Dear Labomed Friend,

Recently we have send out the latest news on our microscopes. It seems that a lot of you were still enjoying the summer sun and therefor you may have missed this important message.

To make sure it will reach you this time, we happily resend it.

We have upgraded our power supplies. What effect that has on the Prima DNT is shown in the attached pic.

“Less sound, more vision”

Kind regards / Met vriendelijke groet / Mit freundlichen Grüßen,

Labomed Sales Team
