtech shall return to the Customer all Customer Data and property, including without limitation all correspondence, notes, documents, data, records, computer media and programs, specifications, manuals, and all other material and equipment which relate to the business of the Customer.

INTELLECTUAL PROPERTY

Guardtech agrees to, and hereby does, on a non-exclusive basis irrevocably assign and transfer to the Customer all worldwide right, title and interest to any invention, copyrightable work, derivative, development or modification relating to any product, system, process, documentation, data or service of the Customer which is conceived, made or otherwise developed by Guardtech, its employees or its agents, either alone or working jointly with others, in the course of performing or as a result of this contract (collectively "Improvements"). Guardtech further agrees that Improvements constituting copyrightable works are "works made for hire" under the copyright laws. The Customer agrees that all Guardtech intellectual property logos, documents, technical specifications and images remain the exclusive property of Guardtech unless otherwise agreed in writing with the Customer.

FORCE MAJEURE

Guardtech shall not be liable in any manner whatsoever for any breach of contract or delay in performance of its obligations insofar as such breach or delay arises by reason of circumstances beyond its reasonable control including, without limitation, governmental actions, war or national emergency, riot, civil commotion, fire, explosion, flood, epidemic, lock-outs, strikes or other labour disputes (whether or not relating to Guardtech's workforce), or restraints or delays affecting carriers or inability or delay in obtaining supplies of adequate or suitable materials. Provided that, if the event in question continues for a continuous period in excess of 60 days, the Customer shall be entitled to give notice in writing to Guardtech to terminate the Contract.

SUSPENSION AND TERMINATION

If the Customer fails to comply with any of the terms of the Contract whether a condition or warranty express or implied occurs or if Guardtech reasonably believes that they might occur and notifies the Customer accordingly, then, without limiting any other right or remedy, Guardtech may suspend or terminate all further obligations under the Contract or under any other contract between the Customer and Guardtech without incurring any liability to the Customer, and all outstanding sums shall become immediately due and Guardtech may apply the rights under the contract. In such an event Guardtech will be discharged from further performance of the Contract (subject to the end of any period of suspension as applicable following the rectification of the terms of the Contract to Guardtech's reasonable satisfaction) and the Customer shall forthwith upon demand pay to Guardtech all costs and expenses and overheads incurred in connection with the Contract together with any loss or profit and all sums due to Guardtech hereunder.

WARRANTIES AND LIABILITY

Guardtech warrants that the Goods supplied by it to the Customer under the Contract will be of satisfactory quality and reasonably fit for any purpose made known to Guardtech in writing at the time of Customer's order or agreement and that it will carry out the Services with reasonable skill and care. Subject as aforesaid, all warranties, conditions or other terms implied by statute or common law are excluded to the fullest extent permitted by law. Nothing in these Conditions shall limit or exclude Guardtech's liability for:

- death or personal injury caused by its negligence, or the negligence of its employees, agents or subcontractors (as applicable);
- fraud or fraudulent misrepresentation;
- breach of the terms implied by section 12 of the Sale of Goods Act 1979;
- defective products under the Consumer Protection Act 1987; or
- any matter in respect of which it would be unlawful for the Supplier to exclude or restrict liability; subject to which:
- if Guardtech is found to be in breach of the Contract its liability shall be limited to the cost of repair or replacement of the Goods provided or the re-performance of the Services provided;

Guardtech shall under no circumstances whatever be liable to the Customer, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, for any loss of profit, or any indirect or consequential loss arising under or in connection with the Contract, and

Guardtech's total liability to the Customer in respect of all other losses arising under or in connection with the Contract, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, shall in no circumstances exceed the price of the Goods or Services under the Contract.

LEGAL COMPLIANCE

Guardtech agrees that all activities and work performed, directly or indirectly, by or on behalf of Guardtech under this Agreement shall be carried out in accordance with all applicable laws, regulations and policies of the location where Guardtech is performing, directly or indirectly, such activities and work, and any other governmental authority to which Guardtech, the Services or the Products are subject. Guardtech is solely responsible for such compliance and obtaining all permits and licenses required to perform its obligations under this Agreement.

Compliance with Anti-Bribery Laws: Guardtech prohibits and its authorized agents agree to operate in full compliance with all applicable anti-bribery / anti-corruption legislation in the conduct of their business.

This means that no employee or agent or subcontractor of Guardtech may offer, promise, authorize or deliver any payment, gift of any kind, or anything of value to any government official or employee or any other person or entity, including those in the private or commercial sector, where such an action is in violation of any applicable anti-bribery / anti-corruption legislation or where the purpose is to improperly induce the recipient to take action or refrain from taking action that would provide a benefit or advantage to the Customer or Guardtech or its related entities.

To ensure compliance with this clause, Guardtech shall communicate these requirements to its employees and impose these same compliance requirements on any agents, subcontractors, or other third parties it may hire pursuant to this agreement.

Guardtech hereby acknowledges and agrees that any breach of this clause shall be grounds for immediate termination of this Agreement. Guardtech shall protect, indemnify and hold harmless the Customer from any claim, damages, liability costs, fees and expenses incurred by the Customer as a result of a breach by Guardtech.

Guardtech certifies that none of the Services are or will be performed and that none of the Products are or will be manufactured with child, indentured, forced or prison labor.

Guardtech confirms that it will comply with all applicable data protection laws and requirements. This includes the obligation to comply with new data protection laws and requirements that take effect while the contract remains in effect, and for as long as Guardtech holds or continues to have access to any personal data in relation to this contract.

Guardtech understands and agrees that the confidentiality, data protection and security requirements contained in this contract also apply to any contractors, sub-contractors, temporary employees or other third-parties who may receive access to any personal data or any other confidential or proprietary information from Guardtech under this Agreement. Guardtech will ensure that these parties enter into written agreements with substantially similar confidentiality, privacy and security agreements before they are given access to any personal data accessible to Guardtech in relation to this contract, including the servers or other devices on which the data is stored.

GENERAL

The Customer shall not without the prior written consent of Guardtech assign, transfer or sub let the benefit or burden of the Contract or any part thereof.

If any provision of these Conditions is found by any court, tribunal or administrative body of competent jurisdiction to be wholly or partly illegal, invalid or unenforceable it shall to the extent of such illegality, invalidity or unenforceability be deemed severable and the remaining provisions of these Conditions shall continue in full force and effect.

The Contract is not intended to confer a benefit on any third party, whether pursuant to the Contracts (Rights of Third Parties) Act 1999 or otherwise, and no third party shall have any right to enforce any of the provisions of the Contract. No delay by either party in enforcing any of the provisions of the Contract shall be deemed a waiver of that party's right subsequently to enforce such provision.

DISPUTE RESOLUTION

English law shall apply to the Contract.

Subject to either party's right to adjudicate at any time, the parties shall use their reasonable endeavours to resolve any dispute or difference between them through negotiation or mediation. Either party may refer a dispute arising under the Contract to adjudication at any time under Part I of the Scheme for Construction Contracts (England and Wales) Regulations, which Part shall take effect as if it was incorporated into this clause. The adjudicator shall be nominated by the Royal Institution of Chartered Surveyors.

The parties irrevocably agree that the courts of England shall have non-exclusive jurisdiction to settle any dispute or claim that arises out of or in connection with the Contract or its subject matter or formation (including non-contractual disputes or claims).

To Whom It May Concern

TIEKĖJO DEKLARACIJA

2025-05-02

(Data)

Patvirtinu, kad mano atstovaujamo tiekėjo sudėtyje nėra Rusijos dalyvavimo, viršijančio 2014 m. liepos 31 d. Tarybos reglamento (ES) Nr. 833/2014 dėl ribojamųjų priemonių atsižvelgiant į Rusijos veiksmus, kuriais destabilizuojama padėtis Ukrainoje, su pakeitimais, padarytais 2022 m. balandžio 8 d. Tarybos reglamentu (ES) Nr. 2022/576, 5k straipsnyje nustatytas ribas. Visų pirma patvirtinu, kad:

(a) mano atstovaujamas tiekėjas (ir nė vienas iš tiekėjų grupės narių) nėra Rusijos pilietis arba Rusijoje įsisteigęs fizinis ar juridinis asmuo, subjektas ar įstaiga;

(b) mano atstovaujamas tiekėjas (ir nė vienas iš tiekėjų grupės narių) nėra juridinis asmuo, subjektas ar įstaiga, kurio nuosavybės teisės tiesiogiai ar netiesiogiai daugiau kaip 50 % priklauso šios dalies a) punkte nurodytam subjektui;

(c) nei aš, nei mano atstovaujama bendrovė nėra fizinis ar juridinis asmuo, subjektas ar įstaiga, veikianti a) arba b) punkte nurodyto subjekto vardu ar jo nurodymu;

(d) a)-c) punktuose išvardyti subjektai nedalyvauja subtiekejais, tiekėjais ar subjektais, kurių pajėgumais remiasi mano atstovaujamas tiekėjas, tais atvejais kai jiems tenka daugiau kaip 10 % sutarties vertės.

Patvirtinu, kad tiekėjui, subtiekejams, kuriuos esu pasitelkęs ar pasitelksiu ateityje, ūkio subjektams, kurių pajėgumais remiuosi ar (ir) remsiuosi, prekių (ir jų sudedamųjų dalių) gamintojams netaikomos Lietuvos Respublikoje įgyvendinamos tarptautinės sankcijos, kaip tai apibrėžta Lietuvos Respublikos tarptautinių sankcijų įstatyme.

Deklaruojamoms aplinkybėms pasikeitus, įsipareigoju nedelsiant apie tai informuoti Pirkimo vykdytoją.

**Generalinis direktorius (Managing director), Raymond
Wheeler**

C. Informacija apie rėmimąsi kitų subjektų pajėgumais

Ar siekdamas patenkinti IV dalyje nurodytus atrankos kriterijus ir V dalyje nurodytus kriterijus bei taisykles (jei tokių yra) ekonominės veiklos vykdytojas remiasi kitų subjektų pajėgumais?

Taip

Ne

D. Informacija apie subrangovus, kurių pajėgumais ekonominės veiklos vykdytojas nesiremia

- (Skirsnį reikia pildyti, tik jei šios informacijos aiškiai reikalauja perkančioji organizacija ar perkantysis subjektas.)

Ar ekonominės veiklos vykdytojas ketina kurias nors sutarties dalis subrangos sutartimi pavesti atlikti trečiosioms šalims?

Taip

Ne

- Jei perkančioji organizacija ar perkantysis subjektas aiškiai prašo šios informacijos, šalia informacijos pagal šį skirsnį, pateikite pagal šios dalies A ir B skirsnius ir III dalį reikalaujamą informaciją apie kiekvieną susijusį subrangovą (subrangovų kategorijas).

III dalis. Pašalinimo pagrindai

A. Su baudžiamaisiais nuosprendžiais susiję pagrindai

Direktyvos 2014/24/ES 57 straipsnio 1 dalyje nustatyti šie pašalinimo pagrindai

A1. Dalyvavimas nusikalstamos organizacijos veikloje (VPĮ 46 str. 1 d. 1 p.)

Ar pats ekonominės veiklos vykdytojas ar bet kuris asmuo, kuris yra jo administracijos, valdymo ar priežiūros organo narys arba turi atstovavimo, sprendimo ar kontrolės įgaliojimus to ekonominės veiklos vykdytojo atžvilgiu, buvo nuteistas galutiniu teismo sprendimu už dalyvavimą nusikalstamos organizacijos veikloje, o nuosprendis priimtas prieš ne daugiau kaip penkerius metus arba kai nuosprendyje aiškiai nustatytas pašalinimo laikotarpis tebesitęsia? Kaip apibrėžta 2008 m. spalio 24 d. Tarybos pamatinio sprendimo 2008/841/TVR dėl kovos su organizuotu nusikalstamumu 2 straipsnyje (OL L 300, 2008 11 11, p. 42).

A2. Korupcija (VPĮ 46 str. 1 d. 2 p.)

Ar pats ekonominės veiklos vykdytojas ar bet kuris asmuo, kuris yra jo administracijos, valdymo ar priežiūros organo narys arba turi atstovavimo, sprendimo ar kontrolės įgaliojimus to ekonominės veiklos vykdytojo atžvilgiu, buvo nuteistas galutiniu teismo sprendimu už korupciją, o nuosprendis priimtas prieš ne daugiau kaip penkerius metus arba kai nuosprendyje aiškiai nustatytas pašalinimo

laikotarpis tebesitęsia? Kaip apibręžta Konvencijos dėl kovos su korupcija, susijusia su Europos Bendrijų pareigūnais ar Europos Sąjungos valstybių narių pareigūnais, 3 straipsnyje (OL C 195, 1997 6 25, p. 1) ir 2003 m. liepos 22 d. Tarybos pamatinio sprendimo 2003/568/TVR dėl kovos su korupcija privačiame sektoriuje 2 straipsnio 1 dalyje (OL L 192, 2003 7 31, p. 54). Į pašalinimo pagrindus taip pat įtraukta korupcija, kaip apibręžta perkančiosios organizacijos (perkančiojo subjekto) arba ekonominės veiklos vykdytojo nacionalinėje teisėje.

A4. Teroristiniai nusikaltimai arba su teroristine veikla susiję nusikaltimai (VPĮ 46 str. 1 d. 5 p.)

Ar pats ekonominės veiklos vykdytojas ar bet kuris asmuo, kuris yra jo administracijos, valdymo ar priežiūros organo narys arba turi atstovavimo, sprendimo ar kontrolės įgaliojimus to ekonominės veiklos vykdytojo atžvilgiu, buvo nuteistas galutiniu teismo sprendimu už teroristinius nusikaltimus arba

su teroristine veikla susijusius nusikaltimus, o nuosprendis priimtas prieš ne daugiau kaip penkerius metus arba kai nuosprendyje aiškiai nustatytas pašalinimo laikotarpis tebesitęsia? Kaip apibrėžta 2002 m. birželio 13 d. Tarybos pamatinio sprendimo dėl kovos su terorizmu 1 ir 3 straipsniuose (OL L 164, 2002 6 22, p. 3). Į pašalinimo pagrindus taip pat įtrauktas nusikalstamos veikos kurstymas, pagalba ar bendrininkavimas ją vykdančiam arba kėsiniamasis ją įvykdyti, kaip nurodyta to pamatinio sprendimo 4 straipsnyje.

Ne

C. Su nemokumu, interesų konfliktu ar profesiniais nusižengimais susiję pagrindai

Direktyvos 2014/24/ES 57 straipsnio 4 dalyje nustatyti šie pašalinimo pagrindai

C10. Su kitais ekonominės veiklos vykdytojais sudaryti susitarimai, kuriais siekta iškreipti konkurenciją (VPĮ 46 str. 4 d. 1 p.)

Ar ekonominės veiklos vykdytojas su kitais ekonominės veiklos vykdytojais yra sudaręs susitarimų, kuriais siekta iškreipti konkurenciją atliekamame pirkime?

Jūsų atsakymas

Taip

Ne

C11. Rimti profesiniai pažeidimai VPĮ 46 str. 4 d. 7 p., VPĮ 46 str. 6 d. 3 p.

Pirkimams pradėtiems nuo 2022-01-01: Ar ekonominės veiklos vykdytojas yra padaręs rimtą profesinį pažeidimą, kaip nurodyta žemiau?:

a) yra padaręs finansinės atskaitomybės ir audito teisės aktų pažeidimą ir nuo jo padarymo dienos praėjo mažiau kaip vieni metai; **Nuo 2022-08-12 pildydamas EBVPD tiekėjas yra informuotas ir supranta, kad finansinės atskaitomybės ir audito teisės aktų pažeidimu taip pat gali būti laikomi atvejai, kai tiekėjas nepateikia privalomų finansinės atskaitomybės dokumentų Registrų centrui ar juos pateikia nesilaikydamas privalomų teisės aktų reikalavimų. Išsamiau: <https://vpt.lrv.lt/lt/naujienos-3/finansiniu-ataskaitu-nepateikimas-gali-tapti-kliutimi-dalyvauti-viesuosiuose-pirkimuose>**

b) neatitinka minimalių patikimo mokesčių mokėtojo kriterijų, nustatytų Lietuvos Respublikos mokesčių administravimo įstatymo 40¹ straipsnio 1 dalyje. Taikant šį tiekėjo pašalinimo iš pirkimo procedūros pagrindą, vadovaujamosi Lietuvos Respublikos mokesčių administravimo įstatymo 40¹ straipsnio 1 dalyje nustatytais

terminais, juos skaičiuojant nuo Mokesčių administravimo įstatymo 40¹ straipsnio 1 dalyje nurodytų pažeidimų padarymo dienos, tačiau visais atvejais šie terminai negali būti ilgesni negu 3 metai;

c) yra padaręs draudimo sudaryti draudžiamus susitarimus, įtvirtinto Lietuvos Respublikos konkurencijos įstatyme ar panašaus pobūdžio kitos valstybės teisės akte, pažeidimą ir nuo jo padarymo dienos praėjo mažiau kaip 3 metai;

d) yra padaręs bet kokį kitą rimtą profesinį pažeidimą, nenurodytą aukščiau, nuo kurio padarymo dienos praėjo mažiau kaip vieni metai?

Pirkimams pradėtiems iki 2022-01-01: Ar ekonominės veiklos vykdytojas yra pripažintas kaltu dėl sunkaus profesinio nusizengimo kaip nurodyta žemiau?

I. ar ekonominės veiklos vykdytojas yra padaręs profesinį pažeidimą, kai už finansinės atskaitomybės ir audito teisės aktų pažeidimus ekonominės veiklos vykdytojui ar jo vadovui paskirta administracinė nuobauda ar ekonominė sankcija, nustatytos Lietuvos Respublikos įstatymuose ar kitų valstybių teisės aktuose, ir nuo sprendimo, kuriuo buvo paskirta ši sankcija, įsiteisėjimo dienos arba nuo dienos, kai asmuo įvykdė administracinį nurodymą, praėjo mažiau kaip vieni metai?

II. Ar ekonominės veiklos vykdytojas yra padaręs kurį nors vieną iš žemiau nurodytų rimtų profesinių pažeidimų(taikoma tik tada kai, ir tik tiek, kiek apibrėžta kituose pirkimo dokumentuose):

a) profesinės etikos pažeidimas, kai nuo ekonominės veiklos vykdytojo pripažinimo nesilaikančiu profesinės etikos normų momento praėjo mažiau kaip vieni metai;

b) konkurencijos, darbuotojų saugos ir sveikatos, Informacijos apsaugos, intelektinės nuosavybės apsaugos pažeidimas, už kurį ekonominės veiklos vykdytojui ar jo vadovui yra paskirta administracinė nuobauda ar ekonominė sankcija, nustatytos Lietuvos Respublikos ar kitų valstybių įstatymuose, kai nuo sprendimo, kuriuo buvo paskirta ši sankcija, arba nuo dienos, kai asmuo įvykdė administracinį nurodymą, įsiteisėjimo dienos praėjo mažiau kaip vieni metai;

c) draudimo sudaryti draudžiamus susitarimus, įtvirtinto Lietuvos Respublikos konkurencijos įstatyme ar panašaus pobūdžio kitos valstybės teisės akte, pažeidimas, kai nuo sprendimo paskirti Konkurencijos įstatyme ar kitos valstybės teisės akte nustatytą ekonominę sankciją įsiteisėjimo dienos praėjo mažiau kaip 3 metai;

d) ekonominės veiklos vykdytojas, kuris yra fizinis asmuo, arba ekonominės veiklos vykdytojo, kuris yra juridinis asmuo, kita organizacija ar jos padalinys, vadovas, kitas valdymo ar priežiūros organo narys ar kitas asmuo, turintis (turintys) teisę atstovauti ekonominės veiklos vykdytojui ar jį kontroliuoti, jo vardu priimti sprendimą, sudaryti sandorį, arba dalyvis, turintis balsų daugumą juridinio asmens dalyvių susirinkime, yra pripažintas kaltu dėl tyčinio bankroto, kaip jis apibrėžtas Lietuvos Respublikos Įmonių bankroto įstatyme ar panašaus pobūdžio kitų valstybių teisės aktuose, kai nuo teismo sprendimo įsiteisėjimo dienos praėjo mažiau kaip 3 metai?

Jūsų atsakymas

Taip

Ne

C12. Interesų konfliktas dėl dalyvavimo pirkimo procedūroje (VPĮ 46 str. 4 d. 2 p.)

Ar ekonominės veiklos vykdytojas žino apie kokius nors [interesų konfliktus](#), kaip nurodyta nacionalinėje teisėje, atitinkamame skelbime ar pirkimo dokumentuose, kylančius dėl jo dalyvavimo pirkimo procedūroje?

Jūsų atsakymas

Taip

Ne

C13. Tiesioginis arba netiesioginis dalyvavimas rengiant šią pirkimo procedūrą (46 str. 4 d. 3 p.)

Ar ekonominės veiklos vykdytojas arba su juo susijusi įmonė konsultavo perkančiąją organizaciją ar perkantįjį subjektą arba kitaip dalyvavo rengiant pirkimo procedūrą?

Jūsų atsakymas

Taip

Ne

C14. Sutarties nutraukimas anksčiau laiko, žala ar kitos panašios sankcijos (VPĮ 46 str. 4 d. 6 p.)

Ar ekonominės veiklos vykdytojas turėjo tokios patirties: ankstesnė viešoji sutartis, ankstesnė sutartis su perkančiuoju subjektu arba ankstesnė koncesijos sutartis buvo nutraukta anksčiau laiko; arba buvo pareikalauta atlyginti su ankstesne sutartimi susijusią žalą ar skirtos kitos panašios sankcijos?

Lietuvoje (be kita ko) - ar ekonominės veiklos vykdytojas yra įtrauktas į nepatikimų tiekėjų sąrašą ?

Jūsų atsakymas

Taip

Ne

C15. Pripažinimas kaltu dėl faktų iškreipimo, informacijos nuslėpimo, negalėjimas pateikti reikalaujamų dokumentų ir su šia procedūra susijusios konfidencialios informacijos gavimas (46 str. 4 d. 4 p. ir 46 str. 4 d. 5 p.)

Ar ekonominės veiklos vykdytojas yra susijęs su vienu iš šių atvejų, kai jis :

- a) buvo labai iškreipęs faktus pateikdamas informaciją (**pateikęs melagingą informaciją**), reikalingą patikrinti, ar nėra pagrindų pašalinti, arba patikrinti atitiktį atrankos kriterijams;
- b) slėpė tokią informaciją;
- c) delsė pateikti patvirtinamuosius dokumentus, kurių reikalavo perkančioji organizacija ar perkantysis subjektas,
- d) siekė daryti neteisėtą įtaką perkančiosios organizacijos ar perkančiojo subjekto sprendimų priėmimo procesui, kad gautų konfidencialios informacijos, dėl kurios per pirkimo procedūrą įgytų nepagrįstą pranašumą, arba tyčia teikti klaidinančios informacijos, kuri gali turėti esminės įtakos sprendimams dėl pašalinimo, atrankos ar sutarties skyrimo?

Jūsų atsakymas

Taip

Ne

D. Išimtinai nacionaliniai pašalinimo pagrindai

Išimtinai nacionaliniai pašalinimo pagrindai, nurodyti atitinkamame skelbime ar pirkimo dokumentuose.

D1. Išimtinai nacionalinis pašalinimo pagrindas dėl nusikalstamo bankroto (VPĮ 46 str. 1 d. 4 p.)

Pirkimams pradėtiems nuo 2022-01-01:

Ar pats ekonominės veiklos vykdytojas ar bet kuris asmuo, kuris yra jo administracijos, valdymo ar priežiūros organo narys arba turi atstovavimo, sprendimo ar kontrolės įgaliojimus to ekonominės veiklos vykdytojo atžvilgiu, buvo **nuteistas galutiniu teismo sprendimu už nusikalstamą bankrotą**, o nuosprendis priimtas prieš ne daugiau kaip penkerius metus arba kai nuosprendyje aiškiai nustatytas pašalinimo laikotarpis tebesitęsia?

Pirkimams pradėtiems iki 2022-01-01:

Ar ekonominės veiklos vykdytojas yra susijęs su vienu iš šių atvejų, kai:

- a) jis **neatitinka minimalių patikimo mokesčių mokėtojo kriterijų**, nustatytų Lietuvos Respublikos mokesčių administravimo įstatymo 40¹ straipsnio 1 dalyje ir dėl to laikomas padariusiu šiurkštų profesinį pažeidimą.
- b) pats ekonominės veiklos vykdytojas ar bet kuris asmuo, kuris yra jo administracijos, valdymo ar priežiūros organo narys arba turi atstovavimo, sprendimo ar kontrolės įgaliojimus to ekonominės veiklos vykdytojo atžvilgiu, buvo **nuteistas galutiniu teismo sprendimu už nusikalstamą bankrotą**,

o nuosprendis priimtas prieš ne daugiau kaip penkerius metus arba kai nuosprendyje aiškiai nustatytas pašalinimo laikotarpis tebesitęsia?

Jūsų atsakymas

Ne

Ar ši informacija ES valstybės narės duomenų bazėje nemokamai prieinama valdžios institucijoms?

Taip

Ne

D2. Išimtinai nacionalinis pašalinimo pagrindas dėl paskirtos

baudžiamojo poveikio priemonės (VPĮ 46 str. 2¹ d.)

Pirkimams pradėtiems nuo 2025-02-01:

Ar ekonominės veiklos vykdytojui yra taikoma sąlyga, kad jis yra neatlikęs jam paskirtos baudžiamojo poveikio priemonės – uždraudimo juridiniam asmeniui dalyvauti viešuosiuose pirkimuose?

Jūsų atsakymas

Taip

Ne

Ar ši informacija ES valstybės narės duomenų bazėje nemokamai prieinama valdžios institucijoms?

Taip

Ne

IV dalis. Atrankos kriterijai

C. Techniniai ir profesiniai pajėgumai

Direktyvos 2014/24/ES 58 straipsnio 4 dalyje nustatyti šie atrankos kriterijai

Subrangos procentinė dalis

Ekonominės veiklos vykdytojas ketina perduoti vykdyti pagal subrangos sutartį tokią (procentinę) sutarties dalį: Atkreipkite dėmesį į tai, kad jei ekonominės veiklos vykdytojas nusprendė sutarties dalį perduoti vykdyti pagal subrangos sutartį ir remiasi subrangovo pajėgumais, kad įvykdytų tą sutarties dalį,

kiekvienam tokiam subrangovui reikia užpildyti atskirą EBVPD, žr. pirmiau II dalies C skirsnį.

Nurodykite

-

Baigti

IV dalis. Kandidatų, kurių kvalifikacija tinkama, skaičiaus sumažinimas

Ekonominės veiklos vykdytojas pareiškia, kad:

Tais atvejais, kai pirkimo dokumentuose perkančioji organizacija ar perkantysis subjektas yra nustatęs objektyvius ir nediskriminacinius kriterijus ar taisykles, taikytinus siekiant sumažinti kandidatų skaičių ir kai reikalaujama tam tikrų sertifikatų ar kitų formų įrodomųjų dokumentų, ekonominės veiklos vykdytojas pareiškia, jog turi kiekvieną reikiamą dokumentą.

Jei kai kurie iš šių sertifikatų ar įrodomųjų dokumentų formų prieinami elektroniniu būdu, nurodykite kiekvieno iš jų:

Jūsų atsakymas

Taip

Ne

Ar ši informacija ES valstybės narės duomenų bazėje nemokamai prieinama valdžios institucijoms?

Taip

Ne

IV dalis. Baigiamieji pareiškimai

Ekonominės veiklos vykdytojai oficialiai pareiškia, kad II–V dalyse pateikta informacija yra tiksli ir teisinga ir kad ji pateikta visiškai suvokiant didelio faktų iškreipimo padarinius.

Ekonominės veiklos vykdytojai oficialiai pareiškia, kad pareikalavus gali nedelsdami pateikti nurodytus sertifikatus ir kitų formų įrodomuosius dokumentus, išskyrus tuos atvejus, kai:

a) perkančioji organizacija ar perkantysis subjektas turi galimybę atitinkamus patvirtinamuosius dokumentus tiesiogiai gauti naudodamiesi prieiga prie bet kurios iš valstybių narių nemokamos nacionalinės duomenų bazės (su sąlyga, kad ekonominės veiklos vykdytojas pateikė reikalingą informaciją (interneto

adresą, išduodančiąją instituciją ar įstaigą, tiksliai dokumentų nuorodas), kuri perkančiajai organizacijai ar perkančiajam subjektui leidžia tai padaryti (pareikalavus dėl tokios prieigos turi būti pridėtas atitinkamas sutikimas), arba b) perkančioji organizacija ar perkantysis subjektas yra gavusi ir turi aktualius susijusius dokumentus iš ankstesnių (kitų) pirkimo procedūrų.

Ekonominės veiklos vykdytojai oficialiai sutinka perkančiajai organizacijai ar perkančiajam subjektui, nurodytam I dalyje, leisti susipažinti su dokumentais, kuriais patvirtinama informacija, pateikta šio Europos bendrojo viešųjų pirkimų dokumento III ir IV dalyse, kiek tai susiję su pirkimu, nurodytu I dalyje.

CLIENT CASE STUDY

CELL & GENE THERAPY FACILITY

Grade C, D
& CNC

THE CLIENT

University of Sheffield – a research university with a global reputation for excellence, renowned for the excellence, impact and distinctiveness of their research-led learning and teaching. Their Cell & Gene Therapy courses are tailored for students interested in advanced therapies, how these can be used to treat inherited diseases, and the steps needed to take Cell & Gene Therapy products from the lab bench to the bedside.

Cell & Gene Therapy

18+/-2 C
+65% RH

400m²

THE BRIEF

The client had engaged with a Principal Contractor to construct a new gene therapy innovation centre to advance scientific discoveries and promising treatment options for many life-threatening diseases. Guardtech were contracted to provide the cleanrooms for the pioneering Sheffield Gene Therapy Innovation and Manufacturing Centre (GTIMC).

“We look forward to working with the client again...”

Operations Director Conor Barwise said: “It was great to be selected to fulfil the cleanrooms fit-out aspect of this impressive project.

“There were a number of challenges in the process, but we made a concerted effort to do everything we could to ensure the client was happy with the finished product.

“We wish the University of Sheffield all the best for the future and look forward to working with them again.”

THE TECH SPECS

A controlled environment designed, installed, cleaned and commissioned by Guardtech built to the following specification:

- ◆ **Structural:** GT Shell Max fully flush wall panel system, GT Shell Fire wall panel system, GT Lid Max fully flush ceiling panelling system, GT Lid Lite powder-coated ceiling tile system (CNC areas), 9 x GT Access Max fully flush single doors, 4 x GT Access Fire single doors, 10 x GT Access Max fully flush double doors, 11 x GT Plus single doors, 4 x GT Pro gas-tight single doors, 4 x GT Pro gas-tight double doors, GT Deck Pro vinyl flooring flush into panel rebate, covered 100m from floor level.
- ◆ **Electrical:** GT Lux Pro & GT Lux Lite LED lighting units providing 500 lux at bench level, electromagnetic door interlocks with status indicators & break glass, 25 x 13amp double stainless steel sockets in panel core raceway, 25

x 13amp double sockets in PVC trunking in CNC areas.

- ◆ **Mechanical:** GT Flow Lite H14 HEPA Terminal Filters providing 35 air changes per hour in the Grade C areas and 25 in the Grade D areas, 4 x GT Air Max Air Handling Units (AHUs) located on roof, Bioquell Protec Generator decontamination system.
- ◆ **Monitoring:** GT Scan Pro Environmental Monitoring Sys-

tem (EMS) measuring temperature, humidity & pressure via 17 x in-room stainless steel LCD panels connected to client PC utilising 21 CFR Part 11 compliant Oncall Finestra software.

- ◆ **Furniture:** 2 x 600mm x 790mm x 600mm Grade 304 stainless steel transfer hatches with electrical interlocks (one including in-built Fan Filter Unit), 4 x 1,500mm x 400mm x 450mm (Grade 304 stainless steel stepover benches, 4 x Grade 304 stainless steel shelving units & 4 x Grade 304 stainless steel waste bins.

THE CHALLENGES

Pressure's on: Each process room in the facility required its own AHU, including some of CNC spaces. In total, seven AHUs were installed to deal with containment whilst each room had to depend on each other in terms of balance and interrelated pressures. The Building Management System (BMS) also featured a complex controls system which required a bespoke head end to be implemented. This all presented a number of issues for the Guardtech Design and Installation teams to tackle, but they were up to the challenge.

Keep it tight: The team were tasked with achieving very tight leakage rates on all doors in the facility. The Guardtech Group backstage team worked diligently to source appropriate doors that met the specified leakage rate whilst remaining on budget for the client.

Keep it clean: A Vaporized Hydrogen Peroxide (VHP) cleaning system was installed as part of the turnkey package – and this had to be

interfaced with the bespoke BMS previously mentioned so that each process suite could be sterilised in isolation while the other rooms remained operational.

Rushy business: This was a very tight and expedited programme that had to take place with a number of different number of contractors working onsite concurrently. This meant that we had to use all our expertise to ensure we controlled movement and scheduling to ensure our usual clean-build standards were met.

“The installation included seven AHUs, two chillers, two air source heat pumps and compressed air”

Peak-y plant: This project included the installation and fitting of a significant number of utilities – including seven AHUs, two chillers, two air source heat pumps and compressed air. This required the Guardtech Group Design Team to

produce a tight layout design which featured ductwork, containment and pipework whilst also co-ordinating the plant area with other contractors.

Keep it sustainable: This was a Building Research Establishment Environmental Assessment Methodology (BREEAM) project – the world's leading science-based suite of validation and certification systems for sustainable built environment – and so had to be constructed in the most energy-efficient manner possible, demonstrating the Group's commitment to sustainable working practices, optimal building performance and general ethical and environmental considerations.

THE RESULT

Operations Director Conor Barwise said: “It was great to be selected to fulfil the cleanroom fit-out aspect of this impressive project.

“There were a number of challenges in the process, but we made a concerted effort to do everything we could to ensure the client was happy with the finished product.

“We wish the University of Sheffield all the best for the future and look forward to working with them again sometime.”

THE CLIENT

4basebio – manufacture and sell proprietary, synthetic DNA and mRNA products for applications in Cell & Gene Therapies and vaccines. 4basebio offer RUO AAV manufacturing services for partners developing gene therapies, offering targeted non-viral vectors for partners wishing to deliver therapeutic nucleic acid or proteins to specific cells and tissues.

THE BRIEF

The client was looking to expand their manufacturing capacity with the introduction of two floors of new Grade C modular cleanrooms, including process rooms, solutions preparation areas, change areas, cleanroom corridors, several personnel and materials airlocks and separative devices, in an existing office park premises in Cambridgeshire.

Cell & Gene Therapy

THE TECH SPECS

A controlled environment designed, installed, cleaned and commissioned by Guardtech built to the following specification:

- ◆ **Structural:** GT Shell Plus QuadCore wall panel system, GT Lid Plus T50 ceiling grid, GT Access Plus semi-flush single and double doors with electromagnetic interlocks, status indicators and break glass, GT Deck Plus vinyl flooring in Sapphire Blue, capped & coved.
- ◆ **Mechanical:** GT Flow Plus H14 HEPA Fan Filter Units with G4 Pre-Filters, GT Air Pro 30kW Upflow Air Handling Units (AHUs), DX pipework between AHUs and condensers, ductwork to DW/ 144 and insulated.
- ◆ **Electrical:** 13amp double sockets, electromagnetic interlocks, PVC conduit in panel core, basket in the void, GT Lux Plus LED luminaires achieving

an average of 500 lux at Bench Level.

- ◆ **Environmental Monitoring:** GT Scan Pro Environmental Monitoring System (EMS), featuring in-room LED panels measuring Pressure, Temperature, Humidity connected to client PC utilising Akivision software, with digital display & sounder and text & email alerts.
 - ◆ **Furniture & Equipment:** H14 HEPA filtered goods lift, clear perspex enclosure, electro-magnetically interlocked, mechanically interlocked polypropylene transfer hatches, waste hatches & chute, electro-magnetically interlocked polypropylene transfer hatches.
- Biological Safety Cabinets, Trespa Toplab workbenches, stainless steel stepover benches with shoe compartments, stainless steel Pigeon Holes for Shoe Storage, powder-coated steel lockers, wall-mounted stainless steel dispensers, stainless steel sinks with motion sensor taps, point-of-use heater plumbed in to water supply and connected to drainage, Contamination Control Flooring laid on the 'dirty' side of the Primary Change Areas.

THE CHALLENGES

Tight squeeze: Most of the major challenges with this project related to the tight nature of having multiple process rooms in a relatively constricted space, coupled with the fact the facility would operate over two floors. Squeezing as many process rooms into the building as physically possible while working out how they all interfaced together was a tricky task for the Guardtech Cleanrooms Design and Installation teams, but it was a challenge they were equal to. The team was also challenged by the fact the client required separate change areas for each of the seven process rooms. Again though, the Guardtech engineers found a solution to ensure the client was able to make the most of every inch of available space.

Floored layout: The team were tasked with providing a separated waste transfer system for incoming product and outgoing goods via a split hatch and a dedicated bespoke waste chute. The Design Team also had to take fire break and pressure regime considerations into the overall equation. Overcoming incoming goods from the ground floor to the first floor with the HEPA-filtered

transfer hatch was a test – and on top of that, the team had to construct the top floor while the lower floor was fully operational. But the Guardtech Cleanrooms Installation Engineers have a great deal of experience in constructing environments in conjunction with ongoing client process and so extra care was taken to ensure their work was never compromised in any way.

THE RESULT

Guardtech Group Operations Director Conor Barwise said: "This project presented the team with a variety of challenges due to the relatively large number of process spaces and change areas in a restricted overall footprint.

"However, over the past 20 years, Guardtech Cleanrooms have encountered a wide variety of different projects with space, access and operational limitations and the Design and Install teams worked brilliantly together to ensure all of the client's requirements were catered to."

THE CLIENT

An English teaching hospital and part of the Shelford Group, a collaboration of ten of the largest teaching and research NHS hospital trusts in England. The client is one of the UK's largest teaching hospitals and one of the largest hospitals in Europe. The trust is made up of four hospitals. Delivering compassionate excellence, the client is one of the largest acute teaching Foundation Trusts in the UK, with a national and international reputation for the excellence of its services and its role in teaching and research.

THE TECH SPECS

A controlled environment designed, installed, cleaned and commissioned by Guardtech built to the following specification:

◆ **Structural:** GT Shell Pro wall panels, GT Lid Pro panelled ceiling, GT Access Plus semi flush single doors, GT Deck Plus flooring capped & covered, emergency break out perspex panel in stainless frame with rubber gasket seal.

◆ **Electrical:** GT Lux Lite lighting providing 750 lux at bench level, 13-amp sockets flush mounted in classified areas, double CAT6a data sockets, uninterrupted power supply (UPS) with touchscreen interface, electromagnetic door interlocks.

◆ **Mechanical:** GT Air Slim H14 HEPA slimline Fan Filter Units with G4 Pre-Filters, 3.6kW and 7.1kW air condition fan coil units suspended within the ceiling void above the panelled ceiling, providing temperature control within three separated plenums matched to three external condensers.

◆ **Monitoring:** GT Scan Pro environmental monitoring system (EMS) featuring in-room stainless steel LCD transmitters displaying temperature, humidity & pressure, with information fed back to desktop PC control system.

◆ **Furniture & Equipment:** Trespa TopLab workbenches with stainless steel frames, Trespa stepover bench with compartments, stainless steel mobile sink, Trespa under bench cabinets, stainless steel transfer hatches with mechanical interlocks and thermoplastic door vision panels, stainless steel wire racking, stainless steel 3-compartment dispenser, stainless steel coat hooks, full-length stainless steel mirror.

THE CHALLENGES

Individualised temperature zones: This was essentially a CleanCube GMP at heart, but there were still a number of major modifications to challenge both Guardtech's Design and Installation teams. The design had to accommodate a significant amount of utilities in a minimised footprint – with an individualised temperature zone for each room in the container. Guardtech needed to

accommodate three separate fan coil units across the entire unit within a very restricted 500mm ceiling void/plenum.

Battery back-up: It was essential that this unit had a critical emergency power supply support solution in place, and so the CleanCube team created a dedicated plant cupboard to house an Uninterrupted Power Supply (UPS) to give complete battery back-up for the CleanCube.

Isolating the issue: The client needed the 40ft unit to not only include both primary and secondary change areas, but also space to house a very large isolator. This was not something we'd tackled before in a CleanCube, but it was a challenge we were more than ready for – and duly surmounted.

A worldwide supplier of technologies and services supporting the development, manufacture and delivery of therapeutics.

Research & Development

20+/-2C - 50+/-10% RH

60m²

THE BRIEF

The Guardtech Group Service Department were tasked with conducting a full Validation on a CleanCube Maxi portable cleanroom, including testing of: Air Change Rates, Pres-

sure Differential, Installed Filter Integrity Leaks, Airflow Visualisation and Cleanliness Recovery, as well as measurements of Particulate Count, Lighting, Temperature, Humidity and Sound levels, plus Door Interlock and Disaster Recovery testing.

“A routine Validation to our usual high standards”

Guardtech Group Compliance Manager Chris McGinn said: “This was a fairly routine Guardtech Group Validation as part of an overall Operational Qualification for a bespoke CleanCube Mobile Cleanroom ‘double 40ft container’ for Research & Development work. “Our team of Service Engineers and supporting staff work to the highest standards and therefore treated this Validation with the same diligence and attention to detail that set us out as the go-to source for high-quality post-cleanroom construction services.”

Chris McGinn

service department

CLIENT CASE STUDY

VALIDATION CASE STUDY

THE PROCESS

All testing was conducted in accordance with ISO 14644-3:2019

Air Change Rate Testing: Guardtech Validation Engineers took Airflow Volume readings at supply inlets using a Vane Anemometer set to read meters per second. The readings were taken approximately 150mm from the filter face. The Anemometer was held for at least 30 seconds or until a steady reading was displayed in five locations on the filter faces. The average of the five locations was then taken and used to calculate the Air Change Rate Per Hour (ACPH). The calculated ACPH was greater than the minimum required ACPH and therefore the Air Change Rate testing was passed.

Pressure Differential Testing: Using a Calibrated Pressure Gauge, the Guardtech team measured the Pressure Differential in the specified zones shown on the diagram (right) by running a tube between the rooms. Each reading was then recorded once a steady result was obtained. All relevant equipment and plant associated with the cleanroom, such as the Air Handling Unit and extract systems, had to be operational, while

all relevant doors were closed. The recorded Pressure Differentials satisfied the requirements set out in our results table and a pass was recorded.

Installed Filter Integrity Leak Testing: Using an Aerosol Generator capable of generating particulate in the range of 0.1µm-0.3µm, the Guardtech Group Validation team injected aerosol into the AHU system upstream from the filter to be tested.

The generator was filled with an appropriate oil and an aerosol photometer was set to detect it, therefore presenting information on any potential leaks greater than 0.01% of the upstream concentration. All output alarms were set to be activated. Using the calibrated aerosol photometer, the Filter face, gasket and housing was scanned to determine if any leaks were present (scan speed of 5cm per second) at a distance of no greater than 3cm from the filter

Figure 4 – Pressure Measurement Locations (plan view)

CLIENT CASE STUDY

VALIDATION CASE STUDY

face, but not touching it. Any leaks found were marked on a drawing of the filter and documented. Any filters that required replacing were duly changed. All filters are factory tested in accordance with EN 1822:2109, but Guardtech always perform in situ filter integrity testing in accordance with ISO 14644-3:2019 to ensure they have not been damaged in transport or install. A filter in this CleanCube failed for precisely this reason, due to it being damaged in transport, and so the team replaced and tested the new one in front of the client as a demonstration of our due diligence. Filters that were deemed to have passed the test had an upstream concentration between 1µg - 100µg, whilst the upstream concentration had to be confirmed at 100% ±15% before and after the downstream scan. The maximum recorded penetration percentage was not allowed to exceed 0.01%.

Airflow Visualisation Testing: This test was conducted in accordance with ISO 14644-3:2019. Guardtech operatives filled the classified area with a visible mist using an aerosol generator and documented the movement of the air, recording video evidence of: airflow movement around and through return air grilles, airflow movement around and through doors, airflow movement around supply inlets, airflow movement through the room, airflow direction cascade be-

tween adjacent rooms, airflow around furniture & equipment. Satisfactory airflow movement was demonstrated and a pass was recorded for each room in the container.

Cleanliness Recovery Testing: Guardtech Engineers used a smoke instrument capable of producing the particulate size to be tested. The team had to ensure the test locations were not conducted directly beneath airflow outlets and the Air Handlers had to be running for the duration of the test. The team generated sufficient particulate within the room to achieve a 10-fold concentration of the target cleanliness level. Sample measurements were taken every min-

ute and Engineers recorded the time that the target concentration threshold (t10n) was reached. All classified rooms returned to the target cleanliness limit within 20 minutes from achieving the target concentration level and the test was therefore deemed a pass.

Particulate Count Measurement: With the rooms At Rest, the Validation Engineers carried out particle counts in the cleanroom at bench height. The Occupancy State is determined in accordance with ISO 14644-1:2015 section 3.3. The number of locations tested was determined by ISO 14644-1:2015 and was situated as marked out in the diagram (below) in accordance with ISO 14644-1:2015 Annex 4.3. Each

Figure 8 – Particulate count monitoring positions at bench height (plan view)

CLIENT CASE STUDY

VALIDATION CASE STUDY

location was sampled for one minute in accordance with ISO 14644-1:2015 Annex 4.4. Engineers set the flow rate to 50 Lmin⁻¹ and the units of measurement set to m³. The particle counter was set to measure for 0.5 and 5µm-sized particulate. The highest recorded particulate counts were recorded in the test results table, where a pass or fail would thus be determined against the Grade/Class determined in accordance with ISO14644-1:2015 section 4.3. Later, the Complete Raw Data was appended, detailing all test location results. Each reading from all locations was below the maximum permissible value for the Classification as stated in the results table and so the test was deemed to have been passed.

Lighting Levels: Measurements of the lighting level were carried out in each room at bench (working) height in several of the positions where equipment or an operator will potentially be sited using a calibrated Luxmeter. Each measurement was recorded and the average of each room was then calculated. All average readings satisfied the minimum lux level requirements and so the CleanCube's lighting level readings achieved a pass.

Temperature Levels: The temperature was measured at a minimum of one location for each temperature-con-

trolled zone (see diagram below). Each sensor was placed at a designated location at work-level height using a calibrated Temperature Sensor. After sufficient time was allowed for the sensor to stabilise, the Guardtech Engineers recorded temperature readings at each location. Measurements were performed as appropriate for the purpose of the application and the measurement time was at least five minutes, with one value recorded at least every minute. The average temperature reading from each room was above the minimum permissible temperature value and so a pass was recorded.

Humidity Levels: The humidity was measured at a minimum of one location for each humidity-controlled zone. Each sensor was placed at the designated location at work-level height using a calibrated humidity sensor. After sufficient time was allowed for the sensor to stabilise, the humidity reading at each location was recorded. Measurements were performed as appropriate for the purpose of the application and the measurement time was at least five minutes, with one value recorded at least every minute. The average reading from each room was above the minimum permissible humidity value and so the CleanCube was deemed to have passed.

Figure 11 – Humidity Monitoring positions at bench height (plan view)

 sales@guardtech.com
 www.guardtechgroup.com

Sound Levels: Measurements of the Sound levels were carried out in the centre of each room at bench (working) height by Validation Engineers using a calibrated Sound Meter. Each reading, from the locations on the diagram below, had to be below the maximum permissible value as stated in our results table. Once this was achieved, a pass was awarded.

Door Interlock Testing: The Guardtech team were tasked with ensuring all interlocked room doors were fully operational. Using our Matrix result tables, Engineers were required to open each door, and check the other referenced interlocked door to ensure the interlock has engaged. The process was then repeated for all remaining interlocked doors. With the Door Under Test 'open', the Interlocked Door had to interlock/not open. All doors operated correctly and the test was deemed to be a pass.

Disaster Recovery testing: With the room completely set up and commissioned, Validation Engineers were required to record the room pressure differentials as part of a Disaster Recovery Test. Engineers turned the power off in the cleanroom facility for a period of five minutes,

then switched the power back on and allowed the cleanroom facility to become fully operational. They then recorded the pressure differentials at one minute, five minutes and at 10 minutes following the switch-on for each EMS gauge. The room pressure differentials returned to their commissioned set point following the reinstatement of the power and the test was deemed a pass.

was a fairly routine Guardtech Group Validation as part of an overall Operational Qualification for a bespoke CleanCube Mobile Cleanroom 'double 40ft container' for Research & Development work. "Our diligent and thorough team of Service Engineers and supporting staff work to the highest standards and therefore treated this Validation with the same diligence and attention to detail that set us out as the go-to source for high-quality post-cleanroom construction services."

THE CLIENT

BDD Pharma – combining drug delivery expertise and clinical capabilities, BDD accelerate product development pipelines, enable life cycle management and create new value-added products. BDD uniquely combine onsite CRO and investigative site activities to offer clients a comprehensive integrated solution for conducting early phase clinical trials. Recognising that one size does not fit all, BDD specialise in providing responsive, flexible, and innovative solutions for drug delivery and clinical trials to their clients.

Pharmaceuticals

20+/-3 C

300m²

THE BRIEF

Guardtech Cleanrooms were engaged to construct a GMP facility to expand BDD's manufacturing capabilities and clinical testing services, supporting research and development for small and medium-sized Pharmaceutical companies. The project also included an upgrade to BDD's existing Radiopharmacy provision at their premises in Glasgow MediCity.

“This facility will help improve patient health sooner...”

Stephen Clarke, Head of Quality at BDD, commented: “This new additional facility provides a wonderful opportunity to generate even quicker reliable data on the safety and effectiveness of these newly developed medicines. That in turn will lead to new medicines getting into patients quicker and so improve patient health sooner, which benefits all of society. The outcome of the recent UK Government inspection provided a high level of independent confidence that we are doing all the correct things, in the correct way, consistently.”

PHARMA CLINICAL TESTING

THE TECH SPECS

A controlled environment designed, installed, cleaned and commissioned by Guardtech built to the following specification:

- ◆ **Structural:** GT Shell Pro wall panels (cleanroom), GT Shell Plus wall panels (lab), GT Lid Pro ceiling panels (cleanroom), GT Lid Lite (lab), GT Access Plus single and double doors, GT Deck Plus pre-formed cove, wall to floor, laid under vinyl.
- ◆ **Electrical:** 13-amp double sockets and CAT6A data sockets in surface-mounted trunking (cleanroom) and PVC trunking (lab), GT Lux Plus LED lighting panels providing 500 lux on average at bench level.
- ◆ **Mechanical:** GT Flow Plus H14 HEPA Fan Filter Units with G4 Pre-Filters providing air change rates of up to 20 per hour; GT Air Pro Upflow Unit with isolated to plenum to Radiopharmacy room.
- ◆ **Monitoring:** GT Scan Max 21 CFR Part 11-compliant Digital LED Environmental Monitoring panels displaying

temperature, humidity and pressure reading from in-room installed probes. All fed back to centralised 7" touch-screen with alarms programmable to any measured element.

- ◆ **Furniture & Equipment:** Grade 304 stainless steel active transfer hatches, Trespa-topped steel framed island benching, sink cupboards, single bowl with drainer inset into Trespa two-door cabinet, short pre-rinse tap, Trespa two-door cupboards, Trespa sink cupboards, two-door cupboard double sink, stainless steel one-person wall-mounted sensor sink, stainless steel, electropolished stainless steel full-length mirror in frame, Trespa benches, Trespa three-cupboard + multi-drawers, Trespa under bench

four-drawer unit, stainless steel trolley, stainless steel storage rack, grade 304 stainless steel wall-mounted coat hook rack.

THE CHALLENGES

Transfer Window: The Guardtech Cleanrooms ModSquad had to utilise extra-large 1200mm panels in the build – but were restricted by the layout of the host building. Therefore, the Install Team had to remove windows from the facility and develop an innovative transfer system in order to ensure all the materials could be transited.

Continued on next page

CLIENT CASE STUDY

RADIOPHARMACY

Cut Above: The Install Team try whenever possible to arrange for all panels to be pre-cut for projects, but on this build Installation Manager Miles Gardner and the team had to cut all panels to size on site.

This presented a number of challenges, in terms of time taken with the schedule and keeping mess to a minimum, but the team worked diligently to ensure there was no hold up and that the site was always as in as clean as state as possible.

The site is located at Glasgow MediCity – where a lot of companies operate using cleanrooms. As a result, security and clearance was tight, meaning access and organising deliveries was challenging. But this is a common difficulty the team face – and they ensured there were no hold-ups as a result.

Fire Fight: The build was relatively straightforward, although there were complications caused by the mix of regular cleanroom panels and fire-rated panels. The client had to relocate a fire exit in the laboratory area and extend it for operator safety. Due to the composition of the fire-rated panels, they can be a lot trickier to install, but the team pulled together and ensured there were no delays caused by this challenge.

Hang It In The Louvre: The main room was served with a bank of six FFUs connected to a 3kW fan coil unit, fed by fresh and recirculated air. The team implemented our standard louvre grilles and overcompensated on fresh air to ensure that the system always has enough, eliminating the need to close the return down and

decrease the room pressure. This just means that at every point of return, we have an adjustment. Simple but effective airflow management.
