Product Description

Disposable plastic Cryomold® moulds create a uniformly shaped, flat-surface specimen block when used with OCT compound for frozen sectioning. The standard mould fits directly into Cryobar® freezing wells of the Tissue Tek II® microtome/cryostat.

The moulds are available in five sizes:

- Biopsy Cryomold® 10 x 10 x 5mm
- Intermediate Cryomold® 15 x 15 x 5mm
- **Standard Cryomold® 25 x 20 x 5mm**
- Round Cryomold® Standard Ø23mm
- Round Cryomold® Standard Ø15mm
