Technical features :

Code	Tube					Colour code
	Length cm	Int. Ø mm	Ext. Ø mm	Diameter Fr	Priming volume ml	- colour
310.06	40	1.20	2.00	6	0.48	Green

2.7 Composition of the device and Accessories :

COMPONENTS	MARKER	MATERIALS
Flexible mount with cap	1	PVC
Tubing	2	PVC

For components which are likely to come into contact with the patient and/or administered products, additional points :

- Latex-free
- DEHP-free
- Does not contain any products of animal or biological origin

2.8 Indications :
PVC naso-gastric feeding tube for short-term enteral nutrition.

3 Accessories

4 Sterilization process

Sterile Medical Device : YES
Sterilization made for the device : Ethylene oxide

5 Conditions of conservation and storage

5.1	Normal conservation and storage conditions : Storage environment temperature: between 5 and 40°C. Store protected from moisture and sunlight.
5.2	
5.3	Duration of product validity : 60 months

6 Security of use

7 Instructions for use

7.1	
7.2	Indications : PVC naso-gastric feeding tube for short-term enteral nutrition.
7.3	Precautions : Re-use of this device may change its mechanical or biological features and may cause device failure, allergic reaction or bacterial infections.
7.4	

8 Additional information relating to the product

	Recommended duration of use: less than 1 week. Because of the migration of the PVC softeners in contact with gastric juices, the tube becomes more and more rigid.
