EC Directive 89/686/EEC

EC Type-examination

Issue 4

PPE Product

RADPAD® 9100 No Brainer surgical cap, X-ray protective clothing providing protection to the front and sides of head.

This garment is available in the following range of nominal lead equivalence and attenuations:

Red Level = lead equivalence of 0.375 mm, 95% attenuation at 90kVp

Orange Level = lead equivalence of 0.25 mm, 90% attenuation at 90kVp

Yellow Level = lead equivalence of 0.125 mm, 75% attenuation at 90kVp

Blue Level = lead equivalence of 0.6 mm, 50% attenuation at 90kVp.

All garments must be worn following the manufacturer's instructions for use to obtain the claimed level of protection.

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to be in accordance with the requirements of Council Directive 89/686/EEC.

When examined the PPE satisfied the requirements in the manufacturer's technical specification¹ (based on EN 61331-1:2002 and ASTM F2547-06 test requirements), which had been previously assessed and deemed to meet the basic health and safety requirements (Annex II) of the Directive

The manufacturer's information notices (RADPAD No Brainer 9100R, 9100O, 9100Y & 9100B), in English, has been inspected and found to have addressed all of the relevant requirements of the standard. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

Certification is based on technical file specifications: 9000 Series PPE Products, Rev 2, Dated 11/23/15

SGS Reference Number GB/PP 232599

¹The validity of this certificate may have to be reviewed in the light of new or amended harmonized standards.
