

Micro Instruments – Mikro-Instrumente

Micro Forceps Mikro-Pinzetten

The MÜLLER Micro instrument system

- A top quality set for peripheral microsurgery.
Numerous details tried and tested in practice mean increased efficiency and safety.
- Natural holding position = increased sensitivity
The light plastic profile increases the grip surface, thus guaranteeing a natural hand position without cramping and providing enhanced sensitivity.
- Easier rotation = extended working area
The round grip cross section permits easy and uniform rotation of the instrument. This extends the application and working areas.
- Safe grip
The easy grip studded profile guarantees a secure hold for all movements.
- Optimum handling
Development in accordance with ergonomic criteria and the low weight of the new plastic grips provide fatiguefree working and optimum handling.
