Professional Intervention Products Manufacturer

**SHANGHAI KINDLY MEDICAL INSTRUMENTS CO., LTD.**

## Company Introduction

Shanghai Kindly Medical Instruments Co., Ltd. (hereinafter referred to as "our company") which established in 2006 is located in Jiading District, Shanghai, and has been focusing on the research and development, production and sales of interventional medical devices. Our company is a subsidiary of Shanghai Kindly Enterprise Development Group Co., Ltd (stock code: 603987.SH) which listed on the main board of Shanghai Stock Exchange.

Our company is one of the minority medical device manufacturers in China with the complete industrial chain consists of several competence including independent mold tooling, product R&D, equipment developing and sterilization. Our company has obtained ISO13485, CE and FDA certification. Our products are exported to the United States, Europe, South America, the Middle East, South Africa and more than 40 other countries and regions. According to the 2018 industry report generated by Frost & Sullivan, an American leading consulting firm, we ranked 2nd among domestic brands in coronary interventional device market and 1st among domestic brands in PCI supporting device market.

Our company has seven subsidiaries, which focusing on different areas of interventional therapies. We adhere to the corporate culture of "Team is the cornerstone of enterprise; Innovation is the engine of development; Execution is key to success", and continuously enhances the ability of independent innovation and develops independent intellectual property products. By the end of July 2019, our company had 26 NMPA certificates, 28 CE certificates, 10 FDA certificates and 59 authorized patents, including 11 invention patents and 40 utility model patents, 58 patents under application and 5 software copyrights. What worth mention is that our company had received a great number of awards, such as Shanghai High-tech Enterprise, Shanghai Science and Technology Little Giant Enterprise, Shanghai "Specialized, Refined, Special, New" Enterprise, Shanghai Patent Pilot Enterprise, etc. Our company has received support from Shanghai Torch Project, Shanghai hi-tech Achievements Transformation Project, Shanghai Science and Technology Support Project, Shanghai Major Technical Reform Project, Shanghai Technological Innovation Fund, Shanghai Science and Technology Talents Program, National Innovation Fund, Science and Technology Innovation and Entrepreneurship Talents of the Ministry of Science and Technology, National "Ten Thousand People Program" Technology Entrepreneurship Leading Talents, etc.

At present, our company has more than 770 employees, owns Shanghai production base and Zhuhai production base, in possession of considerable industrial foundation and industry position. In the future, our company will maintain "To be a world-renowned interventional and implantable medical device group led by scientific and technological innovation" as our development vision, continue to uphold the development concept of "Innovation serves health, high-quality achieves excellence", and contribute to the development of China's medical device industry and global human health!

### Enterprise Vision:

Become a globally-renowned interventional and implantable medical device group led by technology innovation!

### Business Philosophy:

Get symbiosis, success and development together with customers, partners and all staff!

### Enterprise Spirit:

Team is the cornerstone of enterprise! Innovation is the engine of development! Execution is the key to success!

### Enterprise Mission:

Serve globally health industry with innovative technology and high quality products!

## Aukšto slėgio prailginimo linija

### High Pressure Tubing

- Various length and connector types to choose
- EO-sterilization **Sterili**
- PU tubing with braided Nylon liner for 1200 psi
- Validity : 3 years
- PVC tubing for 500 psi or 40 psi (DEHP- free available) **Jungtis su konektoriais ir apsauginiais kamšteliais galuose**
- Soft, flexible, transparent, safety cap on the ends; one end luer lock connection, other end with connection to intravenous catheter

Minkšta, lanksti bei permatoma. Iš vienos pusės turi jungtį prie Medrad CT tipo vienkartinio švirkšto su Luer-Lock jungtimi, o kitoje į intaveninį kateterį.

Ref.NO.	Type	Production Description	Ref.NO.	Type	Production Description
