Accessories
Getinge has a range of ergonomically designed accessories to enable you to efficiently use Getinge Clean products.

Getinge Clean Management System

GCMS is a central dosing system that can be linked to washer-disinfectors, ultrasonic cleaners, and manual cleaning stations in healthcare and laboratory applications, to assure the correct level of detergent in each of the department's units.

GETINGE ASSURED

Getinge Assured is a comprehensive range of wash monitoring and sterility assurance indicators independently monitor your facility's processes and provide you with the added assurance that your equipment is clean and sterile as expected.
