Find the Essentials lab products you need

Ambion® Barrier tips prevent cross-contamination of samples by means of an aerosol filter. They are RNase- and DNase-free and are ideal for handling RNA, PCR applications, and for working with radioisotopes or toxic chemicals. Ten racks containing 8 x 12 tips each are provided. They are compatible with Eppendorf®, Finnpipette, Oxford Benchmate®, Pipetman™, Proline®, Rainin, Socorex, and other brands of pipettors. Each lot of tips is subjected to rigorous testing for RNase contamination and is certified to be nuclease-free.

For Research Use Only. Not for use in diagnostic procedures.

Specifications

Volume (Metric)	200 µL
Filtered	Filtered
Sterility	Sterile
Autoclavable	Autoclavable
Format	Rack
Tip Style	Universal Fit
Shipping Condition	Room Temperature
For Use With (Equipment)	Universal Fit
Product Line	Invitrogen™

Contents & Storage

Store at room temperature.
