Panther Healthcare Canada

PANTHER HEALTHCARE CANADA Inc. is committed to providing quality products at fair value which in turn enables the Canadian Healthcare System to deliver equitable solutions from coast to coast. Panther Healthcare is the 3rd largest global manufacturer of open and endoscopic stapling products.

Every stapler from Panther Healthcare is subjected to a firing test before being packaged and sterilized for patient use. Every single stapler and cartridge is photographed and stored for QMS tracking to ensure that every single staple has been correctly positioned.

Panther Healthcare Canada has partnered with Purple Surgical to further expand our product offering to include specimen retrieval and other surgical instruments to better serve the Canadian market. Panther Healthcare and Purple Surgical both hold an ISO 13485 certificate, are audited, and recognized under MDSAP. Their products are CE marked, FDA cleared and Health Canada licensed.

OUR VISION:

The Company that always exceeds your expectations.

OUR MISSION:

- To provide high quality products with an innovative future that connects value and fiscal responsibility to the healthcare community
- We will achieve our mission by:
 - Continuously focusing on product/process improvement and innovation in all our offerings
 - Providing the most cost-effective solution on every contract
 - Relentless pursuit of best-in-class order fulfillment

VALUE PROPOSITION:

Innovation, Quality and Consistency at a Great Price.

Contents

23 CONTACT INFORMATION

Panther Healthcare

Panther Healthcare, founded in 2002, is the 3rd largest global stapling company. Our focus is surgical stapling and minimally invasive products. We are an innovative, high technology company that combines world class R&D and manufacturing, with product penetration in over 60 countries. With over 200 intellectual property rights, Panther Healthcare has been honored with multiple national awards. Our commitment to quality is unparalleled,

Panther Healthcare test fires and records every stapler before it is packaged and sterilized for distribution.

Endo Linear Cutter

6. Endoskopinė siuvimo rankena ir kasetės.

The Endo Linear Cutter is available in 3 different shaft lengths- Short, Standard and XL. The Panther Endo Linear Cutter simultaneously staples and divides tissue while placing two triple staggered rows of titanium staples in the tissue. The universal stapler handle is designed to accommodate all cartridges and can be fired up to 25 times per patient.

6.2.3 Tinkančios laparoskopiniam siuvimo-pjovimo aparatui.

6.1.2 Aparatas gali būti užtaisytas/„iššautas“ 25 kartus.

6.1.1 Vienkartinis endoskopinis mechaninis siuvimo aparatas, suderinamas su siūlomomis kasetėmis.

6.1 Endoskopinė siuvimo rankena
