SIGMA

Adelante[®] SIGMA

INTRODUCER SET WITH HEMOSTATIC VALVE

Features:

Adelante® Sigma TKit Contains:

- One Adelante® Sigma sheath
- One dilator
- One guidewire (up to 0.038"/0.96 mm) with a flexible straight, J tip
- One needle with protector
- One syringe

Adelante® Sigma WTKit Contains:

- One Adelante® Sigma sheath
- One dilator
- One guidewire (up to 0.038"/0.96 mm) with a flexible straight, J tip

Adelante® Sigma Set Contains:

- One Adelante® Sigma sheath
- One dilator

Available in other kit configurations

The Adelante® Sigma is the next generation in vascular access sheath introducers, featuring the latest hemostatic valve technology, which allows for the introduction of small to large devices.

Adelante® Sigma Introducer Set with Hemostatic Valve Features:

- Ergonomically designed hub
- Reliable hemostatic seal to prevent blood loss and air embolism
- Easy French size identification with color coded hub and 3-way stopcock
- Kink resistant and flexible hydrophobic coated sheath for smooth insertion
- Atraumatic tip of dilator provides smooth transition between dilator and sheath during insertion
- Snap-locking dilator connector with French size indicator
- Dilator with curve memory effect for easy sheath placement
- Excellent visibility under fluoroscopy
- Complete hemostasis during insertion and withdrawal of devices
- Accepts maximum guidewire up to 0.038"/0.96 mm

SIGMA PLUS

 **oscor**[®]

Adelante[®] SIGMA PLUS

INTRODUCER WITH HEMOSTATIC VALVE
PLUS LUER CONNECT

Features:

Direct easy and secure contamination guard connection (80 cm when fully extended)
Contamination guard available as an accessory, Model No: CG8580 (20 per box)

Products not available in all regions.

The Adelante® Sigma Plus is the latest in vascular access sheath introducers, featuring hemostatic valve technology, and a special luer locking design, that allows easy and secure accessory connection. (e.g. contamination guard)

Adelante® Sigma Plus Introducer with Hemostatic Valve Plus Luer Connect Features:

- Ergonomically designed hub with dilator locking mechanism
- Reliable hemostatic seal to prevent blood loss and air embolism
- Easy French size identification with color coded hub and 3-way stopcock
- Kink resistant and flexible sheath for optimal dilation
- Hydrophobic coated sheath for smooth insertion
- Atraumatic tip of dilator provides smooth transition between dilator and sheath during insertion
- Luer lock dilator with French size indicator
- Dilator with curve memory effect for easy sheath placement
- Excellent visibility under fluoroscopy
- Complete hemostasis during insertion and withdrawal of devices
- Accepts maximum guidewire up to 0.038"/0.96 mm
