

Laboratory markers

The multi-purpose laboratory marker writes on almost any surfaces of glass, plastics and paper. With this permanent marker you can label, for example, microscope slides, embedding cassettes, Petri dishes and CDs.

- the ultra fine tip and the contrasty black colour allow clearly legible writing
- writes immediately (no priming required)
- water-resistant
- resists most laboratory chemicals
- odourless
- non-toxic
- does not readily dry out and lasts a long time
- with holding clip to attach it to your pocket or writing board
- 12 pieces in a box

Cat. No.	Multipack	Unit
