

Falcon® 100 mm TC-treated Cell Culture Dish, 20/Pack, 200/Case, Sterile

10212951

Falcon® 100mm Cell Culture Dish, TC-treated polystyrene, 20/pack, 200/case, sterile

Actual Dimensions - 89.43mm O.D. x 19.18mm

Improved product integrity - Redesigned packaging virtually eliminates broken and scratched dishes

Consistent culture conditions - Routine performance testing ensures consistent cell attachment and growth

Easy to visualize your cells - Stacking ring separations allow airflow between dishes; reducing condensation

Fewer messy spills - Interlocking stacking rings dramatically improve stacking stability
