

PROTECTIVE EYEWEAR

Radiation, Laser, and Safety Protection

Your safety is our concern

Manufactured by Phillips Safety

What makes ProtecX an outstanding medical protection partner?

**Top quality products
and more than
20 years
of manufacturing
experience.**

**Dedicated
account managers
who provide the
highest level of
customer service and
product knowledge.**

**A vast assortment of
comfortable, durable
eyewear options
for all your
protective needs.**

**To place your order call your representative today
at +44 (0) 1462 440715 or visit ProtecX.co.uk**

PROTECT YOUR EYES

Your eyes are a critical tool for the work you do, and your vision is an important part of your life and well-being.

Scatter radiation and laser light both pose a serious health risk to your eyes, and every reasonable action should be taken to protect them. We offer an extensive line of eyewear that is designed for maximum comfort, weight distribution, and style. The variety of frames and features ensures there's a style to fit every need.

In this catalog, we present you with all the details you need to make informed decisions for the right eyewear. If you have any questions, **we are here to help.**

OPTIONS FOR YOUR EYEWEAR

ANTI-FOG COATING

Our No-Fog coated lenses are essential for your radiation safety glasses. They offer an unparalleled level of fog resistance from a coating that will never fog when introduced into a humid environment. The No-Fog coating works on the molecular level to prevent vapors from cohering on the surface of the lens. Whether you are experiencing humidity from the room you're working in, or a bit of sweat, this coating will give you unclouded vision for the lifesaving tasks in your day. Not available with prescription lenses.

FRAME ENGRAVING

Personalize your glasses with engraved frames to protect your investment. Engraving can be done on many of our frames so you can easily identify which glasses belong to you. There are limitations on the number of characters each frame can hold. If your request doesn't fit, we will work with you to find a solution.

PRESCRIPTION LENSES

We offer several different prescription options for our Rx-labeled frames. If you are in need of prescription glasses, we are sure to have a frame to fit. These glasses are available for those needing Single Vision, Standard Bifocal, or Progressive Bifocal prescriptions.

Prior to placing your order for prescription glasses, we require a current, legible, and signed Rx that includes your pupillary distance. Non-Rx Readers with simple magnification are available on any frames that accept Single Vision correction. Orders will not be processed without prior receipt of a valid Rx.

All radiation safety glasses are made with Schott SF6 high index lenses for the clearest vision with .75mm PbEq protection. We also have Fit-Over style frames to suit those who'd like to still wear their regular Rx glasses.

Prie kiekvieno rėmelio yra nurodytos išsamios rėmelio dydžio specifikacijos. Matmenys nurodyti milimetrais (mm)

NARROW FIT

SIZING RECOMMENDATIONS

MEDIUM FIT

5.5

Each frame has detailed specifications of the frame size listed. Measurements are in millimeters (mm) unless otherwise stated.

WIDE FIT

ADJUSTABLE FIT

There is no substitute for trying frames on, but it is helpful to narrow it down to the best options for your needs.

SIDE SHIELDS

Side shields provide additional protection and coverage. Side shields are available for purchase to fit select frames. Speak with an Account Manager for more details.

All glasses come in a hard case with a retaining strap, cleaning cloth, and care instructions.

See pages 14-17 for prescription limitations.

Wiley X® P17 | ES17
MEDIUM FIT

This Wiley X frame has a pronounced curve, non-slip rubberized temples, and nose piece for added comfort. These medium width frames are very popular due to their light weight and comfort.

FACE SHIELDS

Panorama Shield | 400 Series | ES80

Widen your range of radiation protection with the Panorama Shield 400 Series. Whether you wear prescription glasses or want to protect your eyes and nose from radiation and liquid splashes, this shield is an indispensable part of your radiation protection attire. Protection starts with the .10mm acrylic, face-formed shield suspended from a dual adjustable headpiece. Adjust it to the perfect angle for you; simply rotate the dials on the temples, then adjust a second dial on the headband for a secure, comfortable fit.

The Panorama Shield cannot be sterilized at high temperatures or with high-pressure sterilization methods, so clean by wiping the shield with a soft cloth and no abrasive cleaning materials.

Protection	Weight
10 mm	350 grams (12.3 oz.)

Panorama Shield | 450 Series | ES81

Protect your entire face, from chin to brow, with the Panorama Shield 450 Series. If you wear prescription glasses or want more protection for your face, this shield will do the job. The acrylic, stationary, face-formed shield has a wide 8" surface—ideal for splash protection. The shield extends downward from a headpiece brow band, and you can use the adjustable headband strap to increase or decrease the hat size for a secure, comfortable fit. The Panorama Shield cannot be sterilized at high temperatures or with high-pressure sterilization methods, so clean by wiping the shield with a soft cloth and no abrasive cleaning materials.

Protection	Weight
10 mm	395 grams (14 oz.)

LASER EYEWEAR

When buying laser safety glasses and goggles, be sure to select the laser glasses to block or attenuate the appropriate wavelength range and OD (Optical Density). The operating parameters of your laser, or a Certified Laser Safety Officer (LSO), will determine what laser safety glasses you should use. If you do not have an LSO on staff or information in your laser manual, please contact us and our laser safety experts can help you.

Glass filter laser safety glasses and goggles offer the maximum protection for the widest range of wavelengths. Laser safety glass filters are also very durable and have excellent visibility.

Polycarbonate laser glasses are lightweight, economical, and offer excellent protection from lasers. Our advanced anti-scratch coating makes the polycarbonate lenses extremely durable and scratch-resistant.

1. PICK A LASER LENS

	AKP	BG42	CD2	DH83
Lense Filter Specs	190-532nm OD 6+ 5000-11000nm OD 6+	700-1200nm OD 7+	190-390nm OD 5+ 9000-10600nm OD 7+	190-400nm OD 7+ 532-532nm OD 7+ 910-1070nm OD 6+ 850-1075nm OD 5+ 808-850nm OD 4+
Visible Light Transmission	41%	64%	82%	33%
Color	Orange	Light Blue	Clear	Brown
Material	Polycarbonate	Glass	Polycarbonate	Polycarbonate

	CR39	KG5	Y93	PKA
Lense Filter Specs	190-340nm OD7+ 2760-3470nm OD7+ 5000-11000nm OD7+	870-950nm OD 6+ 950-1000nm OD 9+ 1000-1550nm OD 10+ 1550-2750nm OD 6+ 2800-11000nm OD 8+	190-435nm OD 6+ 730-1085nm OD 5+ 755nm OD 7+ 1064nm OD 7+	The PKA lens is not sold on its own for laser glasses. These lenses are glass and also provide radiation attenuation with 0.75mm PbEq . When laminated to the radiation lens, the UV protection is OD 6+ 190nm-349nm because the radiation lens provides some UV blocking as well.
Visible Light Transmission	85%	Excellent	41%	64%
Color	Clear	Clear	Green	Pink
Material	Polycarbonate	Glass	Polycarbonate	Glass

2. PICK A LASER FRAME

Laser | 100

MEDIUM FIT

This wrap-around design provides a comfortable unisex fit, with rubber nose pads, rubberized temple bars, and a nylon frame that is lightweight and durable.

Black Silver

Laser | 150

MEDIUM FIT

The Fit-Over frame fits over most types of prescription glasses. If you need laser safety glasses to fit over your current eyewear, this is a great option. They offer an exceptional field of view, rubberized grip, and are lightweight.

Black

Laser | 200

ADJUSTABLE FIT

This spectacle style design has a black nylon frame and extendable temple arms for great protection and versatility.

PROTECTIVE EYEWEAR AT YOUR FINGERTIPS

Shop our extensive line of eyewear from the comfort of your home. **Visit [ProtecX.co.uk](https://www.protec.co.uk).**

WARRANTY OF EYEWEAR: 1 year from the date of purchase against manufacturer defects (material and workmanship). This does not cover normal wear and tear, or negligent use of the product (including scratched lenses). Coating issues caused by cleaning lenses in a manner other than listed on the instructions for use will void the warranty.

Repairs of eyewear are allowed for 2 years from the date of purchase.
The types of repair available are limited to eyewear purchased from ProtecX.
Prices and repair available vary based on style and repairs being made.

**Call your representative today at +44 (0) 1462 440715
or visit ProtecX.co.uk for more details.**
