## Euro-Med® Colposcopy Biopsy Instrument Sets

Our Euro-Med Colposcopy Sets feature the instruments most necessary for successful procedures. Each set comes with the four basic colposcopy hand instruments. Reap the rewards of our ready-made sets consisting of our most popular product combinations, or customize a kit to best serve your needs. Each set consists of a biopsy punch, an endocervical speculum, a curette and a hook.

# Euro-Med® Rotating Biopsy Punch Handles

A 360-Degree Rotating Shaft Allows  
Sample Collection from Any Angle

. Euromed rankena Rankena „uždaro piršto“ tipo,  
su antgalio rotacijos funkcija,  
ji leidžia antgalį sukti 360 ° kampu

Euro-Med Rotating Handle

Townsend Rotating Handle

## Rotating Biopsy Punch Handles CA\* CE

Select either the popular Euro-Med rotating handle featuring the classic closed-finger design, or the open-finger variation of the Townsend rotating handle, preferred by those with larger hands. Both are handcrafted from German stainless steel and accept all eight punch styles for total flexibility. Choose from a variety of tips to ensure that the correct instrument is always on hand.

Number	Description
64-649	Euro-Med Rotating Handle
64-485H	Townsend Rotating Handle

These rotating punch tips fit either the Euro-Med® closed rotating handle or the Townsend open rotating handle. With eight tips to select from, complete customization is possible.

Euro-Med®

## Stainless Steel Specula

A Higher Level of Control and Patient Comfort

Graves Speculum

Vu-More Speculum

Pederson Speculum

**Euromed Graves tipo makšties skētīklis.**

**Darbinės dalies ilgis – 87 mm, plotis – 20 mm**

**Euromed Graves tipo makšties skētīklis.**

**Darbinės dalies ilgis – 113 mm, plotis – 33 mm**

**Graves**

CA★ CE

The popular Euro-Med Graves vaginal speculum features a slightly wider traditional blade design. Available with standard yoke and an open-sided configuration. The Graves blade is also available in longer lengths with a Vu-More or Vu-Max™ yoke.

Number	Description	Size mm
64-100	Small	W20 L87
64-102	Medium	W33 L113
64-104	Large	W35 L125
64-108	Open-sided	W35 L122

**Pederson**

CA★ CE

One of the most widely used speculum designs, these models, with their slightly thinner traditional blade, are particularly useful with young or nulliparous women. The Pederson blade is also available with a Vu-Max yoke.

Number	Description	Size mm
391-671	Virgin	W13 L76
64-110	Small	W13 L81
391-674	Extra-Narrow	W16 L114
64-112	Medium	W22 L114
64-114	Large	W26 L121

**Vu-More™**

CA★ CE

The Vu-More provides a 25 percent larger viewing area at the yoke than a comparable Graves to afford easier instrumentation access and improved visibility. The short blades of the Mini facilitate examinations in women with cervical prolapse.

Number	Description	Size mm
64-130	Mini	W34 L89
63-902	Medium	W33 L113
63-900	Large	W35 L125
63-905	X Large	W35 L150
63-906	2X Large	W35 L160
63-907	3X Large	W35 L170
63-908	4X Large	W35 L180

New Longer Length

(W=Distal End) (L=Penetration Length)

## Stainless Lateral Wall Retractors

**Cer-View™  
Lateral Wall Retractor** CA\* CE

Contoured and shaped to fit into the yoke of a standard speculum, the retractor expands beyond the width of the speculum blades and retracts the side walls of the vaginal vault to achieve an unobstructed view of the cervical anatomy. Cer-View is especially useful in the presence of vaginal prolapse.

Number	Description	Size mm
64-310	Medium	W22 L142
64-320	Large	W22 L155

**Tru-View™  
Lateral Wall Retractor** CA\* CE

Designed specifically for use with an obese patient, the Tru-View has longer tapered blades that fit a long vaginal canal without pinching in the yoke area. The unique arm configuration provides added strength and support under prolapse conditions. Tru-View is a natural fit when combined with the Snowman™ speculum.

Number	Description	Size mm
64-307	Extra Large	W32 L190

Euromed Jackson makšties skētiklis.  
Darbinės dalies ilgis – 90 mm, plotis – 41 mm

Euromed Jackson makšties skētiklis.  
Darbinės dalies ilgis – 108 mm, plotis – 40 mm

**Jackson  
Vaginal Retractor** CA\* CE

This traditional retractor can be inserted and pulled downward to provide maximum posterior viewing. Like all Euro-Med specula and retractors, the Jackson features a polished stainless steel blade for maximum patient comfort.

Number	Description	Size mm
64-322	Medium	W41 L89
64-324	Large	W40 L108

## Sounds and Dilators

**Sims Uterine Sound** CA\* CE

Sims Uterine Sounds are fully graduated for accurate fundal depth determination and feature a bulbous tip to reduce the risk of perforation. Part number 64-600 is made of silver-plated copper, which makes it ideal for situations where a more malleable sound is useful. Part number 64-601 is not as malleable but will resist corrosion due to its stainless steel properties. Both can adapt to virtually any anatomical variation.

Number	Description	Size
64-601	Sims Uterine Sound – Stainless Steel	L12.5"/317
64-600	Sims Uterine Sound – Silver-Plated Copper*	L12.5"/317

\*Silver-plated copper may tarnish.

**Dil-Os™ Uterine Sound/Dilator** CA\* CE

These versatile tools safely facilitate rapid location of the cervical Os, allow conservative endocervical dilation, help the gradual opening of the internal Os, give accurate determination of uterine depths and provide the tactile determination of intrauterine adhesions and septa.

Number	Description	Size
64-336	Slight Curve	L12.7"/322
64-337	Strong Curve	L12.5"/317
64-338	Set (64-336, 64-337)	

# Sounds and Dilators

## Mini Cervical Dilator Set CA\* CE

Ideally suited for nulliparous patients or those with a stenotic Os. Includes a universal handle that holds dilator tips from sizes 1 to 3 mm in half-millimeter increments. Rounded dilator tips help prevent uterine wall puncture.

Number	Description
64-374	5 Dilators, Handle and Storage Pouch

**Euromed Gimdos kaklelio praplėtimo rinkinys:** rinkinyje universali rankena pritaikyta 5 skirtingo dydžio gimdos kaklelio praplėtimo antgaliams . Antgalių dydžiai: 1 mm, 1,5 mm, 2 mm, 2,5 mm, 3 mm

## Small Cervical Dilator Set CA\* CE

This small cervical dilator set is designed for patients with a stenotic cervical Os. Set of six dilators including sizes 1 through 6 mm. Comes in a fitted and numbered storage pouch.

Number	Description
64-372	6 Dilators and Storage Pouch

**Euromed Gimdos kaklelio praplėtimo rinkinys:** rinkinyje 6 skirtingo dydžio gimdos kaklelio praplėtimo antgalių . Antgalių dydžiai: 1 mm, 2 mm, 3 mm., 4 mm, 5 mm, 6 mm.

## Hank Cervical Dilators CA\* CE

Hank cervical dilators come in a set of six or individually, ranging from 4.5 to 10 mm. Dilators have a full millimeter size on one end and a half-millimeter size on the other for smooth dilation. The set comes in a custom-fitted and numbered pouch for easy storage and selection.

Number	Size mm
64-370	6 Dilators and Storage Pouch
61201	4.5/5
61202	5.5/6
61203	6.5/7
61204	7.5/8
61205	8.5/9
61206	9.5/10

## Hegar Dilator Set CA\* CE

Stainless steel Hegar dilators provide the option of double-ended dilators in even millimeter increments from 3 to 18 for a greater diameter range over the entire set. Each double-ended dilator is custom-labeled accordingly. Sold in a set of eight or individually for added convenience.

Number	Size mm
61207	3/4 - 17/18 (8/Set)
61208	3/4
61209	5/6
61210	7/8
61211	9/10
61212	11/12
61213	13/14
61214	15/16
61215	17/18

## Pratt Dilator Set CA\* CE

Stainless steel Pratt dilators offer the largest diameters in our line of cervical dilators, ranging from 13 French (4.3 mm) to 59 French (19.6 mm). Each is double-ended and custom-labeled accordingly in French scale measurements. Sold in a set of eight or individually for added convenience.

Number	Size
391-830	13/15 Fr – 41/43 Fr (8/Set)
391-833	13/15 Fr
391-834	17/19 Fr
391-835	21/23 Fr
391-836	25/27 Fr
391-837	29/31 Fr
391-838	33/35 Fr
391-839	37/39 Fr
391-840	41/43 Fr
391-841	45/47 Fr
391-842	49/51 Fr
391-843	53/55 Fr
391-844	57/59 Fr

## Endocervical Currettes

### Kevorkian with Basket

CA\* CE

### Kevorkian without Basket

CA\* CE

### Townsend™

CA\* CE

Handle Style

A narrow tip permits sampling without dilation, while the stainless steel blade resists clogging and dulling. With basket for sample retention.

Number	Length
66-442	12"/305 mm

Like the Kevorkian with basket, this curette's design is traditionally weighted for optimal balance and control.

Number	Length
66-440	12"/305 mm

The rounded and tapered tip facilitates entry through a stenotic Os. The design of the cutting edge yields improved endocervical sampling.

Number	Length
66-445	12.3"/312 mm

### Kevorkian Collector™

CA\* CE

### London™

CA\* CE

### Endocrette™

CA\* CE

Handle Style

Another Euro-Med exclusive with a unique basket that offers greater assurance of sample retention. Rounded tip facilitates cervical entry.

Number	Length
66-441	12"/305 mm

Euromed Kiuretė Kevorkian tipo, ilgis 305 mm., su apvaliu galu

The flanged basket facilitates sample collection and ensures optimal sample retention while exiting. The design also incorporates a rounded, tapered tip to permit nontraumatic entry into a stenotic Os.

Number	Length
64-490	11.5"/292 mm

Our revolutionary design allows optimal sample collection with a simple swirl motion – no pushing or pulling. Closed blade on both ends eliminates the chance of sample loss and reduces patient discomfort.

Number	Length
66-447	12.3"/312 mm

## Endometrial Currettes

### Novak

CA\* CE

### Randall

CA\* CE

### Sims

CA\* CE

Handle Style

Handle Style

Our most popular reusable endometrial sampler. Features a suction attachment for improved sampling.

Number	Size	Length
64-624	1 mm	10"/254 mm
64-626	2 mm	10"/254 mm
64-628	3 mm	10"/254 mm
64-630	4 mm	10"/254 mm

The less aggressive Randall endometrial sampler also has a suction attachment for improved sample collection.

Number	Size	Length
64-620	3.9 mm	10"/254 mm

The premier choice for uterine curettage. Sharp and malleable, they come in many different sizes and are an industry standard 11 inches long.

Number	Size	Length
392-110	0 (5 mm)	11"/280 mm
392-111	1 (7 mm)	11"/280 mm
392-112	2 (9 mm)	11"/280 mm
392-113	3 (11 mm)	11"/280 mm
392-114	4 (13 mm)	11"/280 mm

## Cervical Tenacula

### Braun Tenaculum Forceps

CA\* CE

This tenaculum is an industry standard offering maximum cervical stability via its two opposing hooks. The long length provides excellent cervical access.

Number	Length
64-420	9.9"/252 mm

Euromed Viendantės žnyplės Schroeder tipo , ilgis 252 mm.

### Schroeder Tenaculum

CA\* CE

The Schroeder tenaculum is essentially the same as the Braun except that it has more rounded pincers.

Number	Length
64-410	9.9"/252 mm

### Duplay Tenaculum Double Curved

CA\* CE

This tenaculum has pincers like the Braun tenaculum but provides additional length and a double curve for more challenging situations.

Number	Length
61352	11"/281 mm

### Goldstein Grasp™ Cervical Stabilizer

CA\* CE

The Goldstein Grasp provides rapid atraumatic stabilization of the cervical Os during placement of catheters, endometrial samplers and other intrauterine devices, with minimal tissue trauma.

Number	Length
64-6026	9.4"/239 mm

## Hooks

### Angle Hooks

CA\* CE

These convenient hooks offer a unique angle to allow better access to and visualization of the cervix during use. Available configurations: straight, left and right.

Number	Description	Length
36-630	Straight Hook	9.8"/248 mm
36-631	Left Hook	9.6"/244 mm
36-632	Right Hook	9.6"/244 mm

### Iris Hook

CA\* CE

This petite and delicate hook readily stabilizes the cervix during procedures and allows greater access.

Number	Length
36-625	10.4"/263 mm

### Marlow Corkscrew Hook

CA\* CE

Excellent for stabilizing the cervix during invasive procedures. This unique hook can be screwed into the cervical tissue that needs to be removed so the sample will not be lost.

Number	Length
67-451	9.3"/236 mm

Euromed Kabliukas gimdos spiralei išimti, kurio ilgis 261 mm.

### Double IUD Hook

CA\* CE

Dual grasping hooks for better IUD retrieval. With a working length of nearly 27 cm and an angled design, the Double IUD Hook has a rounded tip for easy cervical insertion.

Number	Length
392-151	10.6"/269 mm

### Emmett Tenaculum Hook

CA\* CE

Larger hook affords added stability and control of the cervix during procedures.

Number	Length
66-450	9.8"/249 mm

### IUD Hook

CA\* CE

For easy and effective retrieval and removal of an IUD. Made of malleable stainless steel.

Number	Length
392-148	10.3"/261 mm

## Dressing and Tissue Forceps

### Allis

CA\* CE

Available in three lengths, the Allis forceps feature an interlocking 4 x 5 or 5 x 6 tooth pattern on their distal tip for secure tissue retraction. The built-in ratchet mechanism will hold firm.

Number	Description	Length
61981	4 x 5 Teeth	6"
61983	5 x 6 Teeth	7¼"
61882	5 x 6 Teeth	10"

### Potts-Smith Tissue

CA\* CE

The Potts-Smith Tissue forceps are the tissue-grasping sibling to the Potts-Smith Dressing forceps. The distal end features a 1 x 2 tooth pattern for excellent tissue manipulation.

Number	Description	Length
61871	1 x 2 Teeth	7¼"
61872	1 x 2 Teeth	8¼"

### Potts-Smith Dressing

CA\* CE

Longer and more delicate than the standard Dressing forceps, the Potts-Smith are used to pick up and manipulate dressings and sponges.

Number	Length
10-202	8¼"

### Dressing Serrated

CA\* CE

Dressing forceps are the instrument of choice to help manipulate and pack dressings and sponges. These versatile forceps can also be used to handle and manipulate tissue.

Number	Length
61804	5½"
61805	6"

Euromed Pincetas chirurginis, dantukų santykis 1x2, ilgis -140 mm. (5 ½ ")

Euromed Pincetas chirurginis, dantukų santykis 1x2, ilgis -178 mm. (7 ")

### Tissue 1 x 2

CA\* CE

Standard tissue forceps with a 1 x 2 tooth pattern to hold and manipulate tissue during suturing.

Number	Description	Length
61841	1 x 2 Teeth	5½"
61843	1 x 2 Teeth	7"
61844	1 x 2 Teeth	8"

## Uterine Forceps

### Bozeman Uterine Forceps

CA\* CE

Double-curved for optimal uterine insertion, the Bozeman Uterine Forceps are a universal tool for various situations such as holding gauze and sponges, manipulating tissue as well as doubling up as a longer hemostat.

Number	Length
392-660	10.2"/258 mm

### Kelly Uterine Forceps

CA\* CE

Used to remove fibroids from the uterus.

Number	Length
417-131	12.5"/318 mm

Euromed Korcangas Foerster tipo, tiesus, su užrakinimo mechanizmu, ilgis 254 mm. Euromed Korcangas Foerster tipo, lenktas, su užrakinimo mechanizmu, ilgis 254 mm.

### Foerster Uterine Polyp Forceps

CA\* CE

With a smaller distal tip than the Kelly Uterine Forceps and a Euro-Med locking ratchet mechanism, these forceps are used to remove polyps from the uterus.

Number	Description	Length
415-140	Straight	10"/254 mm
415-141	Curved	10"/254 mm

Euromed Adatkotis Mayo-Hegar tipo, tiesus, ilgis 158 mm. (6 1/4 ") ir Euromed Adatkotis Mayo-Hegar tipo, tiesus, ilgis 180 mm. (7 3/8 ")

## Needle Holders

### Mayo-Hegar (Wider Jaw)

CA\* CE

This essential Gyn instrument comes in various lengths from 5 to 8 inches. The serrated jaws hold suture needles true and tight for efficient tissue repair.

Number	Length
62809	5½"
62810	6¼"
62815	7¾"
62820	8"

### Heaney (Curved)

CA\* CE

Known for its curved distal tip and 8¼-inch length, the Heaney needle holder features tungsten carbide inserts for outstanding holding power.

Number	Length
62825	8¼"

### Crile-Wood (Narrow Jaw)

CA\* CE

With a thinner distal tip than the Mayo-Hegar, the Crile-Wood is ideal for more delicate suturing applications.

Number	Length
62840	7¼"

# Hand-Finished Stainless Steel Scissors

## Operating Scissors (Straight)

The workhorse of surgical scissors. Available in three tip configurations: sharp/sharp, sharp/blunt and blunt/blunt. Ideal for routine tissue cutting and dissection.

Number	Description	Length
62002	B/B	5½"
62008	S/B	5½"
62014	S/S	5½"
62004	B/B	6½"
62005	B/B	7½"
62010	S/B	6½"
62011	S/B	7½"

CA\* CE

## Metzenbaum Scissors (Straight or Curved)

CA\* CE

Essential scissors for cutting delicate tissue and blunt dissection. Having a longer handle-to-blade distance, the Metzenbaum is available in a variety of lengths; the 7-inch length is most preferred.

Straight		Curved	
Number	Length	Number	Length
62116	7"	62131	5½"
62127	8"	62118	7"
62120	9"	62119	8"
62122	11"	62124	9"
		62126	11"

## Spencer Suture Scissors

CA\* CE

Standard scissors for the removal of sutures. One blade is notched to slide underneath the suture to facilitate removal.

Number	Description	Length
62164	Straight	3½"

## Mayo Scissors (Straight or Curved)

CA\* CE

A classic pair of scissors for any Gyn office. While typically used for cutting more dense fascia, they can also be used to cut sutures. Available in different lengths; the 6¾-inch is most preferred.

Straight		Curved	
Number	Length	Number	Length
62063	5½"	62067	5½"
62065	6¾"	62069	6¾"
62066	9"	62070	9"

Euromed Žirkklės Mayo tipo, tiesios, ilgis 172 mm. (6 ¾ ")

Euromed Žirkklės Mayo tipo, tiesios, ilgis 228 mm. (9 ")

Euromed Žirkklės Mayo tipo, lenktos, ilgis 228 mm. (9 ")

## Iris Scissors (Straight or Curved)

CA\* CE

"Must have" scissors for very delicate tissue dissection and the cutting of fine sutures. These petite scissors are available in the classic length of 4½ inches.

Number	Description	Length
62140	Straight S/S	4½"
62143	Curved S/S	4½"
