## Statement

### Extended shelf life

Getinge Disinfection AB hereby extends the shelf life from 12 months to 18 months for Getinge Clean Pre-Treatment Foam XV1509

Tests have been carried out to confirm that the product is stable during optimal storage conditions and retains the essential physical properties after the 24 month shelf life period. The extended shelf life is valid from 14 May 2013.

The following Getinge Clean chemicals have a shelf life of 24 months:

- Flusher Detergent XV1519
- Flusher Rinse XV1520
- Neutralizer XV1476
- Rinse Aid VX 1479
- Instrument Lubricant XV1478
